**Competitive Conditions**

CIBC was the fifth largest Canadian chartered bank in terms of market capitalization as at October 31, 2018.

CIBC operated in an environment of moderate economic growth in Canada, and of accelerating growth in the U.S. in 2018. Canada enjoyed low unemployment rates that supported household credit quality, but both consumer and mortgage credit growth decelerated due to higher interest rates, softer housing inflation, and regulatory policy decisions. Corporate credit quality remained strong despite a slowing in profit growth, while business investment spending and loan demand accelerated. A slower increase in non-financial corporate bond issuance activity was more than offset by the accelerating issuance of financial sector bonds, while equity issuance activity was light. Government debt continued to grow but at a slightly slower pace than 2017. The U.S. economy showed strong growth and robust employment gains as fiscal stimulus more than offset rising interest rates, helping to drive a pick-up in business lending after a slow 2017. U.S. equity markets had a strong start to the year but gave up that ground in the fall on concerns over global growth and rising interest rates.

**Social and Environmental Policies**

Additional information about our environmental policies and environmental risks can be found under “Management of risk – Other risks – Environmental and social risk” on page 78 of our 2018 Annual Report. Furthermore, CIBC’s Corporate Responsibility Report and Public Accountability Statement summarizes our commitment to our stakeholders and highlights the activities we are undertaking to enhance our economic, environmental, social and governance contributions. This report is available at https://www.cibc.com/content/cibcpublic/en/about-cibc/corporate-responsibility.html.

**Risk Factors**

A discussion of risk factors related to CIBC and its business, and the steps taken to manage those risks appears throughout the 2018 Annual Report and in particular under the heading “Management of risk” on pages 41 to 78.

**GENERAL DEVELOPMENT OF THE BUSINESS**

**Three Year History**

At CIBC, we are building a relationship-oriented bank for a modern world.

For many years, CIBC has reported a scorecard of financial objectives to evaluate and report on our progress to external stakeholders. These measures, for which CIBC has set targets over the medium term, defined as three to five years, can be categorized into five key areas of shareholder value:

1. **Earnings Growth**
   - Average annual earnings per share (EPS) growth of 5% to 10%.
2. **Efficiency Ratio**
   - Run rate efficiency ratio (ratio of non-interest expenses to total revenue) of 55% by 2019 and 52% by 2022.
3. **Return on Common Shareholders’ Equity**
   - Return on common shareholders’ equity (ROE) of at least 15%.
4. **Total Shareholder Return**
   - Dividend payout ratio of 40% to 50% of earnings to common shareholders.
   - Total shareholder return that exceeds the industry average, which we have defined as the Standard & Poor’s Ratings Services (S&P)/Toronto Stock Exchange (TSX) Composite Banks Index, over a rolling five-year period.
5. **Balance Sheet Strength**
   - Maintain strong capital ratios that comfortably exceed the regulatory target set by the Office of the Superintendent of Financial Institutions (OSFI).
1. Earnings Growth
Reported diluted EPS was $11.65 in 2018, compared with $11.24 in 2017, up 4%. Reported diluted EPS was $10.70 in 2016. Adjusted diluted EPS$ was $12.21 in 2018, compared with $11.11 in 2017, up 10%. Adjusted diluted EPS$ was $10.22 in 2016.

2. Efficiency Ratio
In 2018, CIBC made progress towards its efficiency ratio objectives. The reported efficiency ratio was 57.5% compared with 58.8% in 2017 and 59.7% in 2016. The adjusted efficiency ratio$ was 55.6% compared with 57.2% in 2017 and 58.0% in 2016.

3. Return on Common Shareholders’ Equity
In 2018, reported ROE of 16.6% was above the 15% target but down from 18.3% in 2017. Reported ROE was 19.9% in 2016. Adjusted ROE$ was 17.4% was above our target but down from 18.1% reported in 2017. Adjusted ROE$ was 19.0% in 2016.

4. Total Shareholder Return
CIBC’s 2018 reported dividend payout ratio was 45.5%, compared with 45.6% in 2017. The reported dividend payout ratio was 44.3% in 2016. CIBC’s 2018 adjusted dividend payout ratio$ was 43.4% compared with 46.2% in 2017. The adjusted dividend payout ratio$ was 46.4% in 2016.

