

## Annual Management Report of Fund Performance

for the financial year ended December 31, 2020

All figures are reported in Canadian dollars unless otherwise noted.

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling toll-free at 1-888-357-8777, by writing to us at CIBC, Brookfield Place, 161 Bay Street, 22nd floor, Toronto, Ontario, M5J 2S1, or by visiting our website at [www.cibc.com/mutualfunds](http://www.cibc.com/mutualfunds) or SEDAR at [www.sedar.com](http://www.sedar.com).

Unitholders may also contact us using one of these methods to request a copy of the investment fund's interim financial report, proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

### Management Discussion of Fund Performance

#### Investment Objective and Strategies

**Investment Objective:** Imperial Money Market Pool (referred to as the *Pool*) seeks to maximize interest income, while attempting to preserve capital and maintain liquidity by investing primarily in treasury bills, notes, bonds, debentures, and other debt obligation securities of Canadian issuers.

**Investment Strategies:** The term-to-maturity of the Pool is adjusted to reflect the portfolio advisor's outlook for interest rates and the allocation of assets by credit quality is adjusted to reflect the attractiveness of non-Government of Canada treasury bills versus Government of Canada treasury bills. The maximum overall average term-to-maturity of the Pool will not exceed 90 days.

#### Risk

The Pool is a Canadian money market fund that is suitable for short-term investors who can tolerate low investment risk.

For the period ended December 31, 2020, the Pool's overall level of risk remained as discussed in the simplified prospectus.

#### Results of Operations

The Pool's portfolio advisor is CIBC Asset Management Inc. (referred to as *CAMI* or the *Portfolio Advisor*). The commentary that follows provides a summary of the results of operations for the period ended December 31, 2020. All dollar figures are expressed in thousands, unless otherwise indicated.

The Pool's net asset value decreased by 5% during the period, from \$1,032,894 as at December 31, 2019 to \$984,312 as at December 31, 2020. Net redemptions of \$57,404 in the period, which included redemptions of \$27,061 due to rebalancing of a portfolio product that holds units of the Pool, were partially offset by positive investment performance, resulting in an overall decrease in net asset value.

Canada's economy entered a recession in the second quarter of 2020, as lockdowns in response to the COVID-19 pandemic largely halted economic activity in late March. Canada's gross domestic product (referred to as *GDP*) fell at a record pace in the second quarter. As public health restrictions eased, Canada's economy expanded at its fastest pace ever in the third quarter. Canadian GDP contracted again

in October, however, as COVID-19 infection rates continued to climb and provincial governments imposed new lockdown restrictions.

As a result of widespread business shutdowns, millions of jobs were lost and Canada's unemployment rate rose to its highest level ever. The labour market improved over the second half of the period, however, as public health restrictions eased and business activity rose. That said, the unemployment rate was over 8% in December 2020, compared to 5.5% in January 2020.

Canada's inflation rate fell as a substantial drop in consumer demand weighed on price growth, as well as in response to falling oil prices. During the spring lockdowns, inflation turned negative for the first time since 2009. The inflation rate ended the period well below the Bank of Canada's (referred to as *BoC*) 2% target.

In response to the substantial decline in economic conditions, the BoC reduced its central interest rate three times in March, by 50 basis points (referred to as *bps*) each time. This reduced the BoC's benchmark overnight interest rate to 0.25%. The BoC expects to maintain a low interest rate for at least a few years, until its inflation target is achieved. The BoC also implemented a bond-buying program to help the economy and ensure the proper functioning of financial markets. This program included purchases of bankers' acceptances, which helped stabilize that market.

Similarly, the U.S. Federal Reserve Board (referred to as *Fed*) reduced its central interest rate by 50 bps and 100 bps at two meetings in March, as lockdowns in response to the spread of COVID-19 brought economic activity to a near halt. This lowered the target range of the federal funds rate to 0.00%-0.25%. The Fed noted that it expects to hold this key interest rate steady until inflation moves higher and better economic conditions are achieved, which the Fed expects to be in 2023 or later.

The Pool maintained an overweight allocation to corporate bonds, with exposure to floating-rate notes to maintain a higher running yield (investment income as a percentage of a security's market price). This positioning contributed to performance.

