### Management Discussion of Fund Performance

#### Investment Objective and Strategies

Investment Objective: CIBC Asia Pacific Fund (referred to as the *Fund*) seeks to provide long-term growth through capital appreciation by investing primarily in equity securities or securities convertible to equity securities of companies in Asia, the Pacific Rim, Australasia, and the Indian subcontinent.

Investment Strategies: The Fund employs security selection using a bottom-up approach and tactical currency management using a top down approach.

#### Risk

The Fund is an Asia Pacific equity fund that is suitable for long-term investors who can tolerate medium investment risk.

For the period ended December 31, 2020, the Fund's overall level of risk remained as discussed in the simplified prospectus.

#### Results of Operations

The Fund's portfolio advisor is CIBC Asset Management Inc. (referred to as *CAMI* or the *Portfolio Advisor*). The commentary that follows provides a summary of the results of operations for the period ended December 31, 2020. All dollar figures are expressed in thousands, unless otherwise indicated.

The Fund's net asset value increased by 9% during the period, from \$142,921 as at December 31, 2019 to \$156,208 as at December 31, 2020. Positive investment performance was partially offset by net redemptions of \$22,341, resulting in an overall increase in net asset value.

Class A units of the Fund posted a return of 24.9% for the period. The Fund's benchmark, the MSCI All Country Asia Pacific Index (referred to as the *benchmark*), returned 18.0% for the same period. The Fund's return is after the deduction of fees and expenses, unlike the benchmark's return. See the section *Past Performance* for the returns of other classes of units offered by the Fund.

Although the global economy and financial markets began 2020 relatively strong, measures to contain the spread of COVID-19 hindered economies around the world. In response, central banks and

governments implemented massive monetary and fiscal stimulus programs, including substantial asset purchases, to support their respective economies and financial markets. Equity prices fell sharply in March before rallying in response to these unprecedented stimulus programs, which kept global yields at historically low levels.

Investor optimism in the second half of 2020 bolstered equity prices, as well as a recovery in commodity prices. Despite continued high COVID-19 infection rates, this optimism was fuelled by hopes of economic re-openings and progress toward the widespread distribution of effective COVID-19 vaccines. Other forces driving stronger equity prices included the resolution of the U.S. election, expectations of a deal between the United Kingdom and European Union, and a limit on oil output by the Organization of the Petroleum Exporting Countries (referred to as *OPEC*).

Economic activity had almost returned to normal by the second half of the period in places like Australia, New Zealand, Singapore, Japan, South Korea and China, after these regions took effective steps to curb the spread of COVID-19.

The Fund's holdings in defensive, high-quality companies contributed to performance earlier in the period, when there was significant financial market volatility in response to the pandemic. The Fund's stock selection in the industrials and financials sectors contributed to performance. A moderate underweight exposure to the financials sector contributed to performance.

Individual contributors to performance included WuXi Biologics Cayman Inc. and Hong Kong Exchanges & Clearing Ltd. WuXi Biologics benefited from increased spending on COVID-19 vaccine research. Hong Kong Exchanges & Clearing experienced record listings (in both number and size), as many large Chinese companies listed their stocks in Hong Kong during the period. Samsung SDI Co. Ltd., a leading maker of batteries for electric vehicles, benefited from positive developments in the industry and was a strong contributor to the Fund's performance.

Stock selection in the communication services sector detracted from the Fund's performance, as did a significant underweight position in the

communication services sector. Individual detractors from performance included Largan Precision Co. Ltd., China Petroleum and Chemical Corp. and Meituan Dianping. Largan Precision weakened after Huawei Technologies Co., Ltd. abruptly cancelled its orders. China Petroleum lagged as global oil prices were weak through 2020. Although Meituan Dianping benefited from growth in food delivery, the holding detracted from relative performance because the stock was purchased after a period of strong appreciation.

