

Imperial Short-Term Bond Pool

Interim Management Report of Fund Performance

for the period ended June 30, 2017

All figures are reported in Canadian dollars unless otherwise noted.

This interim management report of fund performance contains financial highlights but does not contain either the complete interim or annual financial statements of the investment fund. If you have not received a copy of the interim financial reports with this interim management report of fund performance, you can get a copy of the interim or annual financial statements at your request, and at no cost, by calling us toll-free at 1-888-357-8777, by writing to us at CIBC, 18 York Street, Suite 1300, Toronto, Ontario, M5J 2T8, or by visiting www.cibc.com/mutualfunds or the SEDAR website at www.sedar.com.

Unitholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Management Discussion of Fund Performance

Results of Operations

The portfolio advisor of Imperial Short-Term Bond Pool (the *Pool*) is CIBC Asset Management Inc. (*CAMI* or the *Portfolio Advisor*). The commentary that follows provides a summary of the results of operations for the six-month period ended June 30, 2017. All dollar figures are expressed in thousands, unless otherwise indicated.

The Pool's net asset value decreased by 3% during the period, from \$9,416,903 as at December 31, 2016 to \$9,137,260 as at June 30, 2017. Net redemptions of \$317,208 were partially offset by positive investment performance, resulting in an overall decrease in net asset value.

Class A units of the Pool posted a return of 0.5% for the period. The Pool's benchmark, the FTSE TMX Canada Short Term Bond Index (the *benchmark*), returned 0.2% for the same period. The Pool's return is after the deduction of fees and expenses, unlike the benchmark.

Bond yields declined for most of the period as it appeared that U.S. economic growth would slow and that the U.S. administration would face significant obstacles in its attempts to implement policy changes.

Canada's economy exceeded expectations, with strong growth in jobs, retail sales and both imports and exports.

The period ended with higher yields, however, as the Bank of Canada and other central banks indicated their plans to consider raising interest rates or begin to taper their bond purchase programs in the second half of 2017.

Although bond yields rose over the period, corporate bonds outperformed as investors sought higher-yielding alternatives to federal bonds.

The Pool's significant overweight allocations to corporate and municipal bonds contributed to performance as these sectors outperformed federal bonds. Individual contributors to performance included Bank of Montreal (3.32%, 2026/06/01) and TELUS Corp. (2.35%, 2022/03/28). Bank bonds outperformed, especially new

non-viable contingent capital bonds, as did telecommunication services bonds, as a result of strong results and higher volatility.

The Pool's significant underweight allocation to provincial bonds detracted from performance as provincial bonds outperformed federal bonds. Individual detractors included Canada Housing Trust No. 1 (4.10%, 2018/12/15), as short-term yields rose modestly and short-term federal bonds underperformed.

The Portfolio Advisor added several new holdings to the Pool, all of which increased the yield of the portfolio. EllisDon Infrastructure GMCH Inc. (2.00%, 2020/06/09), a private debt security, also increased diversification. To increase the Pool's duration (sensitivity to changing interest rates), Enbridge Inc. (3.19%, 2022/12/05) replaced Dollarama Inc. (3.10%, 2018/11/05), and Ford Credit Canada Ltd. (2.77%, 2022/06/22) replaced Ford Credit Canada Ltd. (2.94%, 2019/02/19). Canada Housing Trust No. 1 (1.45%, 2020/06/15) replaced Canada Housing Trust No. 1 (3.75%, 2020/03/15). A holding in Canada Housing Trust No. 1 (2.65%, 2022/03/15) was increased to adjust duration.

Greater Toronto Airports Authority (5.26%, 2018/04/17) was eliminated from the Pool as its maturity was getting very short, and the bond spread was narrow and expensive relative to peers. The holding in Rogers Communications Inc. (2.80%, 2019/03/13) was reduced to increase the credit quality of the portfolio.

Recent Developments

Effective April 27, 2017, the composition of the Independent Review Committee (*IRC*) changed. Tim Kennish and William Thornhill resigned as members of the IRC and Susan Silma and Bryan Houston were appointed as members of the IRC.

Related Party Transactions

Canadian Imperial Bank of Commerce (*CIBC*) and its affiliates have the following roles and responsibilities with respect to the Pool, and receive the fees described below in connection with their roles and responsibilities.

Manager

CIBC is the Manager of the Pool. CIBC receives management fees with respect to the day-to-day business and operations of the Pool. The Pool pays the Manager a maximum annual management fee rate of 0.25% of the net asset value of the Pool, as described in the section entitled *Management Fees*.

