

Annual Management Report of Fund Performance

for the financial year ended December 31, 2024

All figures are reported in Canadian dollars unless otherwise noted.

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling toll-free at 1-888-888-3863, by emailing us at info@cibcassetmanagement.com, by writing to us at CIBC Square, 81 Bay Street, 20th floor, Toronto, Ontario, M5J 0E7, or by visiting our website at www.cibc.com/etfs or SEDAR+ at www.sedarplus.ca.

Unitholders may also contact us using one of these methods to request a copy of the investment fund's interim financial report, proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Management Discussion of Fund Performance

Investment Objective and Strategies

Investment Objective: CIBC Active Investment Grade Floating Rate Bond ETF (the *CIBC ETF*) seeks to generate current income while preserving capital by investing primarily in a portfolio of Canadian debt securities and by using interest rate derivatives that seek to mitigate the effect of interest rate fluctuations.

Investment Strategies: The CIBC ETF invests primarily in a portfolio of (i) Canadian investment-grade floating rate debt obligations and other floating rate debt instruments and/or (ii) Canadian investment-grade debt obligations and other debt instruments that deliver a fixed rate of income while using interest rate derivatives to mitigate the effect of interest rate fluctuations. The CIBC ETF undertakes a bottom-up analysis of bond issuers combined with a top-down analysis of an industry's potential in a given economic environment.

Risk

The CIBC ETF is a Canadian short term fixed income ETF that is suitable for short to medium term investors who can tolerate low investment risk.

For the period ended December 31, 2024, the CIBC ETF's overall level of risk remained as discussed in the prospectus.

Results of Operations

The CIBC ETF's portfolio advisor is CIBC Asset Management Inc. (CAMI or the *Portfolio Advisor*). The commentary that follows provides a summary of the results of operations for the period ended December 31, 2024. All dollar figures are expressed in thousands, unless otherwise indicated.

The CIBC ETF's net asset value increased by 28% during the period, from \$357,512 as at December 31, 2023 to \$458,774 as at December 31, 2024. Net sales of \$99,263 and positive investment performance resulted in an overall increase in net asset value.

The CIBC ETF posted a return of 5.2% for the period. The CIBC ETF's benchmark, the FTSE Canada Floating Rate Note Index (the *benchmark*), returned 4.8% for the same period. The CIBC ETF's return is after the deduction of fees and expenses, unlike the benchmark's return.

The Bank of Canada (the *BoC*) undertook an aggressive path to lowering interest rates amid slowing inflationary pressures, tepid economic growth and a weakening labour market. The BoC lowered its benchmark overnight interest rate to 3.25% over the year. Canada's gross domestic product growth slowed as challenging financial conditions weighed on consumer and business activity. Real estate market activity was relatively muted but did begin to pick up as mortgage rates came down.

Canada's inflation rate moderated, hovering close to the BoC's 2% target over the second half of the year. Falling energy prices were the main driver of Canada's slowing inflation rate. The growth in shelter and food prices also slowed. Canada's unemployment rate rose, reaching its highest level since late 2021. Job growth did not keep pace with population growth, which put upward pressure on Canada's jobless rate.

In the U.S., the U.S. Federal Reserve Board (the *Fed*) reduced its federal funds rate by 1.00% to a target range of 4.25%–4.50%. Economic conditions showed small signs of weakening, while the Fed was gaining confidence that inflation would return to its 2% target. Near the end of the year, however, Fed officials revised their expectations for rate cuts in 2025 down to two with the U.S. economy remaining relatively solid and inflation persisting at elevated levels.

The CIBC ETF's duration (sensitivity to interest rates) was longer than its benchmark, which contributed to its performance. Exposures to short-term corporate bonds also contributed to performance.

Individual contributors to performance included newly added holdings in VW Credit Canada Inc. (4.56%, 2027/02/19), Canadian Imperial Bank of Commerce (4.30%, 2026/07/15), The Toronto Dominion Bank (3.73%, 2025/09/23), Suncor Energy Inc. (5.60%, 2025/11/17) and Hydro One Inc. (4.47%, 2026/09/21).

An existing holding in Province of Ontario (3.77%, 2028/11/27) was increased, and a holding in Canada Housing Trust No. 1 (5.06%, 2028/09/15) was eliminated.