CIBC’s rolling five-year total shareholder return for the period ended October 31, 2018 was 60.6% compared with 62.0% for the S&P/TSX Composite Banks Index.

5. Balance Sheet Strength
At the end of 2018, CIBC’s Basel III Common Equity Tier 1 ratio on an all-in basis was 11.4%, well above the current OSFI target.

(1) For additional information, see the “Non-GAAP measures” section on page 14 of the 2018 Annual Report.

DIVIDENDS
CIBC has a common share dividend sub-policy of maintaining a balance between the distribution of profits to shareholders and the need to retain capital for safety and soundness, and to support growth of the businesses. In the context of this overall policy, CIBC’s key criteria for considering dividend increases are the current payout ratio compared to the target, and its view on the sustainability of the level of current earnings through the cycle. Going forward, CIBC will continue to target a dividend payout ratio of 40% to 50%.

The cash dividends declared and paid per share for each class of CIBC shares and restrictions on the payment of dividends can be found on pages 151 to 153 of the 2018 Annual Report.

CAPITAL STRUCTURE
The following summary of CIBC’s capital structure is qualified in its entirety by CIBC’s by-laws and the actual terms and conditions of such shares. Additional detail on CIBC’s capital structure is provided on pages 150 to 154 of the 2018 Annual Report.

Description of Common Shares
CIBC’s authorized common share capital consists of an unlimited number of common shares without nominal or par value. The holders of common shares are entitled to receive dividends as and when declared by the Board of Directors of CIBC (the Board), subject to the preference of holders of preferred shares. A holder of common shares is entitled to notice of and to attend all shareholders’ meetings, except meetings at which only holders of a specified class or series of shares are entitled to vote, and for all purposes will be entitled to one vote for each common share held. In the event of liquidation, dissolution or winding-up of CIBC, after payment of all outstanding deposits and debts and subject to the preference of any shares ranking senior to the common shares, the holders of common shares will be entitled to a pro rata distribution of the remaining assets of CIBC. The holders of common shares have no pre-emptive, subscription, redemption or conversion rights. The rights, preferences and privileges of the common shares are subject to the rights of the holders of preferred shares.

Description of Preferred Shares
CIBC is authorized to issue an unlimited number of Class A Preferred Shares and Class B Preferred Shares without nominal or par value, issuable in series, with such rights, privileges, restrictions and conditions as the Board may determine, provided that, for each class of preferred shares, the maximum aggregate consideration for all outstanding shares, at any time does not exceed $10 billion. There are five series of Class A Preferred Shares currently outstanding (Series 39, 41, 43, 45 and 47) and no Class B Preferred Shares currently outstanding.

The Bank Act (Canada) requires that banks maintain adequate capital in relation to their operations. The Superintendent of Financial Institutions (the Superintendent) establishes capital adequacy requirements for issuances of regulatory capital by banks. These requirements include that all regulatory capital must be able to absorb losses in a failed financial institution. Effective January 1, 2013, in accordance with
capital adequacy requirements adopted by the Superintendent, non-common capital instruments issued after January 1, 2013, including preferred shares, must include non-viability contingent capital (NVCC) provisions, providing for the full and permanent automatic conversion (an NVCC Automatic Conversion) of such non-common capital instruments into common shares upon the occurrence of certain trigger events relating to financial viability (the NVCC Provisions) in order to qualify as regulatory capital.

The following describes certain general terms and conditions of the preferred shares.

Certain Conditions of the Class A Preferred Shares as a Class

The following is a summary of certain provisions attached to the Class A Preferred Shares as a class.

Priority

The Class A Preferred Shares of each series of Class A Preferred Shares rank on a parity with every other series of Class A Preferred Shares and rank in priority to the Class B Preferred Shares and the common shares of CIBC with respect to the payment of dividends and on the distribution of assets in the event of the liquidation, dissolution or winding-up of CIBC, provided that an NVCC Automatic Conversion as contemplated under the NVCC Provisions applicable to a series of Class A Preferred Shares has not occurred.

Restrictions on Creation of Additional Class A Preferred Shares

In addition to any shareholder approvals required by applicable law, the approval of the holders of the Class A Preferred Shares given in the manner described under “Modification” below, is required for any increase in the maximum aggregate consideration for which the Class A Preferred Shares may be issued and for the creation of any shares ranking prior to or on a parity with the Class A Preferred Shares.

