Any change to the manner in which such interest is held will be notified to Noteholders.

(7) US Risk Retention Requirements

(a) The Seller's Interest is equal to the Pool Balance minus the outstanding amounts of all Notes issued by the Issuer. This calculation excludes any series that have been issued or have matured during the period from the end of the month to the date this report has been issued.

(b) The Seller's Interest Percentage is calculated by dividing the Seller's Interest by the aggregate principal amount of all outstanding Notes issued by the Issuer to third-parties ("Adjusted ABS Interests"). The required risk retention percentage is 5%. This calculation excludes any series that have been issued or have matured during the period from the end of the month to the date this report has been issued.
