## Non-GAAP measures

We use a number of financial measures to assess the performance of our business lines. Some measures are calculated in accordance with GAAP, while other measures do not have a standardized meaning under GAAP and, accordingly, these measures, described below, may not be comparable to similar measures used by other companies.

This document references the following non-GAAP measures:

## Net interest income (TEB)

We adjust net interest income to reflect tax-exempt income on an equivalent beforetax basis. This measure enables comparability of net interest income arising from both taxable and tax-exempt sources. Net interest income (TEB) is used to calculate the efficiency ratio, trading revenue, net interest margin and net interest margin on average interest-earning assets, all on a taxable equivalent basis. Management believes these measures permit uniform measurement, which enables users of our financial information to make comparisons more readily.

## Economic capital

Economic capital provides the financial framework to understand the returns of each business line, commensurate with the risk taken.

Economic capital is based upon an estimate of the equity capital required to protect the business lines from future potential adverse economic scenarios that would result in significant losses. It comprises credit, market, operational and strategic risk capital. The capital methodologies employed quantify the level of risk within products, clients, and business lines, as required. The difference between CIBC total equity capital and economic capital allocated to the business lines is held in Corporate and Other. From time to time, CIBC's economic capital model may be enhanced as part of the risk measurement process and these changes are made prospectively.

There is no comparable GAAP measure for economic capital.

## Economic profit

Net income, adjusted for a charge on economic capital, determines economic profit. This measures the return generated by each business line in excess of our cost of equity capital, thus enabling users of our financial information to identify relative contributions to shareholder value.

Reconciliation of net income to economic profit is provided with segmented information on pages 6 to 8 .

## Segmented return on equity

We use return on equity (ROE) on a segmented basis for performance evaluation and resource allocation decisions.

While ROE for total CIBC provides a measure of return on common equity, ROE on a segmented basis provides a similar metric related to the capital allocated to the segments. We use economic capital to calculate ROE on a segmented basis. As a result, segmented ROE is a non-GAAP measure.

## Retail/wholesale ratio: Retail information

While we manage commercial banking operations within CIBC World Markets, some financial institutions include commercial banking in their retail operations. From time to time, some measures will be presented on the basis of CIBC Retail Markets, CIBC Wealth Management, and commercial banking operations for comparison purposes. Such measures include revenue, net income, and economic capital. For reconciliation of business mix: retail information, see the Non-GAAP measures section in the Q2/05 report to shareholders available on www.cibc.com.

## ROE and EPS on cash basis

Cash basis measures are calculated by adding back the after-tax effect of goodwill and other intangible expenses to net income. Management believes these measures permit uniform measurement, which enables users of CIBC's financial information to make comparisons more readily.

## Reconciliation of non-GAAP to GAAP measures

The table on the following page provides a reconciliation of non-GAAP to GAAP measures.

## RECONCILIATION OF NON-GAAP TO GAAP MEASURES

## External reporting changes

## First quarter

1. On November 1, 2004, we retroactively adopted the amendments to the Canadian Institute of Chartered Accountants (CICA) handbook section 3860, "Financial Instruments - Disclosure and Presentation." The amended standard requires that preferred shares that are convertible into a variable number of common shares at the option of the holder be presented as liabilities rather than as equity, and dividend payments and premium on redemptions arising from such preferred shares be treated as interest expense in the consolidated statements of income.
2. On November 1, 2004, we adopted the CICA Accounting Guideline (AcG) 15, "Consolidation of Variable Interest Entities," which provides a framework for identifying a variable interest entity (VIE) and requires a company to consolidate a VIE if the company absorbs a majority of the VIE's expected losses or receives a majority of the VIE's expected residual returns, or both.

## Second quarter

1. Non-controlling interests in subsidiaries were reclassified from other liabilities and disclosed separately on the consolidated balance sheet.

## Management reporting changes

## First quarter

1. Pursuant to the adoption of CICA handbook section 3860 , as reported under External reporting changes, dividend payments and premiums on redemptions related to such preferred shares are treated as interest expense in the consolidated statements of income. This interest expense has been allocated to the business lines proportionate to their economic capital. This change has been adopted retroactively.