The Portfolio Advisor added several new holdings to the Fund during the period. The Portfolio Advisor added American Tower Corp. in response to the Portfolio Advisor's positive outlook for the company over the next few years. The Portfolio Advisor believes China Lesso Group Holdings Ltd. is positioned to benefit from increased infrastructure spending. The Portfolio Advisor also believes Douzone Bizon Co., Ltd. should benefit from the shift to digital. Flight Centre Travel Group Ltd. was added on the belief that the company is poised to benefit when business travel resumes, which the Portfolio Advisor expects to occur in late 2021. Hamamatsu Photonics K.K. is a high-quality industrial franchise that the Portfolio Advisor believes will experience predictable, moderate growth.

The Fund's existing holding in Suzuki Motor Corp. was increased based on valuation early in the period.

The Portfolio Advisor eliminated several of the Fund's holdings during the period. The Portfolio Advisor believed that valuations of Fast Retailing Co. Ltd. and Recruit Holdings Co. Ltd. were somewhat elevated given their growth profiles. Haier Electronics Group Co. Ltd., Kurita Water Industries Ltd. and Kerry Group PLC were sold to fund the purchases of what the Portfolio Advisor believes to be relatively attractive opportunities. KT&G Corp. was eliminated to reduce the Fund's tobacco exposure. Misumi Group Inc. was eliminated in favour of a new holding in Nidec Corp.

The Fund's position in Hong Kong Exchanges was reduced after a period of strong performance.

### Recent Developments

On July 6, 2020, Class F units of the Fund were made available for purchase.

The composition of the Independent Review Committee (referred to as *IRC*) changed. Don Hunter and Merle Kriss retired effective April 26, 2020. Effective April 27, 2020, David Forster and Deborah Leckman were appointed as members of the IRC. Marcia Lewis Brown was appointed Chair effective April 1, 2020.

The international spread of COVID-19 caused a significant slowdown in the global economy and volatility in financial markets. The COVID-19 outbreak may adversely affect global markets and the Fund's performance.

### Related Party Transactions

Canadian Imperial Bank of Commerce (referred to as *CIBC*) and its affiliates have the following roles and responsibilities with respect to the Fund, and receive the fees described below in connection with their roles and responsibilities.

### Manager

CIBC is the Fund's manager (referred to as the *Manager*). CIBC receives management fees with respect to the Fund's day-to-day business and operations, calculated based on the net asset value of each respective class of units of the Fund as described in the section entitled *Management Fees*. The Manager compensates its wholesalers in connection with their marketing activities regarding the Fund. From time to time, CIBC may invest in units of the Fund.

### Trustee

CIBC Trust Corporation, a wholly-owned subsidiary of CIBC, is the Fund's trustee (referred to as the *Trustee*). The Trustee holds title to the Fund's property (cash and securities) on behalf of its unitholders.

### Portfolio Advisor

The portfolio advisor provides, or arranges to provide, investment advice and portfolio management services to the Fund. CAMI, a wholly-owned subsidiary of CIBC, is the Fund's portfolio advisor.

### Distributor

Dealers and other firms sell the units of the Fund to investors. These dealers and other firms include CIBC's related dealers such as the principal distributor, CIBC Securities Inc. (referred to as *CIBC SI*), the CIBC Investor's Edge discount brokerage division of CIBC Investor Services Inc. (referred to as *CIBC ISI*), the CIBC Imperial Investor Service division of CIBC ISI, and the CIBC Wood Gundy division of CIBC World Markets Inc. (referred to as *CIBC WM*). CIBC SI, CIBC ISI, and CIBC WM are wholly-owned subsidiaries of CIBC.

CIBC may pay trailing commissions to these dealers and firms, except for CIBC SI, in connection with the sale of units of the Fund. These dealers and other firms may pay a portion of these trailing commissions to their advisors who sell units of the Fund to investors. CIBC does not pay trailing commissions to CIBC SI for selling units of the Fund, although overall sales of CIBC funds may be considered in assessing the performance of their advisors and may therefore contribute to their annual compensation.

### Brokerage Arrangements and Soft Dollars

The Portfolio Advisor makes decisions, including the selection of markets and dealers and the negotiation of commissions, with respect to the purchase and sale of portfolio securities, certain derivative products and the execution of portfolio transactions. Brokerage business may be allocated by the Portfolio Advisor to CIBC WM and CIBC World Markets Corp., each a subsidiary of CIBC. CIBC WM and CIBC World Markets Corp. may also earn spreads on the sale of fixed income securities and other securities and certain derivative products to the Fund. A spread is the difference between the bid and ask prices for a security in the applicable marketplace, with respect to the execution of portfolio transactions. The spread will differ based upon various factors such as the type and liquidity of the security.

