This document is not audited and should be read in conjunction with our quarterly report to shareholders and news release for Q2/09 and the audited annual consolidated financial statements and accompanying management's discussion \& analysis for the year ended October 31, 2008. Additional financial information is also available through our quarterly investor presentations as well as the quarterly conference call webcast.

## External reporting changes

## First quarter

1. We moved the impact of securitization from CIBC Retail Markets to Corporate and Other. Prior period information was restated.
2. We realigned the businesses within CIBC Retail Markets and Wholesale Banking. Prior period information was restated to reflect the changes. The new reported businesses are as follows:

CIBC Retail Markets:

- Personal banking - includes personal deposits and lending, cards, residential mortgages, and insurance
- Business banking - includes business deposits and lending, commercial mortgages, and commercial banking
- Wealth management - includes retail brokerage and asset management
- FirstCaribbean
- Other

Wholesale Banking:

- Capital markets - includes cash equities, global derivatives and strategic risks, and fixed income, currencies and distribution businesses
- Corporate and investment banking - includes corporate credit products, investment banking, U.S. real estate finance, and core merchant banking
- Other - includes legacy merchant banking, structured credit and other run-off businesses, exited businesses, and corporate loan hedging

3. We moved the sublease income and related operating cost of our New York premises from Wholesale Banking to Corporate and Other. Prior period information was not restated.
4. We have retroactively reclassified intangible assets relating to application software from "Land, buildings and equipment" to "Software and other intangible assets" on our consolidated balance sheet.

## Second quarter

1. We have changed the name of our wholesale banking arm from ClBC World Markets to Wholesale Banking.

## Non-GAAP measures

We use a number of financial measures to assess the performance of our business lines. Some measures are calculated in accordance with GAAP, while other measures do not have a standardized meaning under GAAP and, accordingly, these measures, described below, may not be comparable to similar measures used by other companies. Investors may find these non-GAAP financial measures useful in analyzing financial performance.

This document references the following non-GAAP measures:

## Net interest income, taxable equivalent basis (TEB)

We adjust net interest income to reflect tax-exempt income on an equivalent before-tax basis. The corresponding entry is made in the income tax expense. This measure enables comparability of net interest income arising from both taxable and tax-exempt sources. Net interest income (TEB) is used to calculate the efficiency ratio and trading revenue (TEB). We believe these measures permit uniform measurement, which may enable users of our financial information to make comparisons more readily.

Economic capital provides the financial framework to evaluate the returns of each business line, commensurate with the risk tal pron

Economic capital is an estimate of the amount of equity capital required by the businesses to absorb losses consistent with our targeted risk rating over a one year horizon. It includes credit, market, operational and strategic risk capital. The economic capital methodologies that we employ quantify the level of inherent risk within our products, clients, and business lines, as required. The difference between our total equity capita and economic capital is held in Corporate and Other.

There is no comparable GAAP measure for economic capital.

## Economic profit

Net income, adjusted for a charge on capital, determines economic profit. This measures the return generated by each business line in excess of our cost of capital, thus enabling users of our financial information to identify relative contributions to shareholder value.
Reconciliation of net income to economic profit is provided with segmented information on pages 6 to 7 .

## Segmented return on equity

We use return on equity (ROE) on a segmented basis as one of the measures for performance evaluation and resource allocation decisions.

While ROE for consolidated CIBC provides a measure of return on common equity, ROE on a segmented basis provides a similar metric related to the capital allocated to the segments. We use economic capital to calculate ROE on a segmented basis. As a result, segmented ROE is a non-GAAP measure

## EPS and efficiency ratio on cash basis

Cash basis measures are calculated by adjusting the amortization of other intangible assets to net income and non-interest expenses. Management believes these measures permit uniform measurement, which enables users of our financial information to make comparisons more readily.