See Notes to users: Externa reporting changes - First quarter, Note 1.
${ }^{2}$ See Notes to users: Non GAAP measures.
${ }^{3}$ Average interest-earning assets include interestbearing deposits with banks, securities, securities borrowed or purchased under resale agreements, and loans.
${ }^{4}$ Debt ratings - S \& P - Senior Long Term: A+; Moody's Senior Long Term: Aa3.
${ }^{5}$ Retail includes CIBC Retail Markets, CIBC Wealth Management and commercial banking (reported as part of CIBC World Markets). Wholesale reflects CIBC World Markets, excluding commercial banking. The ratio represents the amount of capital attributed to the business lines as at the end of the period. Prior to Q2/03, the ratio was based on the average economic capital attributed to the business lines in the period.
${ }^{6}$ Regular workforce headcount comprises regular full-time and part-time employees, base plus commissioned employees, and $100 \%$ commissioned employees. Full-time employees are counted as one and part-time employees as one-half.

## CIBC has three strategic business lines:

- CIBC Retail Markets provides financial services and products to personal and small business clients in Canada. These services are offered through the branch network, telephone banking, online banking and ABMs, as well as through the co-branded retail electronic banking business, President's Choice Financial, a coventure with Loblaw Companies Limited.
- CIBC Wealth Management provides relationship-based advisory, sales, service and product solutions to the full spectrum of wealth-building clients, primarily in Canada. The business comprises branch-based advice, full service brokerage, private wealth management and online brokerage. We also develop and package a wide range of financial products, including mutual funds, managed solutions and term investments.
- CIBC World Markets is the wholesale banking arm of CIBC, providing a range of integrated credit and capital markets products, investment banking, and merchant banking to clients in key financial markets in North America and around the world. We deliver innovative full capital solutions to growth-oriented companies and are active in all capital markets. We offer advisory expertise across a wide range of industries and provide top-ranked research for our corporate, government and institutional investor clients.
Corporate and Other comprises the five functional groups - Administration; Corporate Development; Finance; Technology \& Operations; and Treasury, Balance Sheet and Risk Management - that support CIBC's business lines, as well as Juniper Financial Corp. (sold on December 1, 2004), CIBC Mellon joint ventures, Oppenheimer Holdings Inc. debentures, and other income statement and balance sheet items not directly attributable to the business lines. The revenue and expenses of the functional groups are generally allocated to the business lines.

- The funds transfer pricing of retail products with embedded options (examples include: mortgage commitments, mortgage prepayments and redeemable GICs) now includes a specific charge for hedging the consumer
 CIBC Wealth Management-other.
- The hedging costs associated with mortgage refinancing before maturity and mortgage securitizations are now allocated to the mortgage business to better align these costs with their respective revenue. Previously, these costs were allocated to CIBC Retail Markets-other.

Also, effective November 1, 2003, a number of cash management accounts previously allocated to investment banking and credit products were transferred to commercial banking on a prospective basis.
${ }^{2}$ Our Manufacturer / Customer Segment / Distributor Management Model is used to measure and report the results of operations of the three business lines. Under this model, internal payments for sales commissions and
 Markets, are fully allocated to the business lines.
${ }^{3}$ See Notes to users: External reporting changes - First quarter, Note 1 and Management reporting changes - First quarter, Note 1.

${ }^{1}$ See Notes to users: External reporting changes - First quarter, Note 1.
${ }^{2}$ Conversion of Class A Series 28 Preferred Shares into Class A Series 29 Preferred Shares
${ }^{3}$ On November 1, 2003, we prospectively adopted the requirements of the CICA handbook section 1100, "Generally Accepted Accounting Principles." We commenced the treasury stock method of accounting for CIBC share positions held within trading portfolios.
${ }^{4}$ Assets and liabilities in the form of CIBC common shares amounting to approximately $\$ 655$ million (January 31, 2005: $\$ 612$ million), held within certain compensation trusts, have been offset
${ }^{5}$ Represents the effect of implementing the CICA Accounting Guideline (AcG) 15, "Consolidation of Variable Interest Entities."
${ }^{6}$ Represents the effect of implementing the CICA AcG-17, "Equity-linked Deposit Contracts."

