Risk Management

The investment objective of CIBC European Equity Fund (the Fund) is to provide long-term growth through capital appreciation by investing primarily in equity securities of medium to large companies, located in select member countries of the European Union, as well as securities of companies in other European countries with established stock exchanges, and in less developed European countries.

The Fund employs a strategy that focuses on industries that have generated consistent, predictable, and sustainable above-average earnings in the past by investing in securities such as preferred shares, convertible bonds, and warrants. The Fund may use derivatives consistent with its investment objective and as permitted by the Canadian securities regulatory authorities.

The Statement of Investment Portfolio presents the securities held by the Fund as at December 31, 2008 and the securities are grouped by asset type, industry sector, geographic region, or currency exposure. Significant risks that are relevant to the Fund are discussed below. General information on risk management and specific discussion on credit, currency, interest rate, liquidity, and other price/market risk can be found in note 2 of the financial statements.

Credit Risk

As at December 31, 2008, other than short-term investments, the Fund had no significant investments in fixed income securities.

Currency Risk

The table below indicates the currencies to which the Fund had significant exposure as at December 31, 2008, based on the market value of the Fund's financial instruments (including cash and cash equivalents) and the underlying principal amounts of forward foreign currency contracts, as applicable.

	<i>Holdings Exposed to Currency Risk (including derivatives)* (\$)</i>	<i>Forward Foreign Currency Contracts (\$)</i>	<i>Total Exposure (\$)</i>	<i>Percentage of Net Assets</i>
Euro Currency Unit	93,525,605	—	93,525,605	57.72
British Pound	33,146,137	—	33,146,137	20.46
Swiss Franc	21,296,043	—	21,296,043	13.14

*Amounts include monetary and non-monetary items.

As at December 31, 2008, if the Canadian dollar had strengthened or weakened by 1% in relation to all currencies, net assets would have decreased or increased, respectively, by approximately \$1,582,360. This analysis assumes that all other variables remained unchanged. In practice, the actual results may differ from this analysis and the difference could be material.

Interest Rate Risk

As at December 31, 2008, the majority of the Fund's financial assets and liabilities are non-interest bearing or short-term in nature; accordingly, the Fund is not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates.

Liquidity Risk

The Fund is exposed to daily cash redemptions of redeemable units. The Fund retains sufficient cash and cash equivalent positions to maintain adequate liquidity.

Other Price/Market Risk

The table below indicates the increase or decrease in net assets had the value of the Fund's benchmark(s) increased or decreased by 1%, respectively, as at December 31, 2008. This change is estimated based on the historical correlation between the return of the Fund as compared to the return of the Fund's benchmark(s), using 36 monthly data points, as available, based on the monthly net returns of the Fund.

<i>Benchmark</i>	<i>Impact on Net Assets (\$)</i>
MSCI Europe Index	1,485,964

This analysis assumes that all other variables remained unchanged. The historical correlation may not be representative of the future correlation and, accordingly, the impact on net assets could be materially different.

Statements of Net Assets
(in 000s, except per unit amounts)

As at December 31, 2008 and 2007 (note 1)

	2008	2007

Notes to Financial Statements

December 31, 2008 and 2007

1. CIBC Mutual Funds and CIBC Family of Managed Portfolios — Organization of the Funds and Financial Reporting Periods

Each of the CIBC Mutual Funds and CIBC Family of Managed Portfolios (individually, a "Fund", and collectively, the "Funds") is a mutual fund trust organized under the laws of Ontario and governed by a declaration of trust ("Declaration of Trust").

CIBC Securities Inc. is the Principal Distributor of the Funds, Canadian Imperial Bank of Commerce ("CIBC") is the manager (the "Manager") of the Funds, and CIBC Trust Corporation is the trustee (the "Trustee") of the Funds.

Each Fund may issue an unlimited number of classes of units and an unlimited number of units of each class. Each class may charge a different management fee. Operating expenses can be either common or class specific. Class specific expenses are allocated on a class-by-class basis. As a result, a separate net asset value per unit is calculated for each class.

CIBC Canadian T-Bill Fund, CIBC Money Market Fund, CIBC U.S. Dollar Money Market Fund, and CIBC Canadian Bond Fund offer both Class A units (previously having no designation) and Premium Class units. The Premium Class units are available to investors with a minimum investment of \$100,000 for CIBC Canadian T-Bill Fund, CIBC Money Market Fund, and CIBC U.S. Dollar Money Market Fund, and \$50,000 for CIBC Canadian Bond Fund on a no-load basis, and offer a lower management fee.

The Statement of Investment Portfolio of each Fund are as at December 31, 2008. The Statements of Net Assets is as at December 31, 2008 and 2007, and the Statements of Operations and Changes in Net Assets are for the years ended December 31, 2008 and 2007, except for Funds or classes established during either year, in which case the information presented is from the Date Established or the Inception Date to December 31, 2008 or 2007, respectively.

"Date Established" is the date on which a Fund was established by the Declaration of Trust. "Inception Date" is the date upon which units of a class of a Fund were first sold to the public under prospectus.

Name	Date Established	Inception Date

2. Summary of Significant Accounting Policies

These financial statements, prepared in accordance with Canadian generally accepted accounting principles ("GAAP"), include estimates and assumptions by management that affect the reported amounts of assets, liabilities, income, and expenses during the reporting periods. Actual results may differ from such estimates.