## Reconciliation of non-GAAP to GAAP measures

The table on the following page provides a reconciliation of non-GAAP to GAAP measures

## NOTES TO USERS

CONSOLIDATED STATEMENT OF CASH FLOWS

## Cash flows provided by (used in) operating activities

Net (loss) income
Adjustments to reconcile net income (loss) to cash flows provided by (used in) operating activities
Provision for credit losses
Amortization
Stock-based compensation
Future income taxes
AFS securities (gains) losses, net
Losses (gains) on disposal of land, buildings, and equipment
Other non-cash items, net
Changes in operating assets and liabilities
Accrued interest receivable
Accrued interest payable
Amounts receivable on derivative contracts
Amounts payable on derivative contracts
Net change in trading securities
Net change in FVO securities
Net change in other FVO assets and lial
Current income taxes

## Cash flows provided by (used in) financing activities

Deposits, net of withdrawals
Net obligations related to securities lent or sold under repurchase agreements
ssue of subordinated indebtednes
Redemption/repurchase of subordinated indebtedness
ssue of preferred shares
Issue of common shares, net
Purchase of common shares for cancellation
Net proceeds from treasury shares sold (purchased)
Dividends
Cash flows provided by (used in) investing activities
Interest-bearing deposits with banks
Loans, net of repayments
AFS/HTM securities
Purchase of securties
Proceeds from sale of securities
Proceeds from maturity of securities
Net securities borrowed or purchased under resale agreements
Net cash used in the acquisition
Purchase of land, buildings and equipment
Proceeds from disposal of land, buildings and equipment
Effect of exchange rate changes on cash and non-interest bearing deposits with banks
Net (decrease) increase in cash and non-interest-bearing deposits with banks during period
Net (decrease) increase in cash and non-interest-bearing deposits with banks during period
Cash and non-interest-bearing deposits with banks at end of period
Cash interest paid
Cash income taxes (recovered) paid $\qquad$

On- and off-balance sheet financial instruments have been reported on the earlier of their contractual repricing or maturity dates. Certain contractual repricing dates have been adjusted according to management's estimates for prepayments and early redemptions.
${ }^{2}$ Based on the interest rate sensitivity profile as at April 30, 2009, as adjusted for structural
assumptions, estimated prepayments and early
withdrawals, an immediate $1 \%$ increase in interes
rates across all maturities would increase net income
after taxes by approximately $\$ 128$ million ( $\$ 71$ million increase as at January 31, 2009) over the next 12 months, and increase shareholders' equity as measured on a present value basis by approximately $\$ 127$ million (\$91 million increase as at January 31, 2009).
${ }^{3}$ We manage our ineresstrate gap by in inuting a duration to certain assets and liabilities based on historical and forecasted trends in core balances.

BASEL I CAPITAL ${ }^{1}$
(\$ millions)

${ }^{1}$ Regulatory capital and ratios based upon Basel I methodology provided for comparison purposes only.
${ }^{2}$ Does not include short trading positions (Q2/09: $\$ 0.1$ million; Q1/09: nil) in CIBC common shares.
${ }^{3}$ Includes non-cumulative preferred shares totaling $\$ 600$ million (Q1/09: $\$ 600$ million) that are redeemable by the holders and as such, are shown as preferred share liabilities on the consolidated balance sheet.
${ }^{4}$ On March 13, 2009 CIBC Capital Trust, wholly owned by CIBC, issued $\$ 1.3$ billion of $9.976 \%$ CIBC Tier 1 Notes - Series A due June 30, 2108 and $\$ 300$ million of $10.25 \%$ CIBC Tier 1 Notes - Series B due June 30 , 2108 (together, the Tier 1 Notes). The Tier 1 Notes qualify as our Tier 1 regulatory capital.
${ }^{5}$ The amount of general allowance for credit losses eligible for inclusion in Tier 2 capital is the lesser of the total general allowance or $0.875 \%$ of risk-weighted assets.

