

CIBC EXCHANGE TRADED FUNDS
CIBC INDEX ETFs

Index

Index ETFs are designed to track an entire index such as the S&P/TSX Composite or the S&P 500. They are generally low cost and transparent, as they aspire to simply match the performance of a specific index rather than outperform it.

Index ETFs also provide an additional level of diversification, while complementing traditional equity and fixed income assets.

Designed by experts

Portfolio management:
 CIBC Asset Management Inc.

- Index portfolio management
- Optimized portfolio construction
- Liquidity/cash flow management

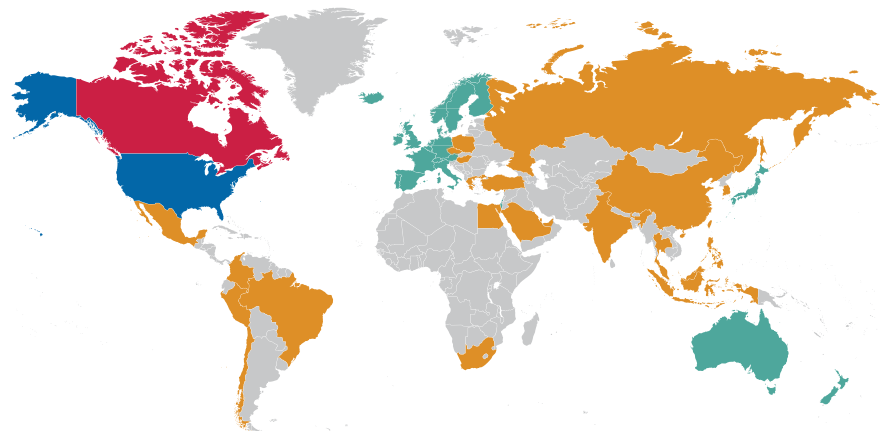

Index provider:
 Morningstar®

- Rules based methodology and index construction
- Publishes index data
- Ongoing index oversight and maintenance

Why invest in these funds?

CIBC's Index ETFs are designed to be a competitive, low-cost core holding within a broadly diversified portfolio. The fixed income and equity options available offer comprehensive exposure to domestic and international markets suitable for many investor profiles. They are ideal for investors who want a simple one-ticket solution that aims to replicate the return of the index it tracks.¹

Gain access to markets all around the world

■ Canada ■ United States ■ International ■ Emerging Markets