Adoption of New Accounting Standards

CICA Handbook Section 1535, Capital Disclosures

The Canadian Institute of Chartered Accountants ("CICA") issued CICA Handbook Section 1535, Capital Disclosures, effective for interim and annual financial statements relating to fiscal years beginning on or after October 1, 2007. The main objective of this new standard is to disclose information about a legal entity's capital and how it is managed. On January 1, 2008, the Funds adopted this new standard. The adoption of this standard did not have an impact on the Funds results or financial positions. The additional disclosure required by this standard can be found in Note 4, *Units Issued and Outstanding*.

CICA Handbook Section 3862 and 3863, Financial Instruments — Disclosures

The CICA issued CICA Handbook Section 3862, Financial Instruments - Disclosures, and Section 3863, Financial Instruments — Presentation, effective for interim and annual financial statements relating to fiscal years beginning on or after October 1, 2007. These standards provide comprehensive disclosure and presentation requirements for financial instruments. Section 3862 replaces the disclosure portion of Section 3861, Financial Instruments — Disclosure and Presentation, and introduces new requirements for specific qualitative and quantitative disclosure about risks. This includes the requirements to quantify exposures for certain risks and provide sensitivity analysis for some risks. The main objective of this new standard is to enable investors to evaluate the significance of financial instruments, the nature and extent of risks involved, and how these risks are managed. Section 3863 carries forward the presentation requirements from Section 3861, unchanged. On January 1, 2008, the Funds adopted these standards retroactively without restatement of prior period financial statements in accordance with their transitional provisions. The adoption of these standards did not have an impact on net assets, increase(decrease) in net assets from operations, or increase(decrease) in net assets from operations per unit of the Funds.

Please refer to each Fund's Statement of Investment Portfolio for specific risk disclosure.

a) Risk management

The Funds' overall risk management approach includes formal guidelines that govern the extent of exposure to various types of risk, including diversification within asset classes and limits on the exposure to individual investments and counterparties. In addition, derivative financial instruments may be used to manage certain risk exposures. The Manager also has various internal controls to oversee the Funds' investment activities, including monitoring compliance with the investment objective and strategies, internal guidelines, and securities regulations. Please refer to each Fund's Statement of Investment Portfolio for specific risk disclosures.

Credit risk

Credit risk is the risk that a counterparty to a financial instrument, such as a fixed income security or a derivative contract, will fail to discharge an obligation or commitment that it has entered into with the Funds. The value of fixed income securities and derivatives as presented on the Statement of Investment Portfolio includes consideration of the creditworthiness of the issuer and, accordingly, represents the maximum credit risk exposure of the Funds. Certain Funds may invest in short-term fixed income securities issued or guaranteed primarily by Government of Canada or any Canadian provincial government, obligations of chartered Canadian banks, trust companies, and commercial paper with approved credit ratings. The risk of default on these short-term fixed income securities is considered low and these securities primarily have credit ratings of 'A-1 (Low)' (as rated by Standard & Poor's, a division of The McGraw-Hill Companies, Inc., or equivalent rating from another rating service) or higher.

Currency risk

Currency risk is the risk that the value of an investment will fluctuate due to changes in foreign exchange rates. This is because mutual funds may invest in securities denominated or traded in currencies other than the Funds' reporting currency.

Interest rate risk

Prices of fixed income securities generally increase when interest rates decline, and decrease when interest rates rise. This risk is known as interest rate risk. Prices of longer-term fixed income securities will generally fluctuate more in response to interest rate changes than would shorter-term securities. Due to the nature of short-term fixed income securities with a

Notes to Financial Statements

remaining term-to-maturity of less than one year, these investments are not generally exposed to a significant risk that their value will fluctuate in response to changes in the prevailing levels of market interest rates.

Liquidity risk

The Funds are exposed to daily cash redemptions of redeemable units. The Funds retain sufficient cash and cash equivalent positions to maintain adequate liquidity. In accordance with securities regulations, the Funds are restricted from purchasing additional illiquid assets if, immediately after the purchase, more than 10% of their assets based on market value at time of purchase would consist of illiquid assets.

Other price/market risk

Other price/market risk is the risk that the value of investments will fluctuate as a result of changes in market conditions. Several factors can influence market trends, such as economic developments, changes in interest rates, political changes, and catastrophic events. All investments are exposed to other price/market risk.

b) Investment Transactions, Income Recognition, and Recognition of Realized and Unrealized Gains and Losses

- i) Each transaction of purchase or sale of a portfolio asset by a Fund is reflected in the net assets no later than the first computation of net assets made after the date on which the transaction becomes binding upon the Fund.
- ii) Interest income is recorded on the accrual basis.
- iii) Dividend income is recorded on the ex-dividend date.
- iv) Securities that are exchange traded are recorded at current value established by the closing bid price. Debt securities are recorded at current value, established by the closing bid price on the over the counter market ("OTC"). Unlisted securities are recorded at current value using fair valuation techniques established by the Manager in establishing a current value.
- v) Realized gains and losses on investments and unrealized appreciation or depreciation of investments are calculated using the average cost, excluding transaction costs, of the related investments.
- vi) Other income is the sum of income other than that which is separately classified on the Statements of Operations.

c) Portfolio Securities

The cost of securities of the Funds is determined in the following manner. Securities are purchased and sold at a market-traded price to arrive at a value for the position traded. The total purchased value represents the total cost of the security to the Fund. When additional units of the same security are purchased, the cost of those additional units is added to the total security cost. When units of the same security are sold, the proportionate cost of the units of the security sold is deducted from the total security cost. If there is a return of capital paid by a security, the amount of this return of capital is deducted from the total security cost. This method of tracking security cost is known as 'average cost' and the current total for any one security is referred to as the adjusted cost base or 'ACB' of the security. Transaction costs incurred in portfolio transactions are excluded from the average cost of investments and are recognized immediately in net income and are presented as a separate expense item in the financial statements.