## REGULATORY CAPITAL ${ }^{1}$ (BASEL II BASIS)

(\$ millions)

## Tier 1 capital

## Common shares ${ }^{2}$

## Contributed surplus

Retained earnings
Net after tax fair value losses arising from changes in institution's own credit risk
Foreign currency translation adjustments (component of AOCI )
Net after tax unrealized holding losses on AFS equity securities in OCl
Non-cumulative preferred shares ${ }^{3}$
Innovative instruments ${ }^{4}$
Certain non-controlling interests in subsidiaries
Goodwill
Gains on sale of securitizations
$50 / 50$ deductions from each of Tier 1 and Tier $2^{5}$

## Tier 2 capital

## Perpetual subordinated indebtedness

Other subordinated indebtedness (net of amortization)
Other subordinated indebtedness in excess of Tier 1 qualifying instruments
Net after tax unrealized holding gains on AFS equity securities in OCl
Eligible general allowance (standardized approach)
50/50 deductions from each of Tier 1 and Tier $2^{5}$
Other equity and substantial investments deduction ${ }^{5}$

## Total capita

Total risk-weighted assets (see page 35)

## Tier 1 capital ratio

Total capital ratio
${ }^{1}$ The capital standards developed by the Bank of International Settlements (BIS) require a minimum Total capital ratio of $8 \%$ of which $4 \%$ must be Tier 1 capital. The BIS framework allows some domestic regulatory discretion in determining capital. Capital ratios of banks in different countries are, therefore, not strictly comparable unless adjusted for discretionary differences. The Office of the Superintendent of Financial Institutions (OSFI) has minimum standards for Tier 1 and Total capital ratios of 7\% and 10\%, respectively.
${ }^{2}$ Does not include short trading positions (Q2/09: $\$ 0.1$ million; Q1/09: nil) in CIBC common shares.
${ }^{3}$ Includes non-cumulative preferred shares totalling $\$ 600$ million (Q1/09: $\$ 600$ million) that are redeemable by the holders and as such, are shown as preferred share liabilities on the consolidated balance sheet.
${ }^{4}$ On March 13, 2009 CIBC Capital Trust, wholly owned by CIBC, issued $\$ 1.3$ billion of $9.976 \%$ CIBC Tier 1 Notes - Series A due June 30, 2108 and $\$ 300$ million of $10.25 \%$ CIBC Tier 1 Notes Series B due June 30, 2108 (together, the Tier 1 Notes). The Tier 1 Notes qualify as our Tier 1 regulatory capital.
${ }^{5}$ Items which are deducted $50 \%$ from each of Tier 1 capital and Tier 2 capital include allowance shortfall calculated under Advanced Internal Ratings Based (AIRB) approach, securitization exposures (other than gain on sale) and substantial investments in unconsolidated entities. The substantial investment amounts which qualified for OSFI's transition rules were deducted $100 \%$ from Tier 2 capital during 2008. In addition, investment in insurance activities continue to be deducted $100 \%$ from Tier 2 capital in accordance with the OSFI's transition rules.

[^12]CREDIT EXPOSURE - GEOGRAPHIC CONCENTRATION ${ }^{1}$
(\$ millions)

${ }^{1}$ This table provides information of our business and government exposures under the AIRB approach. Substantially, all our retail exposures under the AIRB approach are based in Canada. The classification of geography is based upon the country of ultimate risk. Amounts are before allowance for credit losses and risk mitigation, and after valuation adjustments related to financial guarantors and \$77.2 billion (Q1/09: \$75.5 billion) of collateral held for our repurchase agreement activities.

## MAPPING OF INTERNAL RATINGS WITH EXTERNAL RATING AGENCIES¹

|  |  |  | Moody's Investor <br> Services |
| :--- | :---: | ---: | ---: |
| Grade | CIBC rating | Stard \& Poor's <br> equivalent | equivalent |
| Investment grade | $\mathbf{0 0 - 4 7}$ | AAA to BBB- | Aaa to Baa3 |
| Non-investment grade | $\mathbf{5 1 - 6 7}$ | $\mathrm{BB}+$ to B- | Ba1 to B3 |
| Watchlist | $\mathbf{7 0 - 8 0}$ | CCC+ to CC | Caa1 to Ca |
| Default | $\mathbf{9 0}$ | D | C |

${ }^{1}$ The above table for mapping of internal ratings with external rating agencies is used for business and government exposures under riskrating method.

