Management Discussion of Fund Performance

Investment Objective and Strategies

Investment Objective: CIBC Canadian Equity Fund (referred to as the *Fund*) seeks to provide long-term growth through capital appreciation by investing primarily in Canadian equity securities.

Investment Strategies: The Fund aims to add value through prudent security selection based on fundamental, bottom-up analysis by identifying securities that are trading at attractive relative valuations.

Risk

The Fund is a Canadian equity fund that is suitable for medium- to long-term investors who can tolerate medium investment risk.

For the period ended December 31, 2020, the Fund's overall level of risk remained as discussed in the simplified prospectus.

Results of Operations

The Fund's portfolio advisor is CIBC Asset Management Inc. (referred to as *CAMI* or the *Portfolio Advisor*). The commentary that follows provides a summary of the results of operations for the period ended December 31, 2020. All dollar figures are expressed in thousands, unless otherwise indicated.

The Fund's net asset value increased by 47% during the period, from \$289,491 as at December 31, 2019 to \$424,537 as at December 31, 2020. Net sales of \$118,194 and positive investment performance resulted in an overall increase in net asset value.

Class A units of the Fund posted a return of 2.4% for the period. The Fund's benchmark, the S&P/TSX Composite Index (referred to as the *benchmark*), returned 5.6% for the same period. The Fund's return is after the deduction of fees and expenses, unlike the benchmark's return. See the section *Past Performance* for the returns of other classes of units offered by the Fund.

Canada's economy entered a recession in the second quarter of 2020, as lockdowns in response to the COVID-19 pandemic significantly hindered economic activity in late March. Canada's gross domestic product (referred to as *GDP*) fell at a record pace in the second quarter. In the third quarter as lockdown restrictions eased and the economy reopened, Canada's economy expanded at its fastest pace

on record. Canada's GDP contracted again in October, however, as COVID-19 infection rates continued to climb. The rise in cases resulted in governments imposing new lockdowns, which disproportionately impacted the travel and entertainment sectors.

Canadian equity markets ended the period up slightly. The approval and distribution of several vaccines late in the period boosted investor sentiment and economic activity. With hopes of an end to the pandemic and an economic recovery, investors moved back into cyclical sectors, which had experienced a steep sell-off earlier in the period. Overall, the information technology and materials sectors were the strongest performers, while the energy and health care sectors declined.

The Fund's stock selection in the industrials, utilities and materials sectors detracted from performance. Individual detractors included overweight holdings in Air Canada and Keyera Corp. Air Canada's share price declined in response to travel restrictions imposed during the pandemic. The Portfolio Advisor eliminated the holding in July and repurchased shares in December based on the expectation that markets will begin to focus on the return of travel and the company's longer-term fundamental valuation. Keyera weakened as the economic slowdown reduced demand for oil, causing the price of oil to fall sharply.

Stock selection in the information technology and financials sectors contributed to the Fund's performance. Individual contributors to performance included overweight holdings in Shopify Inc. and Newmont Corp. Shopify benefited from the accelerated shift to e-commerce during the pandemic. Newmont's share price appreciated in response to sharply stronger gold prices.

Several new holdings were added to the Fund during the period. Endeavour Mining Corp. was added as the company trades at a discount compared to its peers, and has a strong management team and a robust pipeline of projects. ATS Automation Tooling Systems Inc. was purchased at what the Portfolio Advisor believes was an attractive share price because the company has experienced weak bookings, coupled with restructuring in the transport sector and investor fatigue. The Portfolio Advisor believes Sun Life Financial Inc. is a quality

insurance company that has significantly de-risked and improved returns through better capital allocation and growth in Asia.

The Portfolio Advisor added to several of the Fund's existing holdings late in the period. The Fund's holding in Magna International Inc. was increased to augment the Fund's exposure to a cyclical recovery. Holdings in Bank of Montreal and Manulife Financial Corp. were also increased.

Several holdings were eliminated during the period. Great-West Lifeco Inc. was sold to increase the Fund's allocations to the six largest Canadian banks. Brookfield Property Partners L.P. was eliminated because the Portfolio Advisor expects retail real estate to take some time to recover. The Portfolio Advisor is not confident that outdoor activity trends and momentum in China over the near term will support the share price of Canada Goose Holdings Inc. Genworth MI Canada Inc. was also sold after majority shareholder Brookfield Business Partners L.P. announced it was purchasing all the remaining shares.

The Portfolio Advisor trimmed a number of holdings during the period. Waste Connections Inc. was reduced to fund investments with what the Portfolio Advisor believes are better return profiles. The Portfolio Advisor reduced the Fund's weighting in Restaurant Brands International Inc. on the expectation that the company's share price could be flat in the near term. Loblaw Cos. Ltd. was reduced to shift the Fund away from the consumer staples sector and toward consumer discretionary, which the Portfolio Advisor believes should benefit from an economic recovery.