Recent Developments

The level of geopolitical risk disrupted the global economy and financial markets in unprecedented and unpredictable ways. This has resulted in significant volatility and uncertainty in financial markets. It is unclear what further actions may be taken by governments and the resulting impact on global economies, businesses and financial markets. Inflation has increased in many markets across the globe, leading central banks to raise interest rates in order to counter rapidly rising prices. These factors may adversely affect the CIBC ETF's performance. The Manager continues to monitor ongoing developments and the impact to investment strategies.

Related Party Transactions

Canadian Imperial Bank of Commerce (*CIBC*) and its affiliates have the following roles and responsibilities with respect to the CIBC ETF, and receive the fees described below in connection with their roles and responsibilities.

Manager, Trustee, and Portfolio Advisor of the CIBC ETF

CAMI, a wholly-owned subsidiary of CIBC, is the CIBC ETF's Manager, Trustee, and Portfolio Advisor. CAMI receives management fees with respect to the CIBC ETF's day-to-day business and operations, calculated based on the net asset value of units of the CIBC ETF as described in *Management Fees* section. As Trustee, CAMI holds title to the CIBC ETF's property (cash and securities) on behalf of its unitholders. As Portfolio Advisor, CAMI provides, or arranges to provide for, investment advice and portfolio management services to the CIBC ETF. CAMI also compensates dealers in connection with their marketing activities regarding the CIBC ETF. From time to time, CAMI may invest in units of the CIBC ETF.

Designated Broker and Dealer

CAMI has entered into an agreement with CIBC World Markets Inc. (*CIBC WM*), an affiliate of CAMI, to act as designated broker and dealer for distribution of the CIBC ETF, on terms and conditions that are comparable to arm's length agreements in the exchange traded funds industry.

Brokerage Arrangements and Soft Dollars

The Portfolio Advisor makes decisions, including the selection of markets and dealers and the negotiation of commissions, with respect to the purchase and sale of portfolio securities, certain derivative products and the execution of portfolio transactions. Brokerage business may be allocated by the Portfolio Advisor to CIBC WM and CIBC World Markets Corp., each a subsidiary of CIBC. CIBC WM and CIBC World Markets Corp. may also earn spreads on the sale of fixed income and other securities, and certain derivative products to the CIBC ETF. A spread is the difference between the bid and ask prices for a security in the applicable marketplace, with respect to the execution of portfolio transactions. The spread will differ based upon various factors such as the nature and liquidity of the security.

Dealers, including CIBC WM and CIBC World Markets Corp., may furnish goods and services, other than order execution, to the Portfolio Advisor when they process trades through them (referred to in the industry as "soft-dollar" arrangements). These goods and services are paid for with a portion of the brokerage commissions and assist the Portfolio Advisor with investment decision-making services for the CIBC

ETF or relate directly to the execution of portfolio transactions on behalf of the CIBC ETF. Any soft dollar arrangements shall be in compliance with applicable laws.

During the period, the CIBC ETF did not pay any brokerage commissions or other fees to CIBC WM or CIBC World Markets Corp. Spreads associated with fixed income and other securities are not ascertainable and, for that reason, cannot be included when determining these amounts.

CIBC ETF Transactions

The CIBC ETF may enter into one or more of the following transactions (the *Related Party Transactions*) in reliance on the standing instructions issued by the Independent Review Committee (the *IRC*):

- to invest in or hold equity securities of CIBC or issuers related to the Portfolio Advisor;
- to invest in or hold non-exchange-traded debt securities of CIBC or an issuer related to CIBC in a primary offering and in the secondary market;
- to make an investment in the securities of an issuer for which CIBC WM, CIBC World Markets Corp., or any affiliate of CIBC (a "Related Dealer" or the "Related Dealers") acts as an underwriter during the offering of the securities or at any time during the 60-day period following the completion of the offering of such securities, including in respect of equity securities of a reporting issuer pursuant to a "private placement" offering (an offering under exemptions from the prospectus requirements) and for the 60-day period following the completion of the offering, in each case in accordance with certain conditions;
- to purchase equity and debt securities from, or sell them to, a Related Dealer, where it is acting as principal;
- undertake currency and currency derivative transactions where a Related Dealer is the counterparty;
- to purchase securities from, or sell securities to, another investment fund or a managed account managed by the Manager or an affiliate (the *inter-fund trades* or *cross-trades*), subject to certain conditions; and
- to engage in in-specie transfers by receiving portfolio securities from, or delivering portfolio securities to, a managed account or another investment fund managed by the Manager or an affiliate in respect of a purchase or redemption of Units of the CIBC ETF, subject to certain conditions.