## PD BANDS TO VARIOUS RISK LEVELS ${ }^{1}$

|  |  |
| :--- | ---: |
| Description | PD bands |
| Exceptionally low | $0.01 \%-0.20 \%$ |
| Very low | $0.21 \%-0.50 \%$ |
| Low | $0.51 \%-2.00 \%$ |
| Medium | $2.01 \%-10.00 \%$ |
| High | $10.01 \%-99.99 \%$ |
| Default | $100.00 \%$ |

${ }^{1}$ The above table for PD bands to various risk levels is used for retail portfolios.

${ }^{1}$ Amounts provided are before allowance for credit losses, and after credit risk mitigation, valuation adjustments related to financial guarantors, and collateral on repurchase agreement activities. Insured residential mortgages and student loan portfolios of $\$ 49.3$ billion (Q1/09: $\$ 58.6$ billion), are reclassified to either sovereign or corporate exposures.

${ }^{1}$ Facilities in the strong and good categories have key attributes exceeding our risk criteria. Facilities in the satisfactory category have key attributes that meet our risk criteria.

SECURITIZATION SUBJECT TO EARLY AMORTIZATION
(\$ millions)

Originator/ Seller's intere
Drawn-EAD ${ }^{5}$
Capital charge (for drawn and undrawn)
${ }^{1}$ Includes originator and investor interests.
${ }^{2}$ Net of financial collateral $\$ 284$ million (Q1/09: 424 million).
${ }^{3}$ Underlying assets include residential mortgages of $\$ 761$ million (Q1/09: $\$ 684$ million) and credit card loans of $\$ 3.5$ billion (Q1/09: 3.5 billion),
${ }^{4}$ Pertains to cash account that is a first loss protection for residential mortgage securitized, unrated credit exposures and securities.
${ }^{5}$ Underlying asset comprises credit card loans.

## Advanced I nternal Rating Based (AI RB) approach for credit risk

Internal models based on historical experience of key risk assumptions are used to compute the capital requirements.

## Advanced Measurement Approach (AMA) for operational risk

The capital charge for operational risk is calculated based on internal risk measurement models, using a combination of quantitative and qualitative risk measurement techniques.

## Business and Government Portfolios

A category of exposures that includes lending to businesses and governments, where the primary basis of adjudication relies on risk ratings.

## Corporate exposures

Direct credit risk exposures to corporations, partnerships and proprietorships, and exposures guaranteed by those entities.

## Credit risk

Risk of financial loss due to a borrower or counterparty failing to meet its obligations in accordance with agreed terms.

## Drawn exposures

The amount of credit risk exposure resulting from loans already advanced to the customer.

## Exposure at default (EAD)

An estimate of the amount of exposure to a customer at the event of, and at the time of, default.

## I nternal Models Approach (I MA) for market risk

Internal models are used to calculate the capital charge for specific risks and general market risks.

## I nternal Ratings Based approach for securitization exposures

The computation of capital charge is based on risk-weights that are mapped from internal ratings.

## Loss given default (LGD)

An estimate of the amount of exposure to a customer that will not be recovered as the result of default, expressed as a percentage of the Exposure at Default.

## Operational risk

The risk of loss resulting from inadequate or failed internal processes, systems, or from human error or external events.

## Probability of default (PD)

An estimate of the likelihood that the obligations of any particular customer will not be repaid as they become contractually due.

## Qualifying revolving retail

This exposure class includes credit cards, unsecured lines of credit and overdraft protection products extended to individuals (except in case of Standardized approach) under the Basel II framework.

## Real estate secured and personal lending

This exposure class includes residential mortgages and home equity lines of credit extended to individuals under the Basel II framework.