Modification

Approval of amendments to the provisions of the Class A Preferred Shares as a class and any other authorization required to be given by the holders of Class A Preferred Shares may be given by a resolution carried by an affirmative vote of not less than 66 2/3% of the votes cast at a meeting at which the holders of 10% of the outstanding Class A Preferred Shares are present or represented by proxy or, if no quorum is present at such meeting, at an adjourned meeting at which the shareholders then present would form the necessary quorum.

Rights on Liquidation

In the event of the liquidation, dissolution or winding-up of CIBC, provided that an NVCC Automatic Conversion as contemplated under the NVCC Provisions applicable to a series of Class A Preferred Shares has not occurred, the holders of the Class A Preferred Shares will be entitled to receive an amount equal to the price at which such shares are issued together with such premium, if any, as shall have been provided for with respect to the Class A Preferred Shares of any series, together with all declared and unpaid dividends, before any amount is paid or any assets of CIBC are distributed to the holders of any shares ranking junior to the Class A Preferred Shares. Upon payment to the holders of the Class A Preferred Shares of the amounts so payable to them, they will not be entitled to share in any further distribution of the assets of CIBC. If an NVCC Automatic Conversion as contemplated under the NVCC Provisions applicable to a series of Class A Preferred Shares has occurred, all of the Class A Preferred Shares of such series shall have been converted into common shares of CIBC in accordance with a pre-determined conversion formula specified at the time of issuance of the Class A Preferred Shares of such series and will rank on parity with all other common shares of CIBC.

Voting Rights

Subject to the provisions of the Bank Act (Canada), the directors of CIBC are empowered to set voting rights, if any, for each series of Class A Preferred Shares.

Contingent Conversion of Certain Series of Class A Preferred Shares

All of CIBC’s currently outstanding Class A Preferred Shares (Series 39, 41, 43, 45 and 47) were issued after January 1, 2013 and, accordingly, contain NVCC Provisions in their respective share terms and conditions. The number of common shares into which such Class A Preferred Shares would be converted upon an NVCC Automatic Conversion will be determined in accordance with a pre-determined conversion formula specified at the time of issuance of such Class A Preferred Shares.

Bank Act (Canada) RestrictionsRelated to Share Ownership

The Bank Act (Canada) contains restrictions on the issue, transfer, acquisition, beneficial ownership and voting of all shares of a chartered bank. By way of summary, no person, or persons acting jointly or in concert, shall be a major shareholder of a bank if the bank has equity of $12 billion or more (which would include CIBC). A person is a major shareholder of a bank where: (i) the aggregate of the shares of any class of voting shares beneficially owned by that person, by entities controlled by that person and by any person associated or acting jointly or in concert with that person (as contemplated by the Bank Act (Canada)) is more than 20% of that class of voting shares; or (ii) the aggregate of the shares of any class of non-voting shares beneficially owned by that person, by entities controlled by that person and by any person associated or acting jointly or in concert with that person (as contemplated by the Bank Act (Canada)) is more than 30% of that class of non-voting shares. No person, or persons acting jointly or in concert, shall have a significant interest in any class of shares of a bank,
including CIBC, unless the person first receives the approval of the Minister of Finance (Canada). For purposes of the Bank Act (Canada), a person has a significant interest in a class of shares of a bank where the aggregate of any shares of the class beneficially owned by that person, by entities controlled by that person and by any person associated or acting jointly or in concert with that person (as contemplated by the Bank Act (Canada)) exceeds 10% of all of the outstanding shares of that class of shares of such bank.

In addition, the Bank Act (Canada) prohibits a bank, including CIBC, from recording in its securities register the transfer or issuance of shares of any class to Her Majesty in right of Canada or of a province, an agent or agency of Her Majesty, a government of a foreign country or any political subdivision of a foreign country, or an agent or agency of a foreign government. The Bank Act (Canada) also suspends the exercise of any voting rights attached to any share of a bank, including CIBC, that is beneficially owned by Her Majesty in right of Canada or of a province, an agency of Her Majesty, a government of a foreign country or any political subdivision of a foreign country, or any agency thereof.

**Liquidity and Credit Ratings**

CIBC funds its operations with client-sourced deposits, supplemented with a wide range of wholesale funding.

CIBC’s principal approach aims to fund its balance sheet with deposits primarily raised from personal and commercial banking channels. CIBC maintains a foundation of relationship-based core deposits, whose stability is regularly evaluated through internally developed statistical assessments.

