

Meet our Fixed Income Team

Invest with confidence in partnership with one of Canada's longest-standing fixed income teams

CIBC Asset Management's Fixed Income Team has spent over 50 years managing clients' capital through a variety of market cycles. This long-tenured experience, combined with a distinctive approach to adding value, provides investors with access to a powerful fixed income platform.

Investment philosophy

We believe that fixed income markets offer investors an expansive opportunity to add value through active management. Over the past several decades, we have developed a multi-alpha approach underlining all of our fixed income strategies, that we believe can produce consistent risk-adjusted returns.

Investment process

Our unified process combines top-down and bottom-up approaches to help maximize investment opportunities and mitigate risks applied to all our strategies. Our scale and experience has allowed us to build specialist research teams who focus on:

- Identifying top-down drivers of added value such as duration and term-structure positioning
- Allocating dynamically across all fixed income sectors
- Conducting independent and dedicated analysis of credit quality
- Analyzing the macroeconomic backdrop

What sets us apart

Length and breadth of experience

Our long-standing fixed income platform has allowed us to refine our processes through many market cycles, leveraging our collaboration with other CIBC Asset Management teams such as currencies, multi-asset and equities.

Philosophy and process

Our unified philosophy underpins all of our active portfolios and ensures every strategy benefits from the shared knowledge of the entire team.

Scale

We are one of the largest fixed income managers in Canada with a deep talent pool that ensures diversity of thought and specialization. This includes our extensive, dedicated credit analysis team with sector specialization to ensure we assess credit risk independently and find opportunities that others might miss.