The difference between the current value of securities and their average cost, excluding transaction costs, represents the unrealized appreciation (depreciation) in value of the portfolio investments. The applicable period change in unrealized appreciation (depreciation) of investments is included on the Statements of Operations.

Short-term investments on the Statement of Investment Portfolio are presented at their current value. Accrued interest for bonds is disclosed separately on the Statements of Net Assets.

d) Mortgages

CIBC Mortgages Inc. ("CIBC Mortgages") is the counterparty when CIBC Short-Term Income Fund purchases and sells mortgages. Mortgage purchases are priced using the Modified Lender's Rate method, which is the principal amount that will produce a yield to CIBC Short-Term Income Fund of not more than a quarter of one percent (25 basis points) less than the interest rate at which CIBC Mortgages is making commitments at the time of purchase, to loan on the security of comparable mortgages, provided that CIBC Mortgages has entered into an agreement to repurchase the mortgages from CIBC Short-Term Income Fund in circumstances benefiting CIBC Short-Term Income Fund and that such an agreement is considered by the Trustee to justify the difference in yield to CIBC Short-Term Income Fund. The 25 basis points yield difference represents the payment of a fee (the "guarantee fee") to CIBC Mortgages for its agreement to repurchase the mortgages from CIBC Short-Term Income Fund in circumstances benefiting CIBC Short-Term Income Fund. This guarantee fee was \$724 for the year ended December 31, 2008 and \$73,214 for the year ended December 31, 2007. This guarantee fee is amortized on a straight-line basis over the term of the related mortgages, and the unamortized balance is included in other receivables on the Statements of Net Assets. Discounts and premiums on the purchase of mortgages are also amortized on a straight-line basis over the term of the related mortgages.

CIBC Short-Term Income Fund sells mortgages at market value, except when CIBC Short-Term Income Fund requires liquidity and CIBC Short-Term Income Fund exercises the right to require CIBC Mortgages to buy back mortgages. In such circumstances, if to meet redemption requests, the price shall be that at which CIBC Mortgages is making mortgage commitments for comparable mortgages less one quarter of one percent, or the price will be an amount agreed to at the time, which amount shall not be less than 95% of the current value of such mortgages (calculated in accordance with the Declaration of Trust).

The difference between the current value of mortgages and their amortized cost is included in Increase (decrease) in unrealized appreciation (depreciation) of investments on the Statements of Operations.

e) Foreign Exchange

The value of investments and other assets and liabilities denominated in foreign currencies is translated into Canadian dollars (except for CIBC U.S. Dollar Money Market Fund (Class A and Premium Class), CIBC U.S. Dollar Managed Income Portfolio, CIBC U.S. Dollar Managed

Balanced Portfolio, and CIBC U.S. Dollar Managed Growth Portfolio, which are valued in U.S. dollars) at the current rates prevailing on each valuation date.

Purchases and sales of investments, income, and expenses are translated into Canadian dollars at the foreign exchange rates prevailing on the dates of such transactions. Foreign currency translation gains (losses) on investments and income transactions are included in Net realized gain (loss) on foreign currency and in Income, respectively, on the Statements of Operations.

f) Forward Foreign Currency Contracts

The Funds may enter into forward foreign currency contracts for either hedging or non-hedging purposes where such activity is consistent with their investment objectives and as permitted by the Canadian securities regulatory authorities.

Changes in the current value of forward foreign currency contracts are recorded as Unrealized gain (loss) on forward foreign currency contracts on the Statements of Net Assets, and are recorded as an Increase (decrease) in unrealized appreciation (depreciation) of investments during the applicable period on the Statements of Operations.

The gain or loss arising from the difference between the value of the original forward foreign currency contract and the contract at close or delivery is realized and recorded as Net realized gain (loss) on foreign currency for the Funds that use the forward foreign currency contracts for hedging, or as Income (loss) from forward foreign currency contracts for the Funds that do not use the forward foreign currency contracts for hedging.

g) Futures Contracts

The margin deposits with brokers relating to futures contracts are included in Margin on the Statements of Net Assets. Any change in the margin requirement is settled daily, and is included in Receivable for portfolio securities sold or Payable for portfolio securities purchased on the Statements of Net Assets.

Any difference between the settlement value at the close of business on each valuation date and the settlement value at the close of business on the previous valuation date is recorded as Income (loss) from futures contracts on the Statements of Operations.

h) Options

Premiums paid for purchased call and put options are included in Investments at current value on the Statements of Net Assets. When a purchased option expires, the Fund will realize a loss in the amount of the cost of the option. For a closing transaction, the Fund will realize a gain or loss depending on whether the proceeds are greater or less than the premium paid at the time of purchase. When a purchased call option is exercised, the cost of the security purchased is increased by the premium paid at the time of purchase.

