

Interim Management Report of Fund Performance

for the period ended June 30, 2016

All figures are reported in Canadian dollars unless otherwise noted.

This interim management report of fund performance contains financial highlights but does not contain either the complete interim or annual financial statements of the investment fund. If you have not received a copy of the interim financial reports with this interim management report of fund performance, you can get a copy of the interim or annual financial statements at your request, and at no cost, by calling us toll-free at 1-800-465-3863, by writing to us at CIBC, 18 York Street, Suite 1300, Toronto, Ontario, M5J 2T8, or by visiting www.cibc.com/mutualfunds or the SEDAR website at www.sedar.com.

Unitholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Management Discussion of Fund Performance

Results of Operations

The portfolio advisor of CIBC Canadian Equity Fund (the *Fund*) is CIBC Asset Management Inc. (*CAMI* or the *Portfolio Advisor*). The commentary that follows provides a summary of the results of operations for the six-month period ended June 30, 2016. All dollar figures are expressed in thousands, unless otherwise indicated.

The Fund's net asset value decreased by 1% during the period, from \$248,951 as at December 31, 2015 to \$246,823 as at June 30, 2016. Net redemptions of \$16,227 were partially offset by positive investment performance, resulting in an overall decrease in net asset value.

Class A units of the Fund posted a return of 5.9% for the period. The Fund's benchmark, the S&P/TSX Composite Index (the *benchmark*), returned 9.8% for the same period. The Fund's return is after the deduction of fees and expenses, unlike the benchmark. See *Past Performance* for the returns of other classes of units offered by the Fund.

In the first half of 2016, global risk and uncertainty increased for a number of reasons. These included the U.K. referendum on its membership in the European Union, the U.S. election process, a slowdown in Chinese economic growth and negative interest rates in several countries. Each of these factors had an impact on interest rates, commodity prices and equity markets.

Despite global uncertainty, Canada benefited from its strong financial position, stable political situation, ongoing fiscal stimulus in the form of increased government spending, and healthy consumer spending. The Canadian equity market also benefited, largely as a result of the high resource weighting in the S&P/TSX Composite Index.

Stock selection and a significant underweight exposure to the materials sector significantly detracted from the Fund's performance. Most gold and base metal companies did not meet the Portfolio Advisor's investment criteria, leading to the Fund's significant underweight exposure. Very few companies in the sector have successful track records for growing shareholder value, and the lowest-quality companies were the strongest performers during the

period. In the financials sector, both stock selection and asset allocation significantly detracted from performance. A moderate overweight exposure to life insurance companies and a moderate underweight allocation to real estate investment trusts detracted from performance as interest rates fell by more than the Portfolio Advisor had anticipated.

Individual detractors from performance included a significant overweight allocation to Element Financial Corp. The stock underperformed the market ahead of an imminent stock split, which will lead to the company's high-quality fleet management business being separate from its riskier commercial and vendor business. The Portfolio Advisor believes the separation should allow Element Financial's fleet management business to come up to levels comparable with global peers.

Asset allocation within the health care sector, specifically a moderate underweight allocation to Valeant Pharmaceuticals International Inc., significantly contributed to the Fund's performance. Valeant's stock price declined approximately 80% as the company faced severe price impairments as a result of regulatory oversight, high debt levels and unusual supply arrangements with specialty pharmacists.

In the energy sector, stock selection contributed to performance, as did a transition from a moderate underweight exposure to a slight overweight allocation to the sector. The sector benefited as commodity prices rose, and the Fund's higher-quality, lower-risk energy company holdings provided a certain level of protection against some of sector's underperformance early in the period. A large overweight exposure to ARC Resources Ltd. was a moderate contributor to performance, as a result of the company's strong balance sheet, low cost base and proven management team.

The Portfolio Advisor introduced Shaw Communications Inc., Class 'B' shares to the Fund for the company's potential market share and free cash flow growth. The Portfolio Advisor expects that Shaw will eventually benefit from the same wireless growth that Quebecor Inc. is currently experiencing. The Portfolio Advisor increased the Fund's holding in Agnico Eagle Mines Ltd. to increase its allocation to gold

producers, following uncertainty from the U.K. referendum in June and the expectation that interest rates will remain lower for longer.

Restaurant Brands International Inc. was sold as the Portfolio Advisor does not believe the company's balance sheet is strong enough to withstand any operational issues. Some core bank weightings in Canadian Imperial Bank of Commerce and Toronto-Dominion Bank (The) were trimmed as a result of pressures from low interest rates and high valuations. Suncor Energy Inc. was reduced as the company was discounting much higher crude prices in its stock price. Cineplex Inc. was trimmed as the Portfolio Advisor believes the company will likely face more challenging box office sales in the coming period. Each of these reduced holdings remain core Fund holdings that could be repurchased at more attractive valuations.