### Recent Developments

The composition of the Independent Review Committee (referred to as *IRC*) changed. Don Hunter and Merle Kriss retired effective April 26, 2020. Effective April 27, 2020, David Forster and Deborah Leckman were appointed as members of the IRC. Marcia Lewis Brown was appointed Chair effective April 1, 2020.

The international spread of COVID-19 caused a significant slowdown in the global economy and volatility in financial markets. The COVID-19 outbreak may adversely affect global markets and the Pool's performance.

### Related Party Transactions

Canadian Imperial Bank of Commerce (referred to as *CIBC*) and its affiliates have the following roles and responsibilities with respect to the Pool, and receive the fees described below in connection with their roles and responsibilities.

#### Manager

CIBC is the Pool's manager (referred to as the *Manager*). CIBC receives management fees with respect to the Pool's day-to-day business and operations, calculated based on the Pool's net asset value as described in the section entitled *Management Fees*.

#### Trustee

CIBC Trust Corporation (*CIBC Trust*), a wholly-owned subsidiary of CIBC, is the Pool's trustee (referred to as the *Trustee*). The Trustee holds title to the Pool's property (cash and securities) on behalf of its unitholders.

#### Portfolio Advisor

The portfolio advisor provides, or arranges to provide, investment advice and portfolio management services to the Pool. CAMI, a wholly-owned subsidiary of CIBC, is the Pool's portfolio advisor.

#### Discretionary Managers

As at the date of this report, units of the Pool are offered through discretionary investment management services provided by certain subsidiaries of CIBC (collectively, referred to as the *Discretionary Managers*). The Discretionary Managers may include CIBC Trust and CAMI. The Discretionary Managers arrange to purchase, convert, switch and redeem units of the Pool on behalf of their clients who have entered into discretionary investment management agreements with one of the Discretionary Managers. The Discretionary Managers are the registered unitholders of the Pools for the purposes of receiving all unitholder materials and having the right to vote all proxies with respect to units of the Pool. Units of the Pool are also offered to investors in connection with certain products offered by affiliated dealers pursuant to the terms of the account agreements governing such products. There are no compensation arrangements with these dealers in respect of the sale of units of the Pool. However, CIBC Trust receives fees from its clients for offering discretionary management services and, from these fees, CIBC Trust may pay affiliated dealers and other CIBC members for services provided in connection with the client's discretionary investment managed account, which may hold units of the Pool.

CIBC receives fees from CIBC Trust for the services of CIBC advisors that assist investors with opening discretionary investment management accounts where CIBC Trust acts as the Discretionary Manager and for acting as the investors' ongoing relationship manager. CIBC is responsible for the remuneration of the CIBC advisors and may pay the CIBC advisors out of such fees. Further details of the arrangement between CIBC and CIBC Trust may be found in the discretionary investment management agreement between CIBC Trust and investors. CAMI receives fees from their clients for offering discretionary investment managed accounts, which may hold units of the Pool, and may pay a portion of such fees to their investment counsellors.

#### Brokerage Arrangements and Soft Dollars

The Portfolio Advisor makes decisions, including the selection of markets and dealers and the negotiation of commissions, with respect to the purchase and sale of portfolio securities, certain derivative products and the execution of portfolio transactions. Brokerage business may be allocated by CAMI to CIBC World Markets Inc. (referred to as *CIBC WM*) and CIBC World Markets Corp., each a subsidiary of CIBC. CIBC WM and CIBC World Markets Corp. may also earn spreads on the sale of fixed income and other securities to the Pool. A spread is the difference between the bid and ask prices for a security in the applicable marketplace, with respect to the execution of portfolio transactions. The spread will differ based upon various factors such as the type and liquidity of the security.

Dealers, including CIBC WM and CIBC World Markets Corp., may furnish goods and services other than order execution to the Portfolio Advisor in partial exchange for processing trades through them (referred to in the industry as "soft dollar" arrangements). These goods and services are paid for with a portion of the brokerage commissions and assist the Portfolio Advisor with investment decision-making services for the Pool or relate directly to the execution of portfolio transactions on behalf of the Pool.

In addition, CIBC may enter into commission recapture arrangements with certain dealers with respect to the Pool. Any commission recaptured will be paid to the Pool.

During the period, the Pool did not pay any brokerage commissions or other fees to CIBC WM or CIBC World Markets Corp. Spreads associated with fixed income and other securities are not ascertainable and, for that reason, cannot be included when determining these amounts.