Trustee

CIBC Trust Corporation (*CIBC Trust*), a wholly-owned subsidiary of CIBC, is the trustee (the *Trustee*) of the Pool. The Trustee holds title to the property (cash and securities) of the Pool on behalf of its unitholders.

Portfolio Advisor

The portfolio advisor provides, or arranges to provide, investment advice and portfolio management services to the Pool. CAMI, a wholly-owned subsidiary of CIBC, is the portfolio advisor of the Pool.

Discretionary Managers

As at the date of this report, units of the Pool are offered through discretionary investment management services provided by certain subsidiaries of CIBC (collectively, the *Discretionary Managers*). The Discretionary Managers may include CIBC Trust and CAMI. The Discretionary Managers arrange to purchase, switch, and redeem units of the Pool on behalf of their clients who have entered into discretionary investment management agreements with one of the Discretionary Managers. The Discretionary Managers are the registered unitholders of the Pools for the purposes of receiving all unitholder materials and having the right to vote all proxies with respect to units of the Pool. Units of the Pool are also offered to investors in connection with certain products offered by affiliated dealers pursuant to the terms of the account agreements governing such products. There are no compensation arrangements with these dealers in respect of the sale of units of the Pool. However, CIBC Trust receives fees from its clients for offering discretionary management services and, from these fees, CIBC Trust may pay affiliated dealers and other CIBC members for services provided in connection with the client's discretionary investment managed account, which may hold units of the Pool.

CIBC receives fees from CIBC Trust for the services of CIBC advisors that assist investors with opening discretionary investment management accounts where CIBC Trust acts as the Discretionary Manager and for acting as the investors' ongoing relationship manager. CIBC is responsible for the remuneration of the CIBC advisors and may pay the CIBC advisors out of such fees. Further details of the arrangement between CIBC and CIBC Trust may be found in the discretionary investment management agreement between CIBC Trust and investors. CAMI receives fees from their clients for offering discretionary investment managed accounts, which may hold units of the Pool, and may pay a portion of such fees to their investment counsellors.

Brokerage Arrangements and Soft Dollars

The Portfolio Advisor makes decisions, including the selection of markets and dealers and the negotiation of commissions, with respect to the purchase and sale of portfolio securities, certain derivative products and the execution of portfolio transactions. Brokerage business may be allocated by the Portfolio Advisor to CIBC World Markets Inc. (CIBC WM) and CIBC World Markets Corp., each a subsidiary of CIBC. CIBC WM and CIBC World Markets Corp. may also earn spreads on the sale of fixed income and other securities and certain derivative products to the Pool. A spread is the difference between the bid and ask prices for a security in the applicable marketplace, with respect to the execution of portfolio transactions. The spread will differ based upon various factors such as the type and liquidity of the security.

Dealers, including CIBC WM and CIBC World Markets Corp., may furnish goods and services other than order execution to the Portfolio Advisor in partial exchange for processing trades through them (referred to in the industry as "soft dollar" arrangements). These goods and services are paid for with a portion of the brokerage commissions and assist the Portfolio Advisor with investment decision-making services for the Pool or relate directly to the execution of portfolio transactions on behalf of the Pool.

In addition, CIBC may enter into commission recapture arrangements with certain dealers with respect to the Pool. Any commission recaptured will be paid to the Pool.

During the period, the Pool did not pay any brokerage commissions or other fees to CIBC WM or CIBC World Markets Corp. Spreads associated with fixed income and other securities are not ascertainable and, for that reason, cannot be included when determining these amounts.

Pool Transactions

The Pool may enter into one or more of the following transactions (the *Related Party Transactions*) in reliance on the standing instructions issued by the IRC:

- invest in or hold equity securities of CIBC or issuers related to a portfolio sub-advisor;
- invest in or hold non-exchange-traded debt securities of CIBC or an issuer related to CIBC in a primary offering and in the secondary market;
- invest in or hold debt securities of CIBC or issuers related to a portfolio sub-advisor purchased in the secondary market;
- make an investment in the securities of an issuer for which CIBC WM, CIBC World Markets Corp., or any affiliate of CIBC (a Related Dealer) acts as an underwriter during the offering of the securities at any time during the 60-day period following the completion of the offering of such securities (in the case of a "private placement" offering, in accordance with the exemptive relief order granted by the Canadian securities regulatory authorities and in accordance with the policies and procedures relating to such investment);

- purchase equity or debt securities from or sell them to a Related Dealer, where it is acting as principal;
- undertake currency and currency derivative transactions where a Related Dealer is the counterparty; and
- purchase securities from or sell securities to another investment fund or a managed account managed by the Manager or an affiliate of the Manager.