Recent Developments

Effective September 6, 2016, the maximum annual management fee will be reduced from 1.85% to 1.75% and the maximum annual trailing commission will be reduced from 1.25% to 1.00% for Class A units of the Fund.

Effective April 27, 2016, the composition of the Independent Review Committee (IRC) changed. John Crow resigned his position as member and Chair. Marcia Lewis Brown was appointed as member and Don Hunter was appointed as Chair.

Related Party Transactions

Canadian Imperial Bank of Commerce (CIBC) and its affiliates have the following roles and responsibilities with respect to the Fund, and receive the fees described below in connection with their roles and responsibilities.

Manager

CIBC is the Manager of the Fund. CIBC receives management fees with respect to the day-to-day business and operations of the Fund, calculated based on the net asset value of each respective class of units of the Fund as described in the section entitled *Management Fees*. The Manager also compensates its wholesalers in connection with their marketing activities regarding the Fund. From time to time, CIBC may provide seed capital to the Fund.

Trustee

CIBC Trust Corporation, a wholly-owned subsidiary of CIBC, is the trustee (the *Trustee*) of the Fund. The Trustee holds title to the property (cash and securities) of the Fund on behalf of its unitholders.

Portfolio Advisor

The portfolio advisor provides, or arranges to provide, investment advice and portfolio management services to the Fund. CAMI, a wholly-owned subsidiary of CIBC, is the portfolio advisor of the Fund.

Distributor

Dealers and other firms sell the units of the Fund to investors. These dealers and other firms include CIBC's related dealers such as the principal distributor, CIBC Securities Inc. (CIBC SI), the CIBC Investor's Edge discount brokerage division of CIBC Investor Services

Inc. (CIBC ISI), the CIBC Imperial Service division of CIBC ISI, and the CIBC Wood Gundy division of CIBC World Markets Inc. (CIBC WM). CIBC SI, CIBC ISI, and CIBC WM are wholly-owned subsidiaries of CIBC.

CIBC may pay trailing commissions to these dealers and firms in connection with the sale of units of the Fund. These dealers and other firms may pay a portion of these trailing commissions to their advisors who sell units of the Fund to investors.

Brokerage Arrangements and Soft Dollars

The Portfolio Advisor makes decisions, including the selection of markets and dealers and the negotiation of commissions, with respect to the purchase and sale of portfolio securities, certain derivative products (including futures and forwards) and the execution of portfolio transactions. Brokerage business may be allocated by the Portfolio Advisor to CIBC WM and CIBC World Markets Corp., each a subsidiary of CIBC. CIBC WM and CIBC World Markets Corp. may also earn spreads on the sale of fixed income securities and other securities and certain derivative products (including futures and forwards) to the Fund. A spread is the difference between the bid and ask prices for a security in the applicable marketplace, with respect to the execution of portfolio transactions. The spread will differ based upon various factors such as the type and liquidity of the security.

Dealers, including CIBC WM and CIBC World Markets Corp., may furnish goods and services, other than order execution, to the Portfolio Advisor in partial exchange for processing trades through them (referred to in the industry as "soft dollar" arrangements). These goods and services are paid for with a portion of the brokerage commissions and assist the Portfolio Advisor with investment decision-making services for the Fund or relate directly to the execution of portfolio transactions on behalf of the Fund.

In addition, CIBC may enter into commission recapture arrangements with certain dealers with respect to the Fund. Any commission recaptured will be paid to the Fund.

During the period, the Fund paid brokerage commissions and other fees of \$7,152 to CIBC WM; the Fund did not pay any brokerage commissions or other fees to CIBC World Markets Corp. Spreads associated with fixed income and other securities are not ascertainable and, for that reason, cannot be included when determining these amounts.

Fund Transactions

The Fund may enter into one or more of the following transactions (the *Related Party Transactions*) in reliance on the standing instructions issued by the IRC:

- invest in or hold equity securities of CIBC or issuers related to a portfolio sub-advisor;
- invest in or hold non-exchange-traded debt securities of CIBC or an issuer related to CIBC in a primary offering and in the secondary market;

- make an investment in the securities of an issuer for which CIBC WM, CIBC World Markets Corp., or any affiliate of CIBC (a *Related Dealer*) acts as an underwriter during the offering of the securities at any time during the 60-day period following the completion of the offering of such securities (in the case of a "private placement" offering, in accordance with the exemptive relief order granted by the Canadian securities regulatory authorities and in accordance with the policies and procedures relating to such investment);
- purchase equity or debt securities from or sell them to a Related Dealer, where it is acting as principal;
- undertake currency and currency derivative transactions where a Related Dealer is the counterparty; and
- purchase securities from or sell securities to another investment fund or a managed account managed by the Manager or an affiliate of the Manager.