Premiums received from writing options are included in Investments at current value on the Statements of Net Assets as initial reductions in the value of investments. Premiums received from writing options that expire unexercised are recorded as Income on the Statements of Operations. For a closing transaction, if the cost of closing the transaction exceeds the premium received, the Funds will record a realized loss, or if the premium received at the time the option was written is greater than the amount paid, the Funds will record a realized gain. If a written put option is exercised, the cost for the security delivered is reduced by the premiums received at the time the option was written.

i) Securities Lending

The Funds may lend portfolio securities in order to earn additional revenue, which is disclosed on the Statements of Operations. The loaned assets of any one Fund are not permitted to exceed 50% of the current value of the assets of that Fund (excluding collateral debt for the loaned securities). The minimum allowable collateral is 102% of the current value of the loaned securities as per the requirements of National Instrument 81-102. Collateral can consist of the following ("Permitted Collateral"):

- i) Cash.
- ii) An evidence of indebtedness that is issued or fully and unconditionally guaranteed as to the principal and interest by: a) the government of Canada, or a province or territory of Canada; b) the government of the United States of America or the government of one of the states of the United States of America; c) the government of another sovereign state, or a permitted supranational agency, if, in each case, the evidence of indebtedness has an approved credit rating; or d) a Canadian financial institution or a financial institution that is not incorporated or organized under the laws of Canada or of a province or territory of Canada, if, in either case, evidences of indebtedness of that issuer or guarantor that are rated as short-term debt by an approved credit rating organization have an approved credit rating.
- iii) Irrevocable Letters of Credit issued by a Canadian financial institution, if evidences of indebtedness of the Canadian financial institution that are rated as short-term debt by an approved credit rating organization have an approved credit rating.
- iv) Securities that are immediately convertible into securities of the same issuer, class, or type, and the same term, as the securities loaned.
- v) Commercial Paper with a term to maturity of 365 days or less with an approved credit rating and that was issued by a company other than a government or permitted supranational agency.

The market value of the loaned securities is determined on the close of any valuation date, and any additional required collateral is delivered to the Funds on the next business day. The securities on loan continue to be included on the Statement of Investment Portfolio, and are included in the total value on the Statements of Net Assets in Investments at current value.

j) Multi-Class Structured Funds

Each Fund may issue an unlimited number of classes of units. The realized and unrealized capital gains or losses, income, and common expenses (other than operating expenses and management fees) of the Fund are allocated on each valuation date to the unitholders in proportion to the respective prior day's net asset value, which includes unitholder trades dated for that day, of each class at the date on which the allocation is made. All class-specific operating expenses and management fees do not require allocation. All class-specific operating expenses are paid by the Manager and are collected from the Funds on a recoverable basis.

k) Other Assets and Liabilities

Other assets and liabilities are recorded at cost, which approximates their current value.

Notes to Financial Statements

I) International Financial Reporting Standards

At December 31, 2008, the Manager has developed a changeover plan to meet the timetable published by the CICA for changeover to International Financial Reporting Standard (IFRS). The key elements of the plan include continuing the diagnostic assessment that began in 2008, solutions development throughout 2009, implementation by the end of 2010, and the preparation of the 2011 financial statements in accordance with IFRS. Disclosures of the qualitative impact are planned for the 2009 financial statements, with further disclosures of the quantitative impact, if any, in the 2010 financial statements.

Based on the Manager's current understanding of the differences between Canadian GAAP and IFRS, the Manager does not expect an impact to net assets or net assets per unit from the changeover to IFRS. Currently, the Manager expects that the main impact of IFRS on the Funds' financial statements will be additional disclosures in the financial statements and a potential change in the presentation of unitholders' equity.

m) Legend for Abbreviations

The following is a list of abbreviations (foreign currency translation and others) that may be used in the Statement of Investment Portfolio:

Currency Abbreviations

AUD – Australian Dollar	ITL – Italian Lira
BEF – Belgian Franc	JPY – Japanese Yen
BRL – Brazilian Real	KRW – South Korean Won
CAD – Canadian Dollar	LBP – Lebanese Pound
CHF – Swiss Franc	MYR – Malaysian Ringgit
CNY – Chinese Renminbi	MXN – Mexican Peso
CLP – Chilean Peso	NLG – Netherlands Guilder
CZK – Czech Koruna	NOK – Norwegian Krone
DEM – Deutsche Mark	NZD – New Zealand Dollar
DKK – Danish Krone	PHP – Philippine Peso
ESP – Spanish Peseta	PLN – Polish Zloty
EUR – Euro	RUB – Russian Rubles
FRF – French Franc	SEK – Swedish Krona
GBP – British Pound	SGD – Singapore Dollar
GRD – Greek Drachma	THB – Thai Baht
HKD – Hong Kong Dollar	TRY – Turkish New Lira
HUF – Hungarian Forint	TWD – Taiwan Dollar
IDR – Indonesian Rupiah	USD – United States Dollar
INR – Indian Rupee	ZAR – South African Rand

Other Abbreviations

ADR – American Depositary Receipt	LEPOs – Low Exercise Price Options
ADC – Austrian Depositary Certificates	MSCI – Morgan Stanley Capital International
CVO – Contingent Value Obligations	OPaLS – Optimized Portfolios as Listed Securities
ETF – Exchange Traded Fund	PERLES – Performance Linked to Equity Securities
GDR – Global Depositary Receipt	SDR – Swedish Depositary Receipt
iShares – Index Shares	
iUnits – Index Units	
IPN – International Participation Note	

3. Valuation of Investments

The valuation date ("Valuation Date") for a Fund is any day the Toronto Stock Exchange is open for business. The Trustee may, at its discretion, establish other Valuation Dates.

