"We are transforming our bank by leveraging our client-focused culture, optimizing our cost base, and strategically reinvesting our capital to deliver value to our shareholders, clients, employees and communities."

# Core business performance<sup>(2)</sup>

Canadian Personal and Small Business Banking reported net income of \$617 million for the first quarter, up \$155 million or 34% from the first quarter a year ago. Excluding items of note, adjusted net income<sup>(1)</sup> was \$619 million, down \$12 million or 2% from the first quarter a year ago, as higher revenue driven by wider margins and volume growth was more than offset by higher spending on strategic initiatives.

Canadian Commercial Banking and Wealth Management reported net income of \$336 million for the first quarter, up \$23 million or 7% from the first quarter a year ago. Higher revenue of \$71 million or 7% was driven by higher assets under management and commission revenue in wealth management, and volume growth and higher fees in commercial banking, partially offset by narrower margins. This was offset by higher performance-based compensation and spending on strategic initiatives.

*U.S. Commercial Banking and Wealth Management* reported net income of \$169 million for the first quarter, up \$1 million or 1% from the first quarter a year ago. Excluding items of note, adjusted net income<sup>(1)</sup> was \$185 million, up \$11 million or 6% from the first quarter a year ago, as higher revenue was partially offset by higher expenses. Revenue was up in commercial banking and wealth management primarily due to volume growth, higher fees and higher assets under management, partially offset by narrower margins. Higher expenses were primarily driven by increased spending on strategic initiatives.

Capital Markets reported net income of \$335 million for the first quarter, up \$129 million or 63% from the first quarter a year ago, primarily due to higher revenue and a lower provision for credit losses, partially offset by higher non-interest expenses driven by performance-based compensation. Revenue growth was broad-based across our trading, financing, underwriting and lending businesses.

### Credit quality

Provision for credit losses was \$261 million, down \$77 million or 23% from the first quarter a year ago, with lower provisions for credit losses on both performing loans and impaired loans.

- (2) Certain prior period information has been revised due to enhancements made to our transfer pricing methodology. See the "External reporting changes" section of our Report to Shareholders for the first quarter of 2020 for additional details.

#### Non-GAAP measures

We use a number of financial measures to assess the performance of our business lines. Some measures are calculated in accordance with GAAP (IFRS), while other measures do not have a standardized meaning under GAAP, and accordingly, these measures may not be comparable to similar measures used by other companies. Investors may find these non-GAAP measures useful in understanding how management views underlying business performance.

Management assesses results on a reported and adjusted basis and considers both as useful measures of performance. Adjusted results remove items of note from reported results and are used to calculate our adjusted measures. Adjusted measures represent non-GAAP measures.

For a more detailed discussion on our non-GAAP measures, see page 13 of the 2019 Annual Report, as updated per the "Non-GAAP measures" section of our Report to Shareholders for the first quarter of 2020 to reflect changes that we made in the first quarter of 2020 (see the "External reporting changes" section of our Report to Shareholders for the first quarter of 2020 for additional details regarding these changes).