## Regulatory capital

Regulatory capital comprises Tier 1 and Tier 2 capital as defined by OSFI's Capital Adequacy Regulations. Tier 1 capital comprises common shares excluding short trading positions in our own shares, retained earnings, preferred shares, noncontrolling interests, contributed surplus, and foreign currency translation adjustments. Goodwill and gain on sale of securitization is deducted from Tier 1 capital. Tier 2 capital comprises subordinated debt and eligible general allowance. Items which are deducted $50 \%$ from each of Tier 1 capital and Tier 2 capital include allowance shortfall calculated under Advanced Internal Ratings Based (AIRB) approach, securitization exposures (other than gain on sale) and substantial investments in unconsolidated entities. The substantial investment amounts which qualified for OSFI's transition rules were deducted $100 \%$ from Tier 2 capital during 2008. In addition, investment in insurance activities continue to be deducted $100 \%$ from Tier 2 capital in accordance with the OSFI 's transition rules.

## Retail portfolios

A category of exposures that includes personal and small business lending, where the primary basis of adjudication relies on credit scoring models.

## Risk-weighted assets

Under Basel I, RWAs are calculated by applying risk-weighting factors specified by OSFI to all on-balance sheet assets and off-balance sheet exposures for non trading books plus statistically estimated risk exposures in trading books. Under Basel II AIRB approach, RWAs are calculated according to the mathematical formulae utilizing PDs, LGDs, and EADs and in some cases, maturity adjustments. Under the standardized approach, RWAs are calculated by applying the weighting factors specified in the OSFI guidelines to on-and off-balance sheet exposures. Riskweighted assets for market risk in the trading portfolio are statistically estimated based on models approved by OSFI.

## Securitization

The process of selling assets (normally financial assets such as loans, leases, trade receivables, credit card receivables or mortgages) to trusts or other special purpose entities (SPEs). An SPE normally issues securities or other form of interests to investors and/or the asset transferor, and the SPE uses the proceeds of the issue of securities to purchase the transferred assets. The SPE will generally use the cash flows generated by the assets to meet the obligations under the securities or other interests issued by the SPE, which may carry a number of different risk profiles.

## Sovereign exposures

Direct credit risk exposures to governments, central banks and certain public sector entities, and exposures guaranteed by those entities.

## Standardized approach for credit risk

Credit risk capital requirements are calculated based on a standardized set of riskweights as prescribed by the regulator. The standardized risk-weights are based on external credit assessment, where available, and other risk-related factors, including exposure asset class, collateral, etc.

## Tier 1 and total capital ratios

Tier 1 and total regulatory capital, divided by risk-weighted assets, based on guidelines set by OSFI, based on Bank for International Settlements standards.

[^0]:    ${ }^{1}$ See Notes to users: Non-GAAP measures
    ${ }^{2}$ In case of a loss, the effect of stock options potentially exercisable on diluted earnings (loss) per share will be anti-dilutive; therefore, basic and diluted earnings (loss) per share will be the same.

     consolidated statement of operations.
     of trading revenue.
    ${ }^{3}$ See Notes to users: Non-GAAP measures
    ${ }^{4}$ See footnote 2 on page 3 of non-interest income

[^4]:    ${ }^{1}$ Primarily relates to the acquisition of FirstCaribbean
    ${ }^{2}$ Includes disposition of certain U.S. businesses.
    ${ }^{3}$ Includes foreign currency translation adjustments.

[^5]:    ${ }^{1}$ Assets and liabilities in the form of CIBC common shares, held within certain compensation trusts, have been offset (April 30, 2009: $\$ 215$ million; January 31,2009 : $\$ 202$ million) within treasury shares
    ${ }^{2}$ Represents the impact of changing the measurement date for employee future benefits.
    ${ }^{3}$ Represents the impact of adopting the amended Canadian Institute of Chartered Accountants (CICA) Emerging Issues Committee Abstract 46," Leveraged Leases "
    ${ }^{4}$ Represents the transitional adjustment on adoption of the CICA handbook sections 1530, 3251, 3855 and 3865.