The value of the investments or assets of a Fund is determined as follows:

a) Cash and Other Assets

Cash, accounts receivable, dividends receivable, distributions receivable, and accrued interest are valued at their recorded cost, plus or minus any foreign exchange between recognition of the asset by the Fund and the current Valuation Date, which approximates current value.

Short-term investments (money market instruments) are valued at current value.

b) Bonds, Debentures, and Other Debt Obligations

Bonds, debentures, and other debt obligations are valued at current value using the bid/ask price provided by a recognized vendor upon the close of trading on a Valuation Date.

c) Listed Securities, Unlisted Securities, and Fair Value Pricing of Foreign Securities

Any security that is listed or dealt with on a securities exchange is valued at current value using the closing bid price or, if there is no closing bid price on that exchange, and in the case of securities traded on an OTC market, at the current value as determined by the Manager as appropriate as a basis for valuation. In such situations, a fair value will be determined by the Manager to establish current value. If any securities are inter-listed or traded on more than one exchange or market, the Manager will use the principal exchange or market for the current value of such securities.

Units of each mutual fund in which a Fund invests will be valued at current value using the most recent net asset value quoted by the Trustee or Manager of the mutual fund on the Valuation Date.

Unlisted securities are valued at current value using the bid price quoted by a recognized dealer, or the Manager may determine a price that more accurately reflects the fair value of these securities if the Manager feels the bid price does not reflect current value.

Fair value pricing is designed to avoid stale prices and to provide a more accurate current value, and may assist in the deterrence of harmful short-term or excessive trading in the Funds. When securities listed or traded on markets or exchanges that close prior to North American markets or exchanges are valued by the Manager at their fair market value, instead of using quoted or published prices, the prices of such securities used to calculate the Fund's net assets or net asset value may differ from quoted or published prices of such securities.

d) Derivatives

Long positions in options, debt-like securities, and listed warrants are valued at current value using the closing bid price as established on either their principal trading exchange or by a recognized dealer in such securities. The credit rating of each counterparty (as rated by

Standard & Poor's, a division of The McGraw-Hill Companies, Inc.) meets the minimum approved credit rating.

When any option is written by any Fund, the premium received by the Fund will be reflected as a liability that will be valued at an amount equal to the current market value of the option that would have the effect of closing the position. Any difference resulting from revaluation shall be treated as an unrealized gain or loss on investment; the liability shall be deducted in arriving at the net assets of the Fund. The securities, if any, that are the subject of a written option will be valued in the manner described above for listed securities.

Futures contracts, forward contracts, or swaps will be valued at current value at the gain or loss, if any, that would be realized on the Valuation Date if the position in the futures contracts, forward contracts, or swaps were to be closed out.

Margin paid or deposited in respect of futures contracts and forward contracts will be reflected as an accounts receivable and margin consisting of assets other than cash will be noted as held as collateral.

Other derivatives and margin are valued at current value in a manner that the Manager determines to represent their current value.

e) Restricted Securities

Restricted securities purchased by any Fund will be valued at current value in a manner that the Manager determines to represent their current value.

f) Mortgages

Mortgages are valued at current value at a principal amount that produces a yield equal to the prevailing rate of return on mortgages of similar type and term, establishing the current value. Mortgages insured under the National Housing Act (Canada) are valued at current value.

All mortgages, other than those insured under the National Housing Act (Canada), are valued at current value on a consistent basis to produce a principal amount that will produce a yield (i) equal to the yield prevailing for the sale of comparable conventional mortgages by major lending institutions, if ascertainable on the Valuation Date, or (ii) equal to not less than one quarter of one percent below the interest rate at which the lending institution is making a commitment to loan of security of such mortgages on the Valuation Date.

g) Other Investments

All other investments of the Funds will be valued at current value in accordance with the laws of the Canadian securities regulatory authorities where applicable.

The value of any security or other property of a Fund for which a market quotation is not readily available or where the market quotations do not properly reflect the current value of such securities will be determined by the Manager by valuing the securities at their current value. In such situations, current value will be determined using fair valuation techniques that most accurately reflect their fair value as established by the Manager.

4. Units Issued and Outstanding

Each Fund has an unlimited number of classes of units and may issue an unlimited number of units of each class. The outstanding units represent the capital of the Funds. Each unit has no par value, and the value of each unit is the net asset value next determined. Settlement of the cost for units issued is completed as per security regulations in place at the time of issue. Distributions made by the Funds, and re-invested by clients in additional units also constitute issued capital of the Funds.

Units are redeemed at the net asset value per unit of the Fund. A right to redeem units of a Fund may be suspended with the approval of the Canadian securities regulatory authorities or when normal trading is suspended on a stock, options, or futures exchange in Canada or outside Canada on which securities or derivatives that make up more than 50% of the value or underlying exposure of the total assets of the Fund, not including any liabilities of the Fund, are traded, and when those securities or derivatives are not traded on any other exchange that represents a reasonably practical alternative for the Fund. The Funds are not subject to any externally imposed capital requirements.

The capital received by a Fund is utilized within the respective investment mandate of a Fund. This includes for all Funds the ability to make liquidity available to satisfy client unit redemption requirements upon the clients' request.