At least annually, the IRC reviews the Related Party Transactions for which they have issued standing instructions. The IRC is required to advise the Canadian securities regulatory authorities, after a matter has been referred or reported to the IRC by the Manager, if it determines that an investment decision was not made in accordance with conditions of its approval.

Custodian

CIBC Mellon Trust Company is the custodian of the Fund (the *Custodian*). The Custodian holds all cash and securities for the Fund and ensures that those assets are kept separate from any other cash or securities that the Custodian might be holding. The Custodian also provides other services to the Fund including record-keeping and processing of foreign exchange transactions. The Custodian may hire sub-custodians for the Fund. The fees and spreads for services of the Custodian directly related to the execution of portfolio transactions by the Fund are paid by CAMI and/or dealer(s) directed by CAMI, up to the amount of the credits generated under soft dollar arrangements from trading on behalf of the Fund during that month. All other fees and spreads for the services of the Custodian are paid by the Manager and charged to the Fund on a recoverable basis. CIBC owns a 50% interest in the Custodian.

Service Provider

CIBC Mellon Global Securities Services Company (*CIBC GSS*) provides certain services to the Fund, including securities lending, fund accounting and reporting, and portfolio valuation. Such servicing fees are paid by the Manager, and charged to the Fund on a recoverable basis. CIBC indirectly owns a 50% interest in CIBC GSS.

CIBC Canadian Equity Fund

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the period ended June 30, 2016 and December 31 of any other period(s) shown.

The Fund's Net Assets per Unit¹ - Class A Units

	2016	2015	2014	2013	2012	2011
Net Assets, beginning of period	\$ 23.72	\$ 25.72	\$ 25.67	\$ 22.84	\$ 21.98	\$ 24.19
Increase (decrease) from operations:						
Total revenue	\$ 0.36	\$ 0.73	\$ 0.79	\$ 0.73	\$ 0.69	\$ 0.63
Total expenses	(0.30)	(0.63)	(0.67)	(0.58)	(0.53)	(0.56)
Realized gains (losses) for the period	0.96	0.27	2.51	0.74	0.56	2.04
Unrealized gains (losses) for the period	0.36	(2.23)	(0.66)	1.87	0.41	(4.12)
Total increase (decrease) from operations²	\$ 1.38	\$ (1.86)	\$ 1.97	\$ 2.76	\$ 1.13	\$ (2.01)
Distributions:						
From income (excluding dividends)	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —
From dividends	—	—	—	—	—	—
From capital gains	—	—	1.81	—	0.28	0.14
Return of capital	—	—	—	—	—	—
Total Distributions³	\$ —	\$ —	\$ 1.81	\$ —	\$ 0.28	\$ 0.14
Net Assets, end of period	\$ 25.12	\$ 23.72	\$ 25.72	\$ 25.67	\$ 22.81	\$ 21.98

¹ This information is derived from the Fund's audited annual and unaudited interim financial statements. The Fund adopted International Financial Reporting Standards (IFRS) on January 1, 2014. Previously, the Fund prepared its financial statements in accordance with Canadian Generally Accepted Accounting Principles (GAAP) as defined in Part V of the CPA Canada Handbook. Under Canadian GAAP, the Fund measured fair values of its investments in accordance with CICA Handbook Section 3855 which required the use of bid prices for long positions and ask prices for short positions. As such, the net assets per unit figure presented in the financial statements may differ from the net asset value calculated for fund pricing purposes. An explanation of these differences can be found in the notes to the financial statements issued prior to January 1, 2014. Upon adoption of IFRS, the Fund measures the fair value of its investments by using the close market prices, where the close market price falls within the bid-ask spread. As such, the Fund's accounting policies for measuring the fair value of investments in the financial statements are consistent with those used in measuring the net asset value for transactions with unitholders. Accordingly, the opening net asset figure as at January 1, 2013 was restated to reflect accounting policy adjustments made in accordance with IFRS. All figures presented for periods prior to January 1, 2013 were prepared in accordance with Canadian GAAP and subsequent thereto were prepared in accordance with IFRS.

² Net assets and distributions are based on the actual number of units outstanding at the relevant time. The total increase (decrease) from operations is based on the weighted average number of units outstanding during the period.

³ Distributions were paid in cash, reinvested in additional units of the Fund, or both.