At least annually, the IRC reviews the Related Party Transactions for which they have issued standing instructions. The IRC is required to advise the Canadian securities regulatory authorities, after a matter has been referred or reported to the IRC by the Manager, if it determines that an investment decision was not made in accordance with a condition imposed by securities legislation or the IRC in any Related Party Transactions requiring its approval.

Custodian

CIBC Mellon Trust Company is the custodian of the CIBC ETF (the *Custodian*). The Custodian holds cash, securities, and other assets of the CIBC ETF and ensures that those assets are kept separate from any other cash, securities, or other assets that the custodian might be holding. The Custodian also provides other services to the CIBC ETF

including record-keeping and processing of foreign exchange transactions. The fees and spreads for the services of the Custodian are paid by the Manager. CIBC owns a 50% interest in the Custodian.

Service Provider

The Custodian also provides certain services to the CIBC ETF, including securities lending, fund accounting and reporting, and portfolio valuation. The Manager receives a fixed administration fee from the Fund, in return, the Manager pays certain operating expenses which includes custodial fees (including all applicable taxes) and the fees for fund accounting, reporting, and fund valuation (including all applicable taxes) to CIBC Mellon Trust Company. Where applicable, securities lending fees are applied against the revenue received by the Fund.

Financial Highlights

The following tables show selected key financial information about the CIBC ETF and are intended to help you understand the CIBC ETF's financial performance for the period ended December 31.

The CIBC ETF's Net Assets per Unit¹ - Common Units Inception date: January 22, 2019

	2024	2023	2022	2021	2020
Net Assets, beginning of period	\$ 19.75	\$ 19.55	\$ 19.72	\$ 19.90	\$ 20.01
Increase (decrease) from operations:					
Total revenue	\$ 0.89	\$ 0.93	\$ 0.50	\$ 0.32	\$ 0.39
Total expenses	(0.07)	(0.07)	(0.07)	(0.07)	(0.07)
Realized gains (losses) for the period	0.05	0.06	(0.15)	(0.09)	(0.08)
Unrealized gains (losses) for the period	0.12	0.15	(0.02)	(0.09)	(0.01)
Total increase (decrease) from operations²	\$ 0.99	\$ 1.07	\$ 0.26	\$ 0.07	\$ 0.23
Distributions:					
From income (excluding dividends)	\$ 0.83	\$ 0.85	\$ 0.44	\$ 0.24	\$ 0.32
From dividends	—	—	—	—	—
From capital gains	—	—	—	—	—
Return of capital	0.06	0.03	—	0.01	0.03
Total Distributions³	\$ 0.89	\$ 0.88	\$ 0.44	\$ 0.25	\$ 0.35
Net Assets, end of period	\$ 19.86	\$ 19.75	\$ 19.55	\$ 19.72	\$ 19.90

Ratios and Supplemental Data - Common Units

	2024	2023	2022	2021	2020

Net Asset Value per Unit	\$ 19.86	\$ 19.75	\$ 19.55	\$ 19.72	\$ 19.90
Closing Market Price	\$ 19.89	\$ 19.77	\$ 19.52	\$ 19.72	\$ 19.92

^a Information presented is for the period from the inception date to December 31.

^b Initial offering price.

¹ This information is derived from the CIBC ETF's audited annual financial statements.

² Net assets and distributions are based on the actual number of units outstanding at the relevant time. The total increase (decrease) from operations is based on the weighted average number of units outstanding during the period.

³ Distributions were paid in cash, reinvested in additional units of the CIBC ETF, or both.

⁴ This information is presented as at December 31 of the period(s) shown.

⁵ Management expense ratio is based on the total expenses of the CIBC ETF (excluding commissions and other portfolio transaction costs), incurred by or allocated to a series of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that series during the period. The management expense ratio includes the fees attributable to exchange traded funds, where applicable.

