² Total Notes Outstanding is presented in Canadian dollars. For each outstanding United States dollar denominated class of Notes, the Canadian dollar equivalent is calculated using the rate of exchange of the Canadian dollar to the United States dollar used in the currency swap agreement of such class.

³ US Risk Retention Requirements: The Seller's Interest Amount is equal to the Ending Principal Receivables Pool Balance minus the outstanding amounts of all Notes issued by the Issuer. This calculation excludes any series that have been issued or have matured during the period from the end of the month to the date this report has been issued.

⁴ US Risk Retention Requirements: The Seller's Interest Percentage is calculated by dividing the Seller's Interest Amount by the aggregate principal amount of all outstanding Notes issued by the Issuer to third-parties. The required risk retention percentage is 5%. This calculation excludes any series that have been issued or have matured during the period from the end of the month to the date this report has been issued.