Ratios and Supplemental Data - Class A Units

	2016	2015	2014	2013	2012	2011
Total Net Asset Value (000s)⁴	\$ 236,608	\$ 238,319	\$ 286,505	\$ 299,209	\$ 307,127	\$ 340,735
Number of Units Outstanding⁴	9,418,228	10,046,558	11,138,325	11,654,827	13,447,268	15,477,684
Management Expense Ratio⁵	2.38% *	2.38%	2.39%	2.40%	2.38%	2.39%
Management Expense Ratio before waivers or absorptions⁶	2.40% *	2.38%	2.39%	2.41%	2.39%	2.39%
Trading Expense Ratio⁷	0.13% *	0.07%	0.07%	0.07%	0.04%	0.08%
Portfolio Turnover Rate⁸	27.09%	31.31%	32.21%	26.22%	17.24%	30.06%
Net Asset Value per Unit	\$ 25.12	\$ 23.72	\$ 25.72	\$ 25.67	\$ 22.84	\$ 22.01

* Ratio has been annualized.

⁴ This information is presented as at June 30, 2016 and December 31 of the period(s) shown.

⁵ Management expense ratio is based on the total expenses of the fund (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period.

⁶ The decision to waive and/or absorb management fees and operating expenses is at the discretion of the Manager. The practice of waiving and/or absorbing management fees and operating expenses may continue indefinitely or may be terminated at any time without notice to unitholders.

⁷ The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation.

⁸ The portfolio turnover rate indicates how actively the portfolio advisor and/or portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

^a Information presented is for the period from January 25, 2012 to December 31, 2012.

* Ratio has been annualized.

⁴ This information is presented as at June 30, 2016 and December 31 of the period(s) shown.

⁵ Management expense ratio is based on the total expenses of the fund (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period.

⁶ The decision to waive and/or absorb management fees and operating expenses is at the discretion of the Manager. The practice of waiving and/or absorbing management fees and operating expenses may continue indefinitely or may be terminated at any time without notice to unitholders.

⁷ The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation.

⁸ The portfolio turnover rate indicates how actively the portfolio advisor and/or portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Management Fees

The Fund, either directly or indirectly, pays an annual management fee to CIBC to cover the costs of managing the Fund. Management fees are based on the net asset value of the Fund and are calculated daily and paid monthly. Management fees are paid to CIBC in consideration for providing, or arranging for the provision of, management, distribution, and portfolio advisory services. Advertising and promotional expenses, office overhead expenses, trailing commissions, and the fees of the portfolio sub-advisor(s) are paid by CIBC out of the management fees received from the Fund. The Fund is required to pay applicable taxes on the management fees paid to CIBC. Refer to the Simplified Prospectus for the maximum annual management fee rate for each class of units. For Class O units, the management fee is negotiated with and paid by, or as directed by, unitholders or dealers and discretionary managers on behalf of unitholders. Such Class O management fee will not exceed the Class A unit management fee rate.

The following table shows a breakdown of the services received in consideration of the management fees, as a percentage of the management fees collected from the Fund for the period ended June 30, 2016. These amounts do not include waived fees or absorbed expenses.

	Class A Units
Sales and trailing commissions paid to dealers	17.28%
General administration, investment advice, and profit	82.72%

Past Performance

The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, or other optional charges payable by any unitholder that would have reduced returns. Past performance does not necessarily indicate how a fund will perform in the future.

The Fund's returns are after the deduction of fees and expenses, and the difference in returns between classes of units is primarily due to differences in the management expense ratio. See the section entitled *Financial Highlights* for the management expense ratio.

Year-by-Year Returns

The bar chart shows the annual performance of the Fund for each of the periods shown, and illustrates how the performance has changed from period to period. The bar chart shows, in percentage terms, how an investment made on January 1 would have increased or decreased by December 31, unless otherwise indicated.

Class A Units

^a 2016 return is for the period from January 1, 2016 to June 30, 2016.

Class O Units

^a 2012 return is for the period from January 25, 2012 to December 31, 2012.

^b 2016 return is for the period from January 1, 2016 to June 30, 2016.

The management report of fund performance may contain forward-looking statements. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates”, or other similar wording. In addition, any statements that may be made concerning future performance, strategies, or prospects and possible future actions taken by the fund, are also forward-looking statements. These statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results and achievements of the fund to differ materially from those expressed or implied by such statements. Such factors include, but are not limited to: general economic, market, and business conditions; fluctuations in securities prices, interest rates, and foreign currency exchange rates; changes in government regulations; and catastrophic events. We do not undertake, and specifically disclaim, any obligation to update or revise any forward-looking statements, whether as a result of new information, future developments, or otherwise prior to the release of the next management report of fund performance.