⁶ The decision to waive management fees is at the discretion of the Manager. The practice of waiving management fees may continue indefinitely or may be terminated at any time without notice to unitholders. The management expense ratio before waivers or absorptions includes the fees attributable to exchange traded funds, where applicable.

⁷ The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation.

⁸ The portfolio turnover rate indicates how actively the portfolio advisor and/or portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to the CIBC ETF buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by the CIBC ETF in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the CIBC ETF.

Management Fees

The CIBC ETF pays CAMI an annual management fee to cover the costs of managing the CIBC ETF. Management fees are based on the CIBC ETF's net asset value and are calculated daily and paid monthly. Management fees are paid to CAMI in consideration for providing, or arranging for the provision of, management, distribution, and portfolio advisory services. Advertising and promotional expenses, and office overhead expenses related to the Manager's activities and the fees of the Portfolio Advisor are paid by CAMI out of the management fees received from the CIBC ETFs. The CIBC ETF is required to pay applicable taxes on the management fees paid to CAMI. Refer to the CIBC ETF's prospectus for the annual management fee rate.

For the period ended December 31, 2024, 100% of the management fees collected from the CIBC ETF was attributable to general administration and investment advice.

Past Performance

The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, or other optional charges payable by any unitholder that would have reduced returns. Past performance does not necessarily indicate how a fund will perform in the future.

The CIBC ETF's returns are after the deduction of fees and expenses. See the *Financial Highlights* section for the management expense ratio.

Year-by-Year Returns

These bar charts show the annual performance of each series of units of the CIBC ETF for each of the periods shown, and illustrate how the performance has changed from period to period. These bar charts show, in percentage terms, how an investment made on January 1 would have increased or decreased by December 31, unless otherwise indicated.

Common Units

[†] 2019 return is for the period from January 22, 2019 to December 31, 2019.

Annual Compound Returns

This table shows the annual compound return of the CIBC ETF for each indicated period ended on December 31, 2024. The annual compound total return is also compared to the CIBC ETF's benchmark(s).

The CIBC ETF's benchmark is the FTSE Canada Floating Rate Note Index.

Class and Benchmark(s)	1 Year (%)	3 Years (%)	5 Years (%)	10 Years* (%)	or Since Inception* (%)	Inception Date
Common Units	5.2	4.0	2.7		2.6	January 22, 2019
FTSE Canada Floating Rate Note Index	4.8	4.0	2.7		2.6	

* If a class of units has been outstanding for less than 10 years, the annual compound return since inception is shown.

FTSE Canada Floating Rate Note Index is designed to reflect the performance of domestic Canadian Government and Corporate Floating Rate Note securities denominated in CAD. FTSE Canada 91 Day T-Bill Index measures the returns attributable to 91-day Treasury Bills.

A discussion of the CIBC ETF's relative performance compared to its benchmark(s) can be found in *Results of Operations*.

Summary of Investment Portfolio (as at December 31, 2024)

The summary of investment portfolio may change due to ongoing portfolio transactions of the CIBC ETF. A quarterly update is available by visiting www.cibc.com/etfs. The Top Positions table shows the CIBC ETF's 25 largest positions. If the CIBC ETF holds fewer than 25 positions in total, all positions are shown. Cash and cash equivalents are shown in total as one position.

<i>Portfolio Breakdown</i>	<i>% of Net Asset Value</i>	<i>Top Positions</i>	<i>% of Net Asset Value</i>

		Bank of America Corp., Floating Rate, Callable, 5.57%, 2027/09/15	1.8

A note on forward-looking statements

The management report of fund performance may contain forward-looking statements. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", or other similar wording. In addition, any statements that may be made concerning future performance, strategies, or prospects and possible future actions taken by the CIBC ETF, are also forward-looking statements. Forward-looking statements are not guarantees of future performance. These statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results and achievements of the CIBC ETF to differ materially from those expressed or implied by such statements. Such factors include, but are not limited to: general economic, market, and business conditions; fluctuations in securities prices, interest rates, and foreign currency exchange rates; changes in government regulations; and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. CIBC Asset Management Inc. does not undertake, and specifically disclaims, any obligation to update or revise any forward-looking statements, whether as a result of new information, future developments, or otherwise prior to the release of the next management report of fund performance.