Dealers, including CIBC WM and CIBC World Markets Corp., may furnish goods and services, other than order execution, to the Portfolio Advisor in partial exchange for processing trades through them (referred to in the industry as "soft dollar" arrangements). These goods and services are paid for with a portion of the brokerage commissions

and assist the Portfolio Advisor with investment decision-making services for the Fund or relate directly to the execution of portfolio transactions on behalf of the Fund.

In addition, CIBC may enter into commission recapture arrangements with certain dealers with respect to the Fund. Any commission recaptured will be paid to the Fund.

During the period, the Fund paid brokerage commissions and other fees of \$6,625 to CIBC WM; the Fund did not pay any brokerage commissions or other fees to CIBC World Markets Corp. Spreads associated with fixed income and other securities are not ascertainable and, for that reason, cannot be included when determining these amounts.

#### *Fund Transactions*

The Fund may enter into one or more of the following transactions (referred to as the *Related Party Transactions*) in reliance on the standing instructions issued by the IRC:

- invest in or hold equity securities of CIBC or issuers related to a portfolio sub-advisor;
- invest in or hold non-exchange-traded debt securities of CIBC or an issuer related to CIBC, with terms-to-maturity of 365 days or more, issued in a primary offering and in the secondary market;
- make an investment in the securities of an issuer for which CIBC WM, CIBC World Markets Corp., or any affiliate of CIBC (referred to as a *Related Dealer*) acts as an underwriter during the offering of the securities or at any time during the 60-day period following the completion of the offering of such securities (in the case of a "private placement" offering, in accordance with the exemptive relief order granted by the Canadian securities regulatory authorities and in accordance with the policies and procedures relating to such investment);
- purchase equity or debt securities from or sell them to a Related Dealer, where it is acting as principal;
- undertake currency and currency derivative transactions where a Related Dealer is the counterparty;
- purchase securities from or sell securities to another investment fund or a managed account managed by the Manager or an affiliate; and
- engage in in-specie transfers by receiving portfolio securities from, or delivering portfolio securities to, a managed account or another investment fund managed by the Manager or an affiliate, in respect of a purchase or redemption on units in the fund, subject to certain conditions.

At least annually, the IRC reviews the Related Party Transactions for which they have issued standing instructions. The IRC is required to advise the Canadian securities regulatory authorities, after a matter has been referred or reported to the IRC by the Manager, if it determines that an investment decision was not made in accordance with a condition imposed by securities legislation or the IRC in any Related Party Transactions requiring its approval.

#### *Custodian*

CIBC Mellon Trust Company is the Fund's custodian (referred to as the *Custodian*). The Custodian holds all cash and securities for the Fund and ensures that those assets are kept separate from any other cash or securities that the Custodian might be holding. The Custodian also provides other services to the Fund including record-keeping and processing of foreign exchange transactions. The Custodian may hire sub-custodians for the Fund. The fees and spreads for services of the Custodian directly related to the execution of portfolio transactions by the Fund are paid by CAMI and/or dealer(s) directed by CAMI, up to the amount of the credits generated under soft dollar arrangements from trading on behalf of the Fund during that month. All other fees and spreads for the services of the Custodian are paid by the Manager and charged to the Fund on a recoverable basis. CIBC owns a 50% interest in the Custodian.

#### *Service Provider*

CIBC Mellon Global Securities Services Company (referred to as *CIBC GSS*) provides certain services to the Fund, including securities lending, fund accounting and reporting, and portfolio valuation. Such servicing fees are paid by the Manager and charged to the Fund on a recoverable basis. CIBC indirectly owns a 50% interest in CIBC GSS.

<sup>4</sup> This information is presented as at December 31 of the periods shown.

<sup>5</sup> Management expense ratio is based on the total expenses of the fund (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period.