Recent Developments

On July 6, 2020, Class F units of the Fund were made available for purchase.

The composition of the Independent Review Committee (referred to as *IRC*) changed. Don Hunter and Merle Kriss retired effective April 26, 2020. Effective April 27, 2020, David Forster and Deborah Leckman were appointed as members of the IRC. Marcia Lewis Brown was appointed Chair effective April 1, 2020.

The international spread of COVID-19 caused a significant slowdown in the global economy and volatility in financial markets. The COVID-19 outbreak may adversely affect global markets and the Fund's performance.

Related Party Transactions

Canadian Imperial Bank of Commerce (referred to as *CIBC*) and its affiliates have the following roles and responsibilities with respect to the Fund, and receive the fees described below in connection with their roles and responsibilities.

Manager

CIBC is the Fund's manager (referred to as the *Manager*). CIBC receives management fees with respect to the Fund's day-to-day business and operations, calculated based on the net asset value of each respective class of units of the Fund as described in the section entitled *Management Fees*. The Manager compensates its wholesalers in connection with their marketing activities regarding the Fund. From time to time, CIBC may invest in units of the Fund.

Trustee

CIBC Trust Corporation, a wholly-owned subsidiary of CIBC, is the Fund's trustee (referred to as the *Trustee*). The Trustee holds title to the Fund's property (cash and securities) on behalf of its unitholders.

Portfolio Advisor

The portfolio advisor provides, or arranges to provide, investment advice and portfolio management services to the Fund. CAMI, a wholly-owned subsidiary of CIBC, is the Fund's portfolio advisor.

Distributor

Dealers and other firms sell the units of the Fund to investors. These dealers and other firms include CIBC's related dealers such as the principal distributor, CIBC Securities Inc. (referred to as *CIBC SI*), the CIBC Investor's Edge discount brokerage division of CIBC Investor Services Inc. (referred to as *CIBC ISI*), the CIBC Imperial Investor Service division of CIBC ISI, and the CIBC Wood Gundy division of CIBC World Markets Inc. (referred to as *CIBC WM*). CIBC SI, CIBC ISI, and CIBC WM are wholly-owned subsidiaries of CIBC.

CIBC may pay trailing commissions to these dealers and firms, except for CIBC SI, in connection with the sale of units of the Fund. These dealers and other firms may pay a portion of these trailing commissions to their advisors who sell units of the Fund to investors. CIBC does not pay trailing commissions to CIBC SI for selling units of the Fund, although overall sales of CIBC funds may be considered in assessing the performance of their advisors and may therefore contribute to their annual compensation.

Brokerage Arrangements and Soft Dollars

The Portfolio Advisor makes decisions, including the selection of markets and dealers and the negotiation of commissions, with respect to the purchase and sale of portfolio securities, certain derivative products and the execution of portfolio transactions. Brokerage business may be allocated by the Portfolio Advisor to CIBC WM and CIBC World Markets Corp., each a subsidiary of CIBC. CIBC WM and CIBC World Markets Corp. may also earn spreads on the sale of fixed income securities and other securities and certain derivative products to the Fund. A spread is the difference between the bid and ask prices for a security in the applicable marketplace, with respect to the execution of portfolio transactions. The spread will differ based upon various factors such as the type and liquidity of the security.

Dealers, including CIBC WM and CIBC World Markets Corp., may furnish goods and services, other than order execution, to the Portfolio Advisor in partial exchange for processing trades through them (referred to in the industry as "soft dollar" arrangements). These goods and services are paid for with a portion of the brokerage commissions and assist the Portfolio Advisor with investment decision-making services for the Fund or relate directly to the execution of portfolio transactions on behalf of the Fund.

In addition, CIBC may enter into commission recapture arrangements with certain dealers with respect to the Fund. Any commission recaptured will be paid to the Fund.

During the period, the Fund paid brokerage commissions and other fees of \$45,933 to CIBC WM; the Fund did not pay any brokerage

commissions or other fees to CIBC World Markets Corp. Spreads associated with fixed income and other securities are not ascertainable and, for that reason, cannot be included when determining these amounts.