#### Pool Transactions

The Pool may enter into one or more of the following transactions (referred to as the *Related Party Transactions*) in reliance on the standing instructions issued by the IRC:

- invest in or hold equity securities of CIBC or issuers related to a portfolio sub-advisor;
- invest in or hold non-exchange-traded debt securities of CIBC or an issuer related to CIBC, with terms-to-maturity of 365 days or more, issued in a primary offering and in the secondary market;

- invest in or hold debt securities of CIBC or issuers related to a portfolio sub-advisor purchased in the secondary market;
- make an investment in the securities of an issuer for which CIBC WM, CIBC World Markets Corp., or any affiliate of CIBC (referred to as a *Related Dealer*) acts as an underwriter during the offering of the securities or at any time during the 60-day period following the completion of the offering of such securities (in the case of a “private placement” offering, in accordance with the exemptive relief order granted by the Canadian securities regulatory authorities and in accordance with the policies and procedures relating to such investment);
- purchase equity or debt securities from or sell them to a Related Dealer, where it is acting as principal;
- undertake currency and currency derivative transactions where a Related Dealer is the counterparty;
- purchase securities from or sell securities to another investment fund or a managed account managed by the Manager or an affiliate; and
- engage in in-specie transfers by receiving portfolio securities from, or delivering portfolio securities to, a managed account or another investment fund managed by the Manager or an affiliate, in respect of a purchase or redemption on units in the fund, subject to certain conditions.

At least annually, the IRC reviews the Related Party Transactions for which they have issued standing instructions. The IRC is required to advise the Canadian securities regulatory authorities, after a matter has been referred or reported to the IRC by the Manager, if it determines that an investment decision was not made in accordance with a condition imposed by securities legislation or the IRC in any Related Party Transactions requiring its approval.

#### *Custodian*

CIBC Mellon Trust Company is the Pool's custodian (referred to as the *Custodian*). The Custodian holds all cash and securities for the Pool and ensures that those assets are kept separate from any other cash or securities that the Custodian might be holding. The Custodian also provides other services to the Pool including record-keeping and processing of foreign exchange transactions. The Custodian may hire sub-custodians for the Pool. The fees and spreads for services of the Custodian directly related to the execution of portfolio transactions by the Pool are paid by CAMI and/or dealer(s) directed by CAMI, up to the amount of the credits generated under soft dollar arrangements from trading on behalf of the Pool during that month. All other fees and spreads for the services of the Custodian are paid by the Manager and charged to the Pool on a recoverable basis. CIBC owns a 50% interest in the Custodian.

#### *Service Provider*

CIBC Mellon Global Securities Services Company (referred to as *CIBC GSS*) provides certain services to the Pool, including securities lending, fund accounting and reporting, and portfolio valuation. Such servicing fees are paid by the Manager and charged to the Pool on a recoverable basis. CIBC indirectly owns a 50% interest in CIBC GSS.

### Financial Highlights

The following tables show selected key financial information about the Pool and are intended to help you understand the Pool's financial performance for the period ended December 31.

#### The Pool's Net Assets per Unit<sup>1</sup> - Class A Units

	2020	2019	2018	2017	2016
<b>Net Assets, beginning of period</b>	\$ 10.03	\$ 10.02	\$ 10.02	\$ 10.02	\$ 10.02
<b>Increase (decrease) from operations:</b>					
Total revenue	\$ 0.10	\$ 0.20	\$ 0.18	\$ 0.12	\$ 0.10
Total expenses	(0.01)	(0.01)	(0.01)	(0.01)	(0.01)
Realized gains (losses) for the period	—	—	—	—	—
Unrealized gains (losses) for the period	—	—	—	—	—
<b>Total increase (decrease) from operations<sup>2</sup></b>	\$ 0.09	\$ 0.19	\$ 0.17	\$ 0.11	\$ 0.09
<b>Distributions:</b>					
From income (excluding dividends)	\$ 0.09	\$ 0.19	\$ 0.17	\$ 0.10	\$ 0.09
From dividends	—	—	—	—	—
From capital gains	—	—	—	—	—
Return of capital	—	—	—	—	—
<b>Total Distributions<sup>3</sup></b>	\$ 0.09	\$ 0.19	\$ 0.17	\$ 0.10	\$ 0.09
<b>Net Assets, end of period</b>	\$ 10.03	\$ 10.03	\$ 10.02	\$ 10.02	\$ 10.02

<sup>1</sup> This information is derived from the Pool's audited annual financial statements.