The activity for units on a dollar basis can be found on the Statements of Changes in Net Assets. Changes in issued and outstanding units, for the periods ended December 31, 2008 and 2007, are summarized as follows:

CIBC Canadian T-Bill Fund — Class A units¹

	2008
Balance — beginning of period	—
Units issued for cash and assets (note 13)	48,272,446
Units issued on reinvestment of distributions	183,506
	48,455,952
Units redeemed	(11,287,184)
Balance — end of period	37,168,768

CIBC Canadian T-Bill Fund — Premium Class units¹

	2008	2007
Balance — beginning of period	156,649,821	192,767,289
Units issued for cash	155,744,459	159,795,433
Units issued on reinvestment of distributions	3,864,313	6,452,933
	316,258,593	359,015,655
Units redeemed	(162,657,259)	(202,365,834)
Balance — end of period	153,601,334	156,649,821

Notes to Financial Statements

CIBC Money Market Fund — Class A units

	2008	2007
Balance — beginning of period	207,237,312	218,409,633

5. Management Fees and Operating Expenses

Management fees are based on the net asset value of the Funds, and are calculated daily. Management fees are paid to the Manager in consideration for providing, or arranging for the provision of, management, distribution, and portfolio advisory services.

In addition to the management fees, the Funds are responsible for all expenses relating to the operation and conduct of the business of the Funds, including interest, operating, and administrative costs (other than advertising and promotional expenses, which are the responsibility of the Manager), brokerage fees, commissions, spreads, regulatory fees, a portion of the fees paid to members of the Independent Review Committee, taxes, audit and legal fees and expenses, safekeeping and custodial fees, investor servicing costs, and costs of unitholder reports, prospectuses, and other reports. All such operating expenses are paid by the Manager and recovered from the Funds. The Funds do not pay fees to the Trustee.

The Manager may recover from a Fund less than the actual operating expenses paid by the Manager, resulting in the Manager absorbing expenses. The Manager may also charge less than the maximum management fee noted in the following table, resulting in the Manager waiving management fees.

At its sole discretion, the Manager may stop absorbing operating expenses and/or waiving management fees at any time. Operating expenses absorbed and/or management fees waived by the Manager are disclosed on the Statements of Operations.

In some cases, the Manager may charge management fees to a Fund that are less than the management fees the Manager is entitled to charge for certain investors in a Fund. The difference in the amount of the management fees will be paid out by the Fund to the applicable investors as a distribution of additional units of the Fund ("Management Fee Distributions"). Management Fee Distributions are negotiable between the Manager and the investor and are dependent primarily on the size of the investor's investment in the Fund. Management Fee Distributions paid to qualified investors do not adversely impact the Fund or any of the Fund's other investors. The Manager may increase or decrease the amount of Management Fee Distributions to certain investors from time to time.

The Funds may invest in units of other Funds (the "Underlying Funds"). Where a Fund invests in units of underlying Fund, the Fund does not pay duplicate management fees on the portion of its assets that it invests in units of the Underlying Fund. In addition, the Fund will not pay duplicate sales fees or redemption fees with respect to the purchase or redemption by it of units of the Underlying Fund. Some of the Underlying Funds held by the Funds may offer Management Fee Distributions. Such Management Fee Distributions will be paid out as required for taxable distribution payments by a Fund. The Manager may, in some cases, waive a portion of an Underlying Fund's management fee and/or absorb a portion of an Underlying Fund's operating expenses.

The maximum management fee expressed as a percentage of the average net asset value that can be charged by a class is as follows:

*Maximum Management Fee Rate dropped from 2.00% to 1.00% on August 8, 2008.

6. Income Taxes

The Funds qualify as mutual fund trusts under the *Income Tax Act* (Canada). No income tax is payable by the Funds on net income and/or net realized capital gains that are distributed to unitholders. In addition, income taxes payable on undistributed net realized capital gains are refundable on a formula basis when units of the Funds are redeemed. Sufficient net income and realized capital gains of the Funds have been, or will be, distributed to the unitholders such that no tax is payable by the Funds and accordingly, no provision for income taxes has been made in the financial statements. Occasionally, a Fund may pay distributions in excess of net income and net realized capital gains of the Fund. This excess distribution is called a return of capital and is non-taxable to the unitholder. However, a return of capital reduces the average cost of the unitholder's units for tax purposes, which may result in a capital gain to the unitholder to the extent the average cost becomes less than zero.

CIBC U.S. Dollar Money Market Fund, CIBC U.S. Dollar Managed Income Portfolio, CIBC U.S. Dollar Managed Balanced Portfolio, and CIBC U.S. Dollar Managed Growth Portfolio may realize net foreign currency gains and losses on the translation of their net realized capital gains to Canadian dollars for tax purposes. These gains will be distributed to investors annually, unless these Funds elect to retain them, with the result that the tax would be payable by the Funds.

Non-capital losses that arose in taxation years before 2004 are available to be carried forward for seven years and applied against future taxable income. Non-capital losses that arose in 2004 and 2005 are available to be carried forward for ten years. Non-capital losses that arose in 2006 and after are available to be carried forward for twenty years.

Capital losses for income tax purposes may be carried forward indefinitely and applied against capital gains realized in future years.

