

Imperial Registered U.S. Equity Index Pool

Interim Management Report of Fund Performance

for the period ended June 30, 2009

All figures are reported in Canadian dollars unless otherwise noted.

This interim management report of fund performance contains financial highlights but does not contain either the complete interim or annual financial statements of the investment fund. If you have not received a copy of the interim financial statements with this interim management report of fund performance, you can get a copy of the interim or annual financial statements at your request, and at no cost, by calling us toll-free at 1-888-357-8777, by writing to us at CIBC, 5650 Yonge Street, 19th Floor, Toronto, Ontario, M2M 4G3, or by visiting www.cibc.com/mutualfunds or the SEDAR website at www.sedar.com.

Unitholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, annual management report of fund performance, or quarterly portfolio disclosure.

Management Discussion of Fund Performance

Results of Operations

The portfolio sub-advisor of Imperial Registered U.S. Equity Index Pool (the *Pool*) is CIBC Global Asset Management Inc. (the *sub-advisor*). The commentary that follows reflects the views of the sub-advisor and provides a summary of the results of operations of the Pool for the period ended June 30, 2009. All dollar figures are expressed in thousands, unless otherwise indicated.

- The Pool's net asset value decreased by 18% during the period, from \$249,041 on January 1, 2009 to \$205,376 on June 30, 2009. Net redemptions of \$34,468 and negative investment performance contributed to this decrease. Also, during the period, an increase of \$3,408 occurred due to a rebalancing of a portfolio product that holds the Pool.
- The combination of various important government stimulus plans, the reduction of interest rates by central banks around the world, and the efforts taken to stabilize financial systems contributed to a strong rebound in financial markets and commodities in the second quarter and reduced fears of a global collapse of financial markets.
- The Pool is managed to obtain a return that approximates the performance of the S&P 500 Index (the *Index*).
- During the period, the Index had a negative absolute return in Canadian dollar terms. The Index rebounded in the second quarter; however, it was not enough to compensate for the losses of the first quarter.
- The top performing sectors were information technology, materials, and consumer discretionary. The worst performing sectors were industrials, telecommunication services, and financials.
- The best performers within the Index were XL Capital Limited, Ford Motor Company, and Sprint Nextel Corporation. The worst performers were Marshall & Ilsley Corporation, Citigroup Inc., and Gannett Co., Inc.
- During the period, hedging activities within the Pool slightly detracted from performance due to the depreciation of the Canadian dollar. The sub-advisor's current view on currency is that the Canadian dollar should benefit from: improvements in Canada's terms of trade versus the U.S. as commodity prices remain strong;

a banking sector that is better capitalized than the U.S. financial system; and more fiscal leeway to stimulate its economy compared to the U.S. The Canadian dollar is also expected to benefit from broad weakness in the U.S. dollar. With domestic demand anemic, the U.S. needs a weaker currency to support its economy via a strong exporting sector.

Recent Developments

In response to evolving currency markets, the Pool implemented an active currency management strategy in order to add value using currency forward contracts, a highly liquid investment. The sub-advisor has full flexibility to add value by making active adjustments to U.S. currency exposure, and will monitor it on a regular basis to ensure it is optimally effective.

Related Party Transactions

Canadian Imperial Bank of Commerce (*CIBC*) and its affiliates have the following roles and responsibilities with respect to the Pool, and receive the fees described below in connection with their roles and responsibilities:

Manager

CIBC is the manager (the *Manager*) of the Pool. CIBC will receive management fees with respect to the day-to-day business and operations of the Pool. The Pool may pay the Manager an annual maximum management fee of up to 0.25% of the net asset value of the Pool, as described in the section entitled *Management Fees*.

Trustee

CIBC Trust Corporation, a wholly-owned subsidiary of CIBC, is the trustee (the *Trustee*) of the Pool. The Trustee holds title to the property (cash and securities) of the Pool on behalf of its unitholders.

Portfolio Advisor

CIBC Asset Management Inc. (*CAMI*), a wholly-owned subsidiary of CIBC, is the portfolio advisor of the Pool. As portfolio advisor, CAMI provides, or arranges to provide, investment advice and portfolio management services to the Pool.

Sub-advisor

CAMI has retained CIBC Global Asset Management Inc. (*CIBC Global*), a wholly-owned subsidiary of CIBC, as the sub-advisor of the Pool, to provide investment advice and portfolio management services to the Pool. CAMI will pay a fee to CIBC Global.