<sup>2</sup> Net assets and distributions are based on the actual number of units outstanding at the relevant time. The total increase (decrease) from operations is based on the weighted average number of units outstanding during the period.

<sup>3</sup> Distributions were paid in cash, reinvested in additional units of the Pool, or both.

#### Ratios and Supplemental Data - Class A Units

	2020	2019	2018	2017	2016
<b>Total Net Asset Value (000s)<sup>4</sup></b>	\$ 984,312	\$ 1,032,894	\$ 941,303	\$ 562,751	\$ 472,995
<b>Number of Units Outstanding<sup>4</sup></b>	98,185,437	103,030,801	93,903,808	56,166,433	47,193,849
<b>Management Expense Ratio<sup>5</sup></b>	0.11%	0.11%	0.11%	0.11%	0.11%
<b>Management Expense Ratio before waivers or absorptions<sup>6</sup></b>	0.38%	0.41%	0.43%	0.53%	0.53%
<b>Trading Expense Ratio<sup>7</sup></b>	0.00%	0.00%	0.00%	0.00%	0.00%
<b>Portfolio Turnover Rate<sup>8</sup></b>	n/a	n/a	n/a	n/a	n/a
<b>Net Asset Value per Unit</b>	\$ 10.03	\$ 10.03	\$ 10.02	\$ 10.02	\$ 10.02

<sup>4</sup> This information is presented as at December 31 of the periods shown.

<sup>5</sup> Management expense ratio is based on the total expenses of the pool (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period.

<sup>6</sup> The decision to waive and/or absorb management fees and operating expenses is at the discretion of the Manager. The practice of waiving and/or absorbing management fees and operating expenses may continue indefinitely or may be terminated at any time without notice to unitholders.

<sup>7</sup> The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation.

<sup>8</sup> The portfolio turnover rate indicates how actively the portfolio advisor and/or portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

## Management Fees

---

The Pool, either directly or indirectly, pays CIBC an annual management fee to cover the costs of managing the Pool. Management fees are based on the Pool's net asset value and are calculated daily and paid monthly. Management fees are paid to CIBC in consideration for providing, or arranging for the provision of, management, distribution, and portfolio advisory services. Advertising and promotional expenses, office overhead expenses and trailing commissions are paid by CIBC out of the management fees received from the Pool. The Pool is required to pay applicable taxes on the management fees paid to CIBC. Refer to the Simplified Prospectus for the annual management fee rate.

For the period ended December 31, 2020, 100% of the management fees collected from the Pool was attributable to general administration, investment advice, and profit.

## Past Performance

---

The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, or other optional charges payable by any unitholder that would have reduced returns. Past performance does not necessarily indicate how a fund will perform in the future.

The Pool's returns are after the deduction of fees and expenses. See *Financial Highlights* section for the management expense ratio.

## Year-by-Year Returns

The bar chart shows the Pool's annual performance for each of the periods shown, and illustrates how the performance has changed from period to period. The bar chart shows, in percentage terms, how an investment made on January 1 would have increased or decreased by December 31, unless otherwise indicated.

		Plaza Trust, Discount Note, 0.30%, 2021/03/03	1.6
		First Bank, Bankers' Acceptance, 0.24%, 2021/02/01	1.5
		Zeus Receivables Trust, Senior Discount Note, 0.44%, 2021/03/09	1.5
		Fusion Trust, Discount Note, 0.29%, 2021/01/07	1.5
		Clarity Trust, Series 'A', Discount Note, 0.28%, 2021/02/10	1.5

**A note on forward-looking statements**

The management report of fund performance may contain forward-looking statements. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates”, or other similar wording. In addition, any statements that may be made concerning future performance, strategies, or prospects and possible future actions taken by the fund, are also forward-looking statements. Forward-looking statements are not guarantees of future performance. These statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results and achievements of the fund to differ materially from those expressed or implied by such statements. Such factors include, but are not limited to: general economic, market, and business conditions; fluctuations in securities prices, interest rates, and foreign currency exchange rates; changes in government regulations; and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. CIBC does not undertake, and specifically disclaims, any obligation to update or revise any forward-looking statements, whether as a result of new information, future developments, or otherwise prior to the release of the next management report of fund performance.