We routinely access a range of short-term and long-term secured and unsecured funding sources diversified by geography, depositor type, instrument, currency and maturity. We raise long-term funding from existing programs including covered bonds, asset securitizations and unsecured debt.

CIBC continuously evaluates opportunities to diversify into new funding products and investor segments in an effort to maximize funding flexibility and minimize concentration and financing costs. We regularly monitor wholesale funding levels and concentrations to internal limits consistent with our desired liquidity risk profile.

The Global Asset Liability Committee and the Risk Management Committee of the Board review and approve CIBC’s funding plan, which incorporates projected asset and liability growth, funding maturities, and output from our liquidity position forecasting.

Access to wholesale funding sources and the cost of funds are dependent on various factors including credit ratings. CIBC’s wholesale funding and credit ratings are also discussed on pages 73 to 74 of the 2018 Annual Report under the heading “Management of risk – Liquidity risk”.

PRE-APPROVAL POLICIES AND PROCEDURES

The Audit Committee has adopted the CIBC Policy on the Scope of Services of the Shareholders’ Auditors (the “Scope of Services Policy”) to provide a consistent approach for the engagement of the shareholders’ auditors. The Scope of Services Policy requires that work performed by the shareholders’ auditors for CIBC or its subsidiaries be pre-approved by the Audit Committee, along with the related fee for that work. The Audit Committee may establish pre-approval policies and procedures that are specific to a particular service. Under the Scope of Services Policy, the shareholders’ auditors will only perform audit, audit-related and tax work, and other work if pre-approved by the Audit Committee. The Audit Committee may approve exceptions to the Scope of Services Policy if it determines that such an exception is in the overriding best interests of CIBC, and the exception does not impair the independence of the shareholders’ auditors. However, certain non-audit activities set out in the Scope of Services Policy are generally prohibited and will not be considered for exception from the Policy. On a quarterly basis, the Audit Committee is presented with a summary report of all engagements of the shareholders’ auditors that are currently underway or have been completed since the prior quarter’s report, including engagements entered into pursuant to pre-approved quarterly limits. The summary report will describe the nature of each engagement, confirm that each engagement is in compliance with the Scope of Services Policy and state the fees received by the shareholders’ auditors for each engagement. The Scope of Services Policy also sets out ongoing relationship standards and requires that the shareholders’ auditors annually certify compliance with the Policy.

Appendix A
Rating Definitions

DBRS

Short-term debt
Rating: R-1 (high)
Short-term debt ratings deal with the risk that an issuer will not be able to meet its short-term financial obligations in a timely manner. Short-term debt rated R-1 (high) is of the highest credit quality, indicative of an entity with an exceptionally high capacity to repay its short-term financial obligations. R-1 is the highest of six short-term debt rating categories. The R-1 and R-2 categories are further denoted with “high”, “middle” and “low” subcategories.

Legacy senior debt(1)
Rating: AA
Senior debt(2)
Rating: AA (low)
Senior debt ratings provide an assessment of the risk that an issuer will not be able to meet its financial obligations under its long-term debt obligations. Senior debt rated AA is ranked in the second highest of ten categories. It is considered to be of superior credit quality, with capacity for payment considered to be high. The credit quality of obligations rated AA differs from the highest AAA category only to a small degree, and is unlikely to be significantly susceptible to future events. The AA category is further denoted by the subcategories “high” and “low”. The absence of a “high” or “low” indicates a rating in the middle of the category.

Subordinated indebtedness
Rating: A (high)
Subordinated indebtedness – NVCC
Rating: A (low)
Long-term debt ratings provide an assessment of the risk that an issuer will not be able to meet its financial obligations under its long-term debt obligations. Long-term debt rated A is ranked in the third highest of ten categories. It is considered to be of good credit quality, with substantial capacity for payment. The A category is further denoted by the subcategories “high” and “low”. The absence of a “high” or “low” indicates a rating in the middle of the category.

Preferred shares – NVCC
Rating: Pfd-2
Preferred share ratings provide an assessment of the risk that an issuer will not be able to meet its dividend and principal obligations in a timely manner. Preferred shares rated Pfd-2 are of satisfactory credit quality with substantial protection of dividends and principal. A Pfd-2 rating is the second highest of six categories for preferred shares. Each category is further denoted by the subcategories “high” and “low”. The absence of a “high” or “low” indicates a rating in the middle of the category.