The Funds have taxation year-ends of December 15 except for CIBC Canadian T-Bill Fund, CIBC Money Market Fund, CIBC U.S. Dollar Money Market Fund, CIBC High Yield Cash Fund, CIBC Managed Income Portfolio, CIBC Managed Income Plus Portfolio, CIBC Managed Balanced Portfolio, CIBC Managed Monthly Income Balanced Portfolio, CIBC Managed Balanced Growth Portfolio, CIBC Managed Growth Portfolio, CIBC Managed Aggressive Growth Portfolio, CIBC U.S. Dollar Managed Income Portfolio, CIBC U.S. Dollar Managed Balanced Portfolio, and CIBC U.S. Dollar Managed Growth Portfolio, which have taxation year-ends of December 31. As at December 2008, the following Funds have available non-capital and capital losses for income tax purposes available to be carried forward as follows:

7. Brokerage Commissions and Fees

The total commissions paid by the Funds to brokers in connection with portfolio transactions for the periods ended December 31, 2008 and 2007, are disclosed in the Statement of Operations of each Fund. In allocating brokerage business, consideration may be given by the sub-advisors of the Funds to dealers that furnish research, statistical, and other services to sub-advisors that process trades through such dealers (referred to in the industry as "soft dollar" arrangements). These services assist the sub-advisor with their investment decision-making services to the Fund. In addition, the Manager may enter into commission recapture arrangements with certain dealers with respect to the Fund. Any commission recaptured will be paid to the applicable Fund.

Fixed income and certain other securities are transacted in an OTC market, where participants are dealing as principals. Such securities are generally traded on a net basis and do not normally involve brokerage commissions, but will typically include a "spread" (being the difference between the bid and the offer prices on the security of the applicable marketplace).

Spreads associated with fixed income securities trading are not ascertainable, and for that reason are not included in the dollar amounts below. In addition, the soft dollar amounts below only include the value of research and other services supplied by a third party to the sub-advisors, as the value of the services supplied to the sub-advisors by the dealer is not ascertainable. When these services benefit more than one Fund, the costs are allocated among the Funds based on transaction activity or some other fair basis as determined by the sub-advisors.

The dollar amounts of all commissions and other fees, in addition to soft dollar payments, for periods ended December 31, 2008 and 2007, are as follows:

Name	Brokerage Commissions and Fees		Soft Dollars	
	2008	2007	2008	2007

8. Related Party Transactions

CIBC and its affiliates have the following roles and responsibilities with respect to the Funds, and receive the fees described below in connection with their roles and responsibilities. The Funds may also hold securities of CIBC. CIBC and its affiliates may also be involved in underwriting or lending to issuers that may be held by the Funds, and also may have been involved as a counterparty to derivative transactions.

Manager, Trustee, and Portfolio Advisor of the Funds

CIBC is the Manager, CIBC Trust Corporation, the Trustee, and CIBC Asset Management Inc., the portfolio advisor of each of the Funds.

Notes to Financial Statements

The Manager also arranges for Fund administrative services (other than advertising and promotional, which are the responsibility of the Manager), legal, investor servicing, and costs of unitholder reports, prospectus, and other reports. The Manager is the registrar and transfer agent for the Funds and provides, or arranges for the provision of, all other administrative services required by the Funds. The dollar amount (including GST) of all of these expenses (net of absorptions) that the Manager recovers from the Funds, for the periods ended December 31, 2008 and 2007, as follows:

Name	Administrative and Other Fund Operating Costs

Brokerage Arrangements and Soft Dollars

The sub-advisors make decisions, including the selection of markets and dealers and the negotiation of commissions, with respect to the purchase and sale of portfolio securities and the execution of portfolio transactions. Brokerage business may be allocated by sub-advisors, including CIBC Global Asset Management Inc. ("CIBC Global"), to CIBC World Markets Inc. and CIBC World Markets Corp., each a subsidiary of CIBC.

CIBC World Markets Inc. and CIBC World Markets Corp. may also earn spreads on the sale of fixed income and other securities to the Funds. Dealers, including CIBC World Markets Inc. and CIBC World Markets Corp., may furnish research, statistical, and other services to sub-advisors, including CIBC Global, that process trades through them (referred to in the industry as "soft dollar" arrangements). These services assist the sub-advisors with their investment decision-making services to the Funds. As per the terms of the sub-advisory agreements, such soft dollar arrangements are in compliance with applicable laws. In addition,

the Manager may enter into commission recapture arrangements with certain dealers with respect to the Funds. Any commission recaptured will be paid to the relevant Fund. Spreads associated with fixed income securities trading are not ascertainable, and for that reason are not included in the dollar values below. In addition, the soft dollar amounts below only include the value of research and other services supplied by a third party to the sub-advisors, as the value of the services supplied to the sub-advisors by the dealer is not ascertainable. When these services benefit more than one Fund, the costs are allocated among the Funds based on transaction activity or some other fair basis as determined by the sub-advisors. The dollar amounts of all commissions and other fees, in addition to soft dollar payments, for the periods ended December 31, 2008 and 2007, are disclosed in the following table:

CIBC Mortgages Inc.

CIBC Mortgages, a wholly owned subsidiary of CIBC, is the counterparty on mortgages purchased by CIBC Short-Term Income Fund. CIBC Mortgages also provides administrative services for the mortgages.