Discretionary Managers

As at the date of this report, units of the Pool are exclusively offered through discretionary investment management services provided by the Trustee, CIBC Private Investment Counsel Inc. (*CPIC*), and CIBC Global (collectively, the *Discretionary Managers*), each a wholly-owned subsidiary of CIBC. The Discretionary Managers purchase units of the Pool on behalf of their clients and are registered unitholders of the Pool. CIBC Investor Services Inc. (*CIBC ISI*) and CIBC Securities Inc. (*CIBC SI*), each a wholly-owned subsidiary of CIBC, are the dealers through which clients are referred to the Trustee and CIBC Personal Portfolio Services. There are no compensation arrangements with these dealers in respect to the sale of units of the Pool. However, the Trustee receives fees from its clients for offering discretionary managed accounts, which may hold units of the Pool. CIBC receives fees from the Trustee for the services of CIBC advisors with CIBC ISI and CIBC SI, in assisting clients in opening discretionary investment management accounts with the Trustee, and for acting as the clients' ongoing relationship manager. CIBC is responsible for the remuneration of the CIBC advisors and may pay the CIBC advisors out of such fees. Further details of the arrangement between CIBC and the Trustee are disclosed in the discretionary investment management account agreement between the Trustee and clients.

CPIC and CIBC Global receive fees from their clients for offering discretionary managed accounts, which may hold units of the Pool, and may pay a portion of such fees to their investment counselors.

Brokerage Arrangements and Soft Dollars

Sub-advisors make decisions, including the selection of markets and dealers and the negotiation of commissions, with respect to the purchase and sale of portfolio securities and the execution of portfolio transactions. Brokerage business may be allocated by sub-advisors, including CIBC Global, to CIBC World Markets Inc. (*CIBC WM*) and CIBC World Markets Corp., each a subsidiary of CIBC. CIBC WM and CIBC World Markets Corp. may also earn spreads on the sale of fixed income and other securities to the Pool.

A spread is the difference between the bid and ask prices for a security in the applicable marketplace, with respect to the execution of portfolio transactions. The spread will differ based upon various factors such as the nature and liquidity of the security.

Dealers, including CIBC WM and CIBC World Markets Corp., may furnish research, statistical, and other services to sub-advisors, including CIBC Global, that process trades through them (referred to in the industry as "soft dollar" arrangements). These services assist sub-advisors, including CIBC Global, with investment decision-making services to the Pool. As per the terms of the sub-advisory agreement, such soft dollar arrangements are in compliance with applicable laws. In addition, the Manager may enter into commission recapture arrangements with certain dealers with respect to the Pool. Any commission recaptured will be paid to the Pool.

During the period, no brokerage commissions or other fees were paid by the Pool to CIBC WM or CIBC World Markets Corp.

Pool Transactions

The Pool may purchase and sell securities of CIBC. The Pool may also, from time to time, purchase securities underwritten by a related dealer, such as CIBC WM or CIBC World Markets Corp., each an affiliate of the Manager. Such transactions are currently made pursuant to standing instructions rendered by the Independent Review Committee.

Custodian

CIBC Mellon Trust Company is the custodian (the *Custodian*) that holds all cash and securities for the Pool and ensures that those assets are kept separate from any other cash or securities that it may be holding. The Custodian may hire sub-custodians for the Pool. The fees for the services of the Custodian are paid by the Manager and charged to the Pool on a recoverable basis. CIBC owns a fifty percent interest in the Custodian.

Service Provider

CIBC Mellon Global Securities Services Company (*CIBC GSS*) provides certain services to the Pool, including fund accounting and reporting, securities lending, and portfolio valuation. Such servicing fees are paid by the Manager, and charged to the Pool on a recoverable basis. CIBC indirectly owns a fifty percent interest in CIBC GSS.

Financial Highlights

The following tables show selected key financial information about the Pool and are intended to help you understand the Pool's financial performance for the period ended June 30, 2009, and for any other periods ended December 31, as indicated.