<sup>6</sup> The decision to waive and/or absorb management fees and operating expenses is at the discretion of the Manager. The practice of waiving and/or absorbing management fees and operating expenses may continue indefinitely or may be terminated at any time without notice to unitholders.

<sup>7</sup> The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation.

<sup>8</sup> The portfolio turnover rate indicates how actively the portfolio advisor and/or portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

## Management Fees

The Fund, either directly or indirectly, pays CIBC an annual management fee to cover the costs of managing the Fund. Management fees are based on the Fund's net asset value and are calculated daily and paid monthly. Management fees are paid to CIBC in consideration for providing, or arranging for the provision of, management, distribution, and portfolio advisory services. Advertising and promotional expenses, office overhead expenses and trailing commissions are paid by CIBC out of the management fees received from the Fund. The Fund is required to pay applicable taxes on the management fees paid to CIBC. Refer to the Simplified Prospectus for the annual management fee rate for each class of units. For Class O units, the management fee is negotiated with and paid by, or as directed by, unitholders or dealers and discretionary managers on behalf of unitholders. Such Class O management fee will not exceed the Class F unit management fee rate.

The following table shows a breakdown of the services received in consideration of the management fees, as a percentage of the management fees collected from the Fund for the period ended December 31, 2020. These amounts do not include waived fees or absorbed expenses.

	Class A Units	Class F Units
Sales and trailing commissions paid to dealers	39.10%	0.00%
General administration, investment advice, and profit	60.90%	100.00%

## Past Performance

The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, or other optional charges payable by any unitholder that would have reduced returns. Past performance does not necessarily indicate how a fund will perform in the future.

The Fund's returns are after the deduction of fees and expenses, and the difference in returns between classes of units is primarily due to differences in the management expense ratio. See *Financial Highlights* section for the management expense ratio.

## Year-by-Year Returns

These bar charts show the annual performance of each class of units of the Fund for each of the periods shown, and illustrate how the performance has changed from period to period. These bar charts show, in percentage terms, how an investment made on January 1 would have increased or decreased by December 31, unless otherwise indicated.

Class A Units

Class F Units

<sup>a</sup> 2020 return is for the period from July 6, 2020 to December 31, 2020.

Class O Units

**Annual Compound Returns**

This table shows the annual compound return of each class of units of the Fund for each indicated period ended on December 31, 2020. The annual compound total return is also compared to the Fund's benchmark.

The Fund's benchmark is the MSCI All Country Asia Pacific Index.

	1 Year	3 Years	5 Years	10 Years*	or	Since Inception*	Inception Date
Class A units	24.9%	7.7%	8.7%	8.8%			September 28, 1993

\* If a class of units has been outstanding for less than 10 years, the annual compound return since inception is shown.

**MSCI All Country Asia Pacific Index** is a free float-adjusted market capitalization index comprised of stocks of companies from developed and emerging Asian countries, including Australia and Japan.

A discussion of the Fund's relative performance compared to its benchmark can be found in *Results of Operations*.

**Summary of Investment Portfolio** (as at December 31, 2020)

The summary of investment portfolio may change due to ongoing portfolio transactions of the investment fund. A quarterly update is available by visiting [www.cibc.com/mutualfunds](http://www.cibc.com/mutualfunds). The Top Positions table shows a fund's 25 largest positions. If the fund holds fewer than 25 positions in total, all positions are shown. Cash and cash equivalents are shown in total as one position.

**A note on forward-looking statements**

The management report of fund performance may contain forward-looking statements. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates”, or other similar wording. In addition, any statements that may be made concerning future performance, strategies, or prospects and possible future actions taken by the fund, are also forward-looking statements. Forward-looking statements are not guarantees of future performance. These statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results and achievements of the fund to differ materially from those expressed or implied by such statements. Such factors include, but are not limited to: general economic, market, and business conditions; fluctuations in securities prices, interest rates, and foreign currency exchange rates; changes in government regulations; and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. CIBC does not undertake, and specifically disclaims, any obligation to update or revise any forward-looking statements, whether as a result of new information, future developments, or otherwise prior to the release of the next management report of fund performance.