The amounts paid by CIBC Short-Term Income Fund (including GST) to CIBC Mortgages for the periods ended December 31, 2008 and 2007 are as follows:

Name	Amount Paid to CIBC Mortgages Inc.	
	2008	2007
CIBC Short-Term Income Fund ¹	\$692	\$41,871

¹Formerly CIBC Mortgage and Short-Term Income Fund

Custodian

The custodian holds all cash and securities for the Funds and ensures that those assets are kept separate from any other cash or securities that they might be holding (the "Custodian"). The Custodian may hire sub-custodians for the Funds. The fees for the services of the Custodian are borne as an operating expense by the Funds. CIBC Mellon Trust Company is the Custodian. CIBC owns a 50% interest in CIBC Mellon Trust Company.

Service Provider

CIBC Mellon Global Securities Services Company ("CIBC GSS") provides certain services to the Funds, including securities lending, fund accounting and reporting, and portfolio valuation. CIBC indirectly owns a 50% interest in CIBC GSS.

The amounts paid by the Funds (including GST) to CIBC GSS for custodial fees, fund accounting and reporting, and portfolio valuation (all net of absorptions), and also securities lending, for the periods ended December 31, 2008 and 2007, are as follows:

*Definitions are in note 2i

10. Hedging

Certain foreign currency denominated positions have been hedged, or partially hedged, by forward foreign currency contracts as part of the investment strategies of the Funds. These hedges are indicated by a hedging reference number on the Statement of Investment Portfolio, and a corresponding hedging reference number on the Forward Foreign Currency Contracts Schedule for the Funds.

11. Collateral on Specified Derivatives

Short-term investments may be used as collateral for futures contracts outstanding with brokers.

12. Reconciliation of Net Assets and Net Asset Value

The adoption of CICA 3855 — Financial Instruments — Recognition and Measurement may result in a different value of securities held by a Fund for financial reporting purposes (defined as Net Assets when referring to a Fund or Net Assets per Unit when on a per unit basis) than the value used for pricing unitholder transactions (defined as Net Asset Value when referring to a Fund or Net Asset Value per Unit when on a per unit basis). The following table presents a reconciliation of the Net Assets per Unit and Net Asset Value per Unit, for all the Funds and classes where applicable, as at December 31, 2008:

Fund Name	Net Assets per Unit	Adjustment for CICA 3855 Valuation Differences per Unit	Net Asset Value per Unit

Notes to Financial Statements

13. Mergers and Terminations

Fund Mergers

At the close of business on August 8, 2008, the following Funds mergers took place:

Terminating Fund	Continuing Fund	Post-Merger Fund Name	Net Assets	
			Acquired by Continuing Fund	Units Issued by Continuing Fund
CIBC Canadian T-Bill Fund	CIBC Premium Canadian T-Bill Fund	CIBC Canadian T-Bill Fund	\$343,851,644	34,385,164
CIBC Canadian Small Companies Fund	CIBC Capital Appreciation Fund	CIBC Canadian Small-Cap Fund	83,376,030	3,250,021
CIBC Canadian Emerging Companies Fund	CIBC Capital Appreciation Fund	CIBC Canadian Small-Cap Fund	35,617,334	1,388,373
CIBC International Index RRSP Fund	CIBC International Index Fund	CIBC International Index Fund	84,934,270	8,034,573
CIBC European Index RRSP Fund	CIBC European Index Fund	CIBC European Index Fund	49,386,649	5,040,225
CIBC Nasdaq Index RRSP Fund	CIBC Nasdaq Index Fund	CIBC Nasdaq Index Fund	37,927,823	10,222,582

Under the tax reorganization rules in the *Income Tax Act* (Canada), the mergers were carried out on a non-taxable basis, which means that unitholders of the Terminating Fund received units of the Continuing Fund with the same adjusted cost base as the Terminating Fund.

Each Continuing Fund identified above acquired all of the assets and assumed all the liabilities of the applicable Terminating Fund at fair market value, in return for the issuance by the Continuing Fund of units equal in value to the net assets acquired from the Terminating Fund. As a result, the unitholders of each Terminating Fund became unitholders of the applicable Continuing Fund.

The Funds involved with the mergers had a deemed year-end for tax purposes. All unrealized losses of the Terminating Funds were realized, and, where possible, unrealized gains were elected to be realized allowing an offset to the realized losses. Unrealized gains were also elected to be realized in order to utilize expiring capital and non-capital losses in the Funds. Any unutilized capital and non-capital loss carry forwards of the Funds expired upon the merger. After the mergers, each Terminating Fund was wound up. None of the costs related to the mergers have been charged to the Funds.

CIBC terminated the following Funds effective November 7, 2008:

Terminating Fund	Proceeds of Termination
CIBC Japanese Equity Fund	\$5,376,082
CIBC Japanese Index RRSP Fund	4,286,681
CIBC North American Demographics Fund	6,345,375

14. Fund Valuation Adjustment

Subsequent to year end, two securities were found to be inaccurately valued in CIBC Energy Fund. The financial statements of CIBC Energy Fund reflect the net asset value as it should have been calculated for December 31, 2008. Adjustments will be made in accordance with the Manager's net asset value error policy.

(collectively, the "Funds")

We have audited the statements of net assets of the Funds as at December 31, 2008 and 2007, the statement of investment portfolio as at December 31, 2008, and the statements of operations and changes in net assets for the periods then ended. These financial statements are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Funds as at December 31, 2008 and 2007, and the results of their operations and the changes in their net assets for the periods then ended in accordance with Canadian generally accepted accounting principles.