[^6]:    ${ }^{1}$ Beginning in 2008, allowance on undrawn credit facilities is included in other liabilities.

[^7]:    ${ }^{1}$ Beginning in 2008, allowance on undrawn credit facilities is included in other liabilities

[^8]:    ${ }^{1}$ ALM: Asset/liability management.
    ${ }^{2}$ Comprises forwards, futures, swaps and options.

[^9]:    ${ }^{1}$ Exchange-traded instruments with a replacement cost of $\$ 861$ million (Q1/09: $\$ 895$ million) are excluded in accordance with the guidelines of the Office of the Superintendent of Financial Institutions, Canada (OSFI).
    ${ }^{2}$ Sum of current replacement cost and potential credit exposure, adjusted for the impact of collateral amounting to $\$ 2,537$ million (Q1/09: $\$ 2,526$ million). The collateral comprises cash $\$ 2,307$ million (Q1/09: $\$ 2,254$ million), government securities $\$ 230$ million (Q1/09: $\$ 268$ million) and other instruments nil (Q1/09: $\$ 4$ million).
    ${ }^{3}$ Written ALM credit derivatives are treated as guarantee commitment; bought ALM credit derivatives meeting hedge effectiveness criteria are treated as credit risk mitigation with no counterparty credit risk charge; and bought ALM credit derivatives not meeting the hedge effectiveness criteria receive a counterparty credit risk charge.
    ${ }^{4}$ Comprises credit protection sold. Represents the fair value of contracts for which fees are received over the life of the contracts.
    ${ }^{5}$ Comprises forwards, swaps and options.

[^10]:    ${ }^{1}$ Risk-weighted assets based upon Basel I methodology provided for comparison purposes only.
    ${ }^{2}$ Includes the full contract amount of custodial client securities with indemnification lent by CIBC Mellon Global Securities Services Company.
    ${ }^{3}$ Securities lending of $\$ 5.3$ billion (Q1/09: $\$ 6.0$ billion) for cash is excluded from the table above because it is reported on the consolidated balance sheet as obligations related to securities lent or sold under repurchase agreements.

[^11]:    ${ }^{1} 100 \%$ risk-weighted.

[^12]:    ${ }^{1}$ Gross credit exposure after valuation adjustments related to financial guarantors, and before allowance for credit losses and risk mitigation, including $\$ 77.2$ billion (Q1/09: $\$ 75.5$ billion) of collateral held for our epurchase agreement activities.
    ${ }^{2}$ Average credit exposure for Q1/09 was approximately 3\% higher than January 31, 2009 spot exposure, mainly due to decreased reverse repo activities in January 2009.

[^13]:    ${ }^{1}$ This table provides information of our gross exposure at default for our business and government and retail exposures under the AIRB approach. Amounts are after valuation adjustments related to financial guarantors, and before allowance for credit losses and risk mitigation, including \$77.2 billion (Q1/09: \$75.5 billion) of collateral held for our repurchase agreement activities
    ${ }^{2}$ Demand loans are included in the "Less than 1 year" category.

[^14]:    ${ }^{1}$ Amounts are before allowance for credit losses and risk mitigation, and after valuation adjustments related to financial guarantors and $\$ 77.2$ billion (Q1/09: \$75.5 billion) of collateral held for our repurchase agreement activities.

[^15]:    ${ }^{1}$ This table provides information on credit mitigants against exposures under the AIRB approach.

[^16]:    ${ }^{1}$ This table provides the amount of assets securitized by CIBC as originator. Related impaired and other past due loans and the net write-offs on the securitized assets (which are not recognized on CIBC consolidated balance sheet) are also included in the table
    ${ }^{2}$ Includes insured and uninsured residential mortgages.
    ${ }^{3}$ Other past due loans are loans with repayment of principal and payment of interest is overdue for over 90 days. Prior period numbers were restated; as residential mortgages amounts previously reported, represented only the installments overdue for 90 days.
    Includes insured amount of \$ 204 million.