CONSOLIDATED STATEMENTS OF CASH FLOWS

## \$ millions)

Unaudited, for the period ended
Cash flows provided by (used in) operating activities
Net income
Adjustments to reconcile net income to cash flows provided by (used in) operating activities
Provision for credit losses
Amortization of buildings, furniture, equipment, and leasehold improvement
Amortization of intangible assets
Stock-based compensation
Restructuring reversal
Investment securities (gains) losses, ne
Gains on divestitures
Write-down relating to Air Canada contract
Losses (gains) on disposal of land, buildings, and equipment
Changes in operating assets and liabilities

| Average fair values of derivatives during the quarter | 22,140 | 22,179 | (39) | (89) | 639 | 1,231 | 1,206 | 1,159 | 1,087 | 823 | 766 |

${ }^{1}$ The fair value of publicly traded equities held for investment does not take into account any adjustments for resale restrictions that expire within one year, or adjustments for liquidity or future expenses.
${ }^{2}$ See Notes to users: External reporting changes - First quarter Note 1.
${ }^{3}$ The book value includes both the carrying value of derivatives held for hedging purposes (Q2/05: (\$280) million; Q1/05: (\$389) million) and commencing Q4/04 any unamortized hedge-related balances (net Q2/05: \$339 million; Q1/05: $\$ 154$ million) which are primarily included in other assets and other liabilities.
${ }^{4}$ Includes certain securities hedged by forward sale contracts, collars and foreign exchange contracts with a range of maturities from 2006-2007. The unrealized gains related to these securities would decrease by \$120 million in Q2/05 (Q1/05: \$55 million) as a result of these hedges.
${ }^{5}$ ALM credit derivative options both purchased and written are treated as guarantees for credit risk capital purposes.
${ }^{6}$ Certain ALM derivative instruments are carried at fair value because they are ineligible for hedge accounting under AcG-13. Since these derivative instruments mitigate market risks, we consider them to be economic hedges for the corresponding risks of underlying positions. In addition, this category includes derivatives, such as seller swaps, whose risks are managed in the context of ALM activities.
Derivatives held for ALM purposes as at April 30, 2005, include positive and negative fair values of $\$ 789$ million and $\$ 752$ million, respectively, in respect of derivative instruments held for economic hedging purposes.

${ }^{1}$ The financial assets and liabilities have been presented in the consolidated gap table based on the earlier of their contractual re-pricing or maturity date. In the normal course of business, mortgage and other consumer loan clients frequently repay their loans in part or in full prior to the contractual maturity date. Similarly, some term deposits are sometimes cashed before their contractual maturity date. In addition, trading account positions can fluctuate significantly from day to day. Taking into account expected prepayments and early withdraw als on the consolidated gap position as at April 30,2005 , w ould have the effect of increasing the gap in the periods over one year by approximately $\$ 1.2$ billion ( $\$ 0.2$ billion decrease as at January 31, 2005),
${ }^{2}$ Given CIBC's consolidated maturity and repricing portfolio as at April 30, 2005, as adjusted for estimated prepayments, an immediate $1 \%$ increase in interest rates across all maturities would increase net income after taxes by approximately $\$ 89$ million ( $\$ 57$ million as at January 31, 2005) over the next 12 months, and increase common shareholders' equity as measured on a present value basis by approximately $\$ 320$ million including structural assumptions ( $\$ 294$ million as a January 31, 2005). Excluding the impact of structural assumptions, this w ould decrease common shareholders' equity by approximately $\$ 146$ million (\$171 million as at January 31, 2005)
${ }^{3} \mathrm{CIBC}$ manages the interest rate gap by imputing a duration to certain assets and liabilities based on historical and forecasted core balance trends.

[^7]:    ${ }^{1}$ Trading revenue is earned from on-balance sheet trading assets and related off-balance sheet derivatives for interest rates, equities and commodities and from foreign exchange contracts, including cross currency interest rate swaps. It does not include commissions or new issue revenue. Trading revenue is generated in CIBC World Markets, most significantly capital markets, and in TBRM.
    ${ }^{2}$ Trading activities and related risk management strategies can periodically shift revenue between net interest income and non-interest income. Therefore, we view trading-related net interest income as an integral part of trading revenue.
    ${ }^{3}$ See Notes to users: Non-GAAP measures.
    ${ }^{4}$ See Notes to users: External reporting changes - First quarter, Note 1.
    ${ }^{5}$ Includes credit derivatives and secondary loan trading and sales.
    ${ }^{6}$ See footnote 2 on page 3 of non-interest income.

[^8]:    ${ }^{1}$ We transferred $\$ 1.2$ billion of business and government loans in Q4/03 and $\$ 885$ million in Q3/03 into a held for sale portfolio. These loans were transferred into the held for sale portfolio at the lower of their carrying or market value. On transfer, the loans held for sale were reduced by a provision for credit losses of $\$ 93$ million in Q4/03 and $\$ 135$ million in Q3/03; and losses of $\$ 7$ million in Q4/03 and $\$ 16$ million in Q3/03 were recorded in other non-interest income
    ${ }^{2}$ See Notes to users: External reporting changes - Second quarter, Note 1.
    ${ }^{3}$ See Notes to users: External reporting changes - First quarter, Note 1.