At least annually, the IRC reviews the Related Party Transactions for which they have issued standing instructions. The IRC is required to advise the Canadian securities regulatory authorities, after a matter has been referred or reported to the IRC by the Manager, if it determines that an investment decision was not made in accordance with conditions of its approval.

Custodian

CIBC Mellon Trust Company is the custodian of the Pool (the *Custodian*). The Custodian holds all cash and securities for the Pool and ensures that those assets are kept separate from any other cash or securities that the Custodian might be holding. The Custodian also provides other services to the Pool including record-keeping and processing of foreign exchange transactions. The Custodian may hire sub-custodians for the Pool. The fees and spreads for services of the Custodian directly related to the execution of portfolio transactions by the Pool are paid by CAMI and/or dealer(s) directed by CAMI, up to the amount of the credits generated under soft dollar arrangements from trading on behalf of the Pool during that month. All other fees and spreads for the services of the Custodian are paid by the Manager and charged to the Pool on a recoverable basis. CIBC owns a 50% interest in the Custodian.

Service Provider

CIBC Mellon Global Securities Services Company (*CIBC GSS*) provides certain services to the Pool, including securities lending, fund accounting and reporting, and portfolio valuation. Such servicing fees are paid by the Manager and charged to the Pool on a recoverable basis. CIBC indirectly owns a 50% interest in CIBC GSS.

Imperial Short-Term Bond Pool

Financial Highlights

The following tables show selected key financial information about the Pool and are intended to help you understand the Pool's financial performance for the period ended June 30, 2017 and December 31 of any other period(s) shown.

The Pool's Net Assets per Unit¹ - Class A Units

	2017	2016	2015	2014	2013	2012
Net Assets, beginning of period	\$ 10.31	\$ 10.43	\$ 10.46	\$ 10.41	\$ 10.51	\$ 10.56
Increase (decrease) from operations:

Total expenses	(0.01)	(0.01)	(0.01)	(0.01)	(0.01)	(0.01)
Realized gains (losses) for the period	(0.03)	(0.03)	(0.02)	(0.02)	(0.03)	(0.01)
Unrealized gains (losses) for the period	(0.05)	(0.09)	(0.01)	0.07	(0.07)	(0.05)
Total increase (decrease) from operations²	\$ 0.04	\$ 0.14	\$ 0.26	\$ 0.35	\$ 0.20	\$ 0.30
Distributions:						
From income (excluding dividends)	\$ 0.14	\$ 0.26	\$ 0.28	\$ 0.29	\$ 0.30	\$ 0.36
From dividends	—	—	—	—	—	—
From capital gains	—	—	—	—	—	—
Return of capital	—	—	—	—	—	—
Total Distributions³	\$ 0.14	\$ 0.26	\$ 0.28	\$ 0.29	\$ 0.30	\$ 0.36
Net Assets, end of period	\$ 10.23	\$ 10.31	\$ 10.43	\$ 10.46	\$ 10.41	\$ 10.50

¹ This information is derived from the Pool's audited annual and unaudited interim financial statements. The Pool adopted International Financial Reporting Standards (*IFRS*) on January 1, 2014. Previously, the Pool prepared its financial statements in accordance with Canadian Generally Accepted Accounting Principles (*GAAP*) as defined in Part V of the CPA Canada Handbook. Under Canadian GAAP, the Pool measured fair values of its investments in accordance with CICA Handbook Section 3855 which required the use of bid prices for long positions and ask prices for short positions. As such, the net assets per unit figure presented in the financial statements may differ from the net asset value calculated for fund pricing purposes. An explanation of these differences can be found in the notes to the financial statements issued prior to January 1, 2014. Upon adoption of IFRS, the Pool measures the fair value of its investments by using the close market prices, where the close market price falls within the bid-ask spread. As such, the Pool's accounting policies for measuring the fair value of investments in the financial statements are consistent with those used in measuring the net asset value for transactions with unitholders. Accordingly, the opening net asset figure as at January 1, 2013 was restated to reflect accounting policy adjustments made in accordance with IFRS. All figures presented for periods prior to January 1, 2013 were prepared in accordance with Canadian GAAP and subsequent thereto were prepared in accordance with IFRS.