Fitch

Short-term debt
Rating: F1+
The F1 category is for obligations of the highest short-term credit quality and indicates the strongest intrinsic capacity for timely payment of financial commitments. The F1 rating is the highest of seven categories used for short-term debt; a “+” may be added to indicate an exceptionally strong credit feature.

 Legacy senior debt(1)
Rating: AA-
Senior debt(2)
Rating: AA-
AA is the second highest of eleven rating categories for long-term obligations and indicates an assessment of very high credit quality and very low default risk. This rating indicates a very strong capacity for payment of financial commitments that is not significantly susceptible to foreseeable events.

Subordinated indebtedness
Rating: A+
Subordinated indebtedness – NVCC
Rating: A+
The A category is the third highest of the rating categories for long-term obligations and indicates an assessment of high credit quality and low default risk. The capacity for payment is considered strong, but may be more susceptible to adverse business or economic conditions than that of higher rating categories.

(The designation “+” or “-” may be used to denote relative position within certain major long-term rating categories, while the absence of such a modifier indicates a rating in the middle of the category.)

(1) Includes senior debt issued prior to September 23, 2018 as well as senior debt issued on or after September 23, 2018 which is not subject to the bail-in regulations.
(2) Comprises liabilities which are subject to conversion under the bail-in regulations.
Moody’s

**Short-term debt**

Short-term debt ratings are assessments of an issuer’s ability to repay obligations with an original maturity of 13 months or less. Moody’s has four categories of short-term ratings with the P-1 category being the highest credit quality. Borrowers rated P-1 have a superior ability to repay short-term debt obligations.

**Legacy senior debt**

Long-term debt ratings assess both the likelihood of default on contractual payments and the expected loss in the event of default on obligations with an original maturity of one year or more. The Aa rating category is the second highest of nine categories and includes obligations judged to be high quality and subject to very low credit risk.

**Senior debt**

The A rating category is the third highest of nine categories and includes obligations judged to be upper medium grade and subject to low credit risk.

**Subordinated indebtedness**

The Baa rating category is the fourth highest of nine categories on the long-term rating scale and includes obligations judged to be medium grade and subject to moderate credit risk and as such may possess certain speculative characteristics.

(The modifiers 1, 2 and 3 are used with certain long-term rating categories to indicate that an obligation ranks in the higher, middle or lower range of the rating category respectively.)

S&P

**Short-term debt**

The A-1 category is the highest of six categories used by S&P for short-term debt. An obligation rated A-1 indicates that the borrower’s capacity to meet its financial commitment with respect to the obligation is strong.

**Legacy senior debt**

The A rating category is the third highest of ten categories used by S&P for long-term debt obligations. Although the obligor’s ability to meet its financial commitment is strong, obligations rated A are somewhat more vulnerable to the negative effects of changes in circumstances and economic conditions when compared to obligations in higher rating categories. A “+” or “-” may be used to denote the relative standing of a rating within the category.

**Senior debt**

The BBB rating category is the fourth highest of ten categories used by S&P for long-term debt obligations. The obligor’s ability to meet its financial commitment is adequate, however, negative economic conditions or changes in circumstances are more likely to lead to a weakening of this capacity. A “+” or “-” may be used to denote the relative standing of a rating within the category.

**Subordinated indebtedness**

The BBB rating category is the fourth highest of ten categories used by S&P for long-term debt obligations. The obligor’s ability to meet its financial commitment is adequate, however, negative economic conditions or changes in circumstances are more likely to lead to a weakening of this capacity. A “+” or “-” may be used to denote the relative standing of a rating within the category.

**Preferred shares – NVCC**

P-3 is the third highest of the eight categories used by S&P in its Canadian Preferred Share Scale, which is used to rate an issuer’s creditworthiness with respect to a specific preferred share obligation issued in Canada. A “High” or “Low” modifier may be used to indicate the relative standing of a credit within a particular rating category, while the absence of such a modifier indicates a rating in the middle of the category.

---

(1) Includes senior debt issued prior to September 23, 2018 as well as senior debt issued on or after September 23, 2018 which is not subject to the bail-in regulations.

(2) Comprises liabilities which are subject to conversion under the bail-in regulations.