[^9]:    ${ }^{1}$ In Q1/05, disposals included the sale of Juniper Financial Corp. and EDULINX Canada Corporation.
    ${ }^{2}$ Includes foreign exchange translation and other purchase price equation adjustments.
    ${ }^{3}$ In Q1/05, disposals included the sale of Juniper Financial Corp. and EDULINX Canada Corporation. In Q2/03, disposals included the sale of contract-based assets in the U.S. electronic banking operations.

[^10]:    ${ }^{1}$ See Notes to users: External reporting changes - First quarter, Note 1.
    ${ }^{2}$ Average interest-earning assets include interest-bearing deposits with banks, securities, securities borrowed or purchased under resale agreements, and loans.

[^11]:    ${ }^{1}$ Assets under management are included in assets under administration.

[^12]:    ${ }^{1}$ The amounts include only those assets that we securitized and continue to service, and exclude any assets temporarily acquired by CIBC with the intent at acquisition to sell to variable interest entities (VIEs).
    ${ }^{2}$ We periodically sell groups of loans or receivables to VIEs, which issue securities to investors. These transactions meet accepted criteria for recognition as sales and as such, the assets are removed from the consolidated balance sheets.
    ${ }^{3}$ Securitization affects the components of income reported in the consolidated statements of income, including net interest income, provision for credit losses and non-interest income. Non-interest income from securitization comprises servicing income, losses under recourse arrangements, and gains or losses on securitizations (Q2/05: \$13 million; Q1/05: not significant).

[^13]:    ${ }^{1}$ Specific allowances for large numbers of homogeneous balances of relatively small amounts are established by reference to historical ratios of write-offs to balances outstanding. This may result in negative net impaired loans as individual loans are generally classified as impaired when repayment of principal or payment of interest is contractually 90 days in arrears.

[^14]:    ${ }^{1}$ Prior to Q1/04, recoveries included credit protection purchased from third parties.
    ${ }^{2}$ The total allowance includes the allowance on impaired loans and allowance for letters of credit of $\$ 2$ million in Q2/05 (Q1/05: \$2 million).

[^15]:    ${ }^{1}$ The capital standards developed by the Bank for International Settlements (BIS) require a minimum total capital ratio of $8 \%$ of which $4 \%$ must be Tier 1 capital. The BIS framework allows some domestic regulatory discretion in determining capital. Capital ratios of banks in different countries are, therefore, not strictly comparable unless adjusted for discretionary differences. The Canadian regulator has target requirements of $7 \%$ Tier 1 and $10 \%$ total capital ratios for a bank to be considered "well capitalized."
    ${ }^{2}$ Includes non-cumulative preferred shares totalling $\$ 1.052$ billion (Q1/05: $\$ 1.048$ billion) that are redeemable by the holders and as such, are shown as preferred share liabilities on the consolidated balance sheets pursuant to adoption of the amendments to the CICA handbook section 3860. For further details, see Notes to users: External reporting changes - First quarter, Note 1.
    ${ }^{3}$ CIBC's general allowance for credit losses is $\$ 1.025$ billion and all of it is included in capital as it is below the maximum that can be included as part of Tier 2 capital. The maximum is $0.875 \%$ of total risk-weighted assets.

[^16]:    ${ }^{1}$ ALM: Asset/liability management.
    ${ }^{2}$ Includes forwards, futures, swaps and options.
    ${ }^{3}$ Includes precious metals and other commodity forwards, futures, swaps and options.

[^17]:    ${ }^{1}$ Sum of current replacement cost plus potential future exposure, adjusted for the impact of collateral.
    ${ }^{2}$ Futures contracts and some purchased options are traded through established exchanges and are subject to daily margin requirements. Accordingly, they are deemed to have no credit risk. Options written by CIBC have no credit risk as CIBC has already collected its income from these transactions. Accordingly, these items are excluded from this table.
    ${ }^{3}$ ALM credit derivative options both purchased and written are treated as guarantees for credit risk capital purposes.
    ${ }^{4}$ Includes forwards, swaps and options.
    ${ }^{5}$ Includes precious metals and other commodity forwards, swaps and options.