² Net assets and distributions are based on the actual number of units outstanding at the relevant time. The total increase (decrease) from operations is based on the weighted average number of units outstanding during the period.

³ Distributions were paid in cash, reinvested in additional units of the Pool, or both.

Ratios and Supplemental Data - Class A Units

	2017	2016	2015	2014	2013	2012
Total Net Asset Value (000s)⁴	\$ 9,137,260	\$ 9,416,903	\$ 8,756,786	\$ 8,159,872	\$ 6,634,904	\$ 5,486,995
Number of Units Outstanding⁴	893,448,910	912,971,379	839,279,992	780,332,002	637,483,782	522,046,483
Management Expense Ratio⁵	0.11% *	0.11%	0.11%	0.11%	0.09%	0.09%
Management Expense Ratio before waivers or absorptions⁶	0.31% *	0.32%	0.32%	0.32%	0.33%	0.33%
Trading Expense Ratio⁷	0.00% *	0.00%	0.00%	0.00%	0.00%	0.00%
Portfolio Turnover Rate⁸	24.88%	35.72%	54.54%	51.54%	70.60%	32.15%
Net Asset Value per Unit	\$ 10.23	\$ 10.31	\$ 10.43	\$ 10.46	\$ 10.41	\$ 10.51

* Ratio has been annualized.

⁴ This information is presented as at June 30, 2017 and December 31 of the period(s) shown.

⁵ Management expense ratio is based on the total expenses of the pool (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period.

⁶ The decision to waive and/or absorb management fees and operating expenses is at the discretion of the Manager. The practice of waiving and/or absorbing management fees and operating expenses may continue indefinitely or may be terminated at any time without notice to unitholders.

⁷ The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation.

⁸ The portfolio turnover rate indicates how actively the portfolio advisor and/or portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Management Fees

The Pool, either directly or indirectly, pays an annual management fee to CIBC to cover the costs of managing the Pool. Management fees are based on the net asset value of the Pool and are calculated daily and paid monthly. Management fees are paid to CIBC in consideration for providing, or arranging for the provision of, management, distribution, and portfolio advisory services. Advertising and promotional expenses, office overhead expenses, trailing commissions, and the fees of the portfolio sub-advisor(s) are paid by CIBC out of the management fees received from the Pool. The Pool is required to pay applicable taxes on the management fees paid to CIBC. Refer to the Simplified Prospectus for the maximum annual management fee rate.

For the period ended June 30, 2017, 100% of the management fees collected from the Pool was attributable to general administration, investment advice, and profit.

Past Performance

The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, or other optional charges payable by any unitholder that would have reduced returns. Past performance does not necessarily indicate how a fund will perform in the future.

The Pool's returns are after the deduction of fees and expenses. See the section entitled *Financial Highlights* for the management expense ratio.

Year-by-Year Returns

The bar chart shows the annual performance of the Pool for each of the periods shown, and illustrates how the performance has changed from period to period. The bar chart shows, in percentage terms, how an investment made on January 1 would have increased or decreased by December 31, unless otherwise indicated.

Class A Units

^a 2017 return is for the period from January 1, 2017 to June 30, 2017.

Imperial Short-Term Bond Pool

Summary of Investment Portfolio (as at June 30, 2017)

The summary of investment portfolio may change due to ongoing portfolio transactions of the investment fund. A quarterly update is available by visiting www.cibc.com/mutualfunds. The Top Positions table shows a fund's 25 largest positions. For funds with fewer than 25 positions in total, all positions are shown. Cash and cash equivalents are shown in total as one position.

<i>Portfolio Breakdown</i>	<i>% of Net Asset Value</i>

Municipal Finance Authority of British Columbia, 1.65%, 2021/04/19	1.0

The management report of fund performance may contain forward-looking statements. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates”, or other similar wording. In addition, any statements that may be made concerning future performance, strategies, or prospects and possible future actions taken by the fund, are also forward-looking statements. These statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results and achievements of the fund to differ materially from those expressed or implied by such statements. Such factors include, but are not limited to: general economic, market, and business conditions; fluctuations in securities prices, interest rates, and foreign currency exchange rates; changes in government regulations; and catastrophic events. We do not undertake, and specifically disclaim, any obligation to update or revise any forward-looking statements, whether as a result of new information, future developments, or otherwise prior to the release of the next management report of fund performance.