The Pool's Net Assets per Unit¹

	2009	2008	2007	2006	2005	2004
Net Assets, beginning of period	\$ 4.31	\$ 5.51	\$ 6.45	\$ 6.42	\$ 6.76	\$ 7.14
Increase (decrease) from operations:						
Total revenue	\$ 0.11	\$(2.20)	\$ 0.29	\$ 0.93	\$ 0.29	\$ 0.69
Total expenses	–	(0.01)	(0.01)	(0.01)	(0.01)	(0.01)
Realized gains (losses) for the period	(0.11)	0.85	(0.85)	(0.21)	(0.30)	(0.56)
Unrealized gains (losses) for the period	(0.18)	0.19	(0.14)	0.14	0.14	(0.01)
Total increase (decrease) from operations²	\$(0.18)	\$(1.17)	\$(0.71)	\$ 0.85	\$ 0.12	\$ 0.11
Distributions:						
From income (excluding dividends)	\$ –	\$ –	\$ 0.25	\$ 0.93	\$ 0.47	\$ 0.56
From dividends	–	–	–	–	–	–
From capital gains	–	–	–	–	–	–
Return of capital	–	–	–	–	–	–
Total Distributions³	\$ –	\$ –	\$ 0.25	\$ 0.93	\$ 0.47	\$ 0.56
Net Assets, end of period	\$ 4.17	\$ 4.31	\$ 5.51	\$ 6.45	\$ 6.42	\$ 6.76

¹This information is derived from the Pool's unaudited interim and audited annual financial statements. The net assets per unit presented in the financial statements differs from the net asset value calculated for fund pricing purposes. An explanation of these differences can be found in the notes to the financial statements.

²Net assets and distributions are based on the actual number of units outstanding at the relevant time. The total increase (decrease) from operations is based on the weighted average number of units outstanding during the period.

³Distributions were paid in cash, reinvested in additional units of the Pool, or both.

Ratios and Supplemental Data

	2009	2008	2007	2006	2005	2004
Total Net Asset Value (000s)⁴	\$205,376	\$249,041	\$269,155	\$288,079	\$366,053	\$421,479
Number of Units Outstanding⁴	49,278,169	57,815,001	48,818,911	44,659,591	57,002,732	62,353,241
Management Expense Ratio⁵	0.16%*	0.16%	0.13%	0.12%	0.12%	0.12%
Management Expense Ratio before waivers or absorptions⁶	0.56%*	0.54%	0.49%	0.42%	0.44%	0.41%
Trading Expense Ratio⁷	0.00%*	0.00%	0.00%	0.00%	0.00%	0.00%
Portfolio Turnover Rate⁸	0.00%	0.00%	0.00%	0.00%	0.00%	0.00%
Net Asset Value per Unit	\$ 4.17	\$ 4.31	\$ 5.51	\$ 6.45	\$ 6.42	\$ 6.76

*Ratio has been annualized.

⁴This information is presented as at June 30, 2009, and December 31 of any other periods shown.

⁵Management expense ratio is based on the total expenses of the Pool (excluding commissions and other portfolio transaction costs) for the period shown and is expressed as an annualized percentage of the daily average net asset value during the period.

⁶The decision to waive and/or absorb management fees and operating expenses is at the discretion of the Manager. The practice of waiving and/or absorbing management fees and operating expenses may continue indefinitely or may be terminated at any time without notice to unitholders.

⁷The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable, and, for that reason, are not included in the trading expense ratio calculation.

⁸The portfolio turnover rate indicates how actively the portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Management Fees

The Pool, either directly or indirectly, pays an annual management fee to the Manager in consideration for the provision of, or arranging for the provision of, management, distribution, and portfolio advisory services. This fee is calculated as a percentage of the Pool's net asset value and is calculated and credited daily, and paid monthly. The Pool is required to pay Goods and Services Tax (GST) on the management fee.

For the period ended June 30, 2009, of the management fees collected from the Pool, approximately 100% is attributable to general administration, investment advice, and profit.

Past Performance

The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, or other optional charges payable by any unitholder that would have reduced returns. Past performance does not necessarily indicate how a fund will perform in the future.

The Pool's returns are after the deduction of fees and expenses. See the section entitled *Financial Highlights* for the management expense ratio.

Year-by-Year Returns

The bar chart shows the annual performance of the Pool for each of the periods shown and illustrates how the performance has changed from period to period. The bar chart shows, in percentage terms, how an investment made on January 1 would have increased or decreased by December 31, unless otherwise indicated.

^a1999 return is for the period from June 28, 1999 to December 31, 1999.

^b2009 return is for the period from January 1, 2009 to June 30, 2009.

Summary of Investment Portfolio (as at June 30, 2009)

The summary of investment portfolio may change due to ongoing portfolio transactions of the investment fund. A quarterly update is available by visiting www.cibc.com/mutualfunds. The Top Positions table includes a fund's 25 largest positions. For funds with fewer than 25 positions in total, all positions are shown. Cash and cash equivalents are shown in total as one position.