Fund Transactions

The Fund may enter into one or more of the following transactions (referred to as the *Related Party Transactions*) in reliance on the standing instructions issued by the IRC:

- invest in or hold equity securities of CIBC or issuers related to a portfolio sub-advisor;
- invest in or hold non-exchange-traded debt securities of CIBC or an issuer related to CIBC, with terms-to-maturity of 365 days or more, issued in a primary offering and in the secondary market;
- make an investment in the securities of an issuer for which CIBC WM, CIBC World Markets Corp., or any affiliate of CIBC (referred to as a *Related Dealer*) acts as an underwriter during the offering of the securities or at any time during the 60-day period following the completion of the offering of such securities (in the case of a "private placement" offering, in accordance with the exemptive relief order granted by the Canadian securities regulatory authorities and in accordance with the policies and procedures relating to such investment);
- purchase equity or debt securities from or sell them to a Related Dealer, where it is acting as principal;
- undertake currency and currency derivative transactions where a Related Dealer is the counterparty;
- purchase securities from or sell securities to another investment fund or a managed account managed by the Manager or an affiliate; and
- engage in in-specie transfers by receiving portfolio securities from, or delivering portfolio securities to, a managed account or another investment fund managed by the Manager or an affiliate, in respect of a purchase or redemption on units in the fund, subject to certain conditions.

At least annually, the IRC reviews the Related Party Transactions for which they have issued standing instructions. The IRC is required to advise the Canadian securities regulatory authorities, after a matter has been referred or reported to the IRC by the Manager, if it determines that an investment decision was not made in accordance with a condition imposed by securities legislation or the IRC in any Related Party Transactions requiring its approval.

Custodian

CIBC Mellon Trust Company is the Fund's custodian (referred to as the *Custodian*). The Custodian holds all cash and securities for the Fund and ensures that those assets are kept separate from any other cash or securities that the Custodian might be holding. The Custodian also provides other services to the Fund including record-keeping and processing of foreign exchange transactions. The Custodian may hire sub-custodians for the Fund. The fees and spreads for services of the Custodian directly related to the execution of portfolio transactions by

the Fund are paid by CAMI and/or dealer(s) directed by CAMI, up to the amount of the credits generated under soft dollar arrangements from trading on behalf of the Fund during that month. All other fees and spreads for the services of the Custodian are paid by the Manager and charged to the Fund on a recoverable basis. CIBC owns a 50% interest in the Custodian.

Service Provider

CIBC Mellon Global Securities Services Company (referred to as *CIBC GSS*) provides certain services to the Fund, including securities lending, fund accounting and reporting, and portfolio valuation. Such servicing fees are paid by the Manager, and charged to the Fund on a recoverable basis. CIBC indirectly owns a 50% interest in CIBC GSS.

⁵ Management expense ratio is based on the total expenses of the fund (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period.

⁶ The decision to waive and/or absorb management fees and operating expenses is at the discretion of the Manager. The practice of waiving and/or absorbing management fees and operating expenses may continue indefinitely or may be terminated at any time without notice to unitholders.

⁷ The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation.

⁸ The portfolio turnover rate indicates how actively the portfolio advisor and/or portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Management Fees

The Fund, either directly or indirectly, pays CIBC an annual management fee to cover the costs of managing the Fund. Management fees are based on the Fund's net asset value and are calculated daily and paid monthly. Management fees are paid to CIBC in consideration for providing, or arranging for the provision of, management, distribution, and portfolio advisory services. Advertising and promotional expenses, office overhead expenses and trailing commissions are paid by CIBC out of the management fees received from the Fund. The Fund is required to pay applicable taxes on the management fees paid to CIBC. Refer to the Simplified Prospectus for the annual management fee rate for each class of units. For Class O units, the management fee is negotiated with and paid by, or as directed by, unitholders or dealers and discretionary managers on behalf of unitholders. Such Class O management fee will not exceed the Class F unit management fee rate.

The following table shows a breakdown of the services received in consideration of the management fees, as a percentage of the management fees collected from the Fund for the period ended December 31, 2020. These amounts do not include waived fees or absorbed expenses.

Past Performance

The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, or other optional charges payable by any unitholder that would have reduced returns. Past performance does not necessarily indicate how a fund will perform in the future.

The Fund's returns are after the deduction of fees and expenses, and the difference in returns between classes of units is primarily due to differences in the management expense ratio. See *Financial Highlights* section for the management expense ratio.

Year-by-Year Returns

These bar charts show the annual performance of each class of units of the Fund for each of the periods shown, and illustrate how the performance has changed from period to period. These bar charts show, in percentage terms, how an investment made on January 1 would have increased or decreased by December 31, unless otherwise indicated.

Class A Units

Class F Units

^a 2020 return is for the period from July 6, 2020 to December 31, 2020.

A note on forward-looking statements

The management report of fund performance may contain forward-looking statements. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates”, or other similar wording. In addition, any statements that may be made concerning future performance, strategies, or prospects and possible future actions taken by the fund, are also forward-looking statements. Forward-looking statements are not guarantees of future performance. These statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results and achievements of the fund to differ materially from those expressed or implied by such statements. Such factors include, but are not limited to: general economic, market, and business conditions; fluctuations in securities prices, interest rates, and foreign currency exchange rates; changes in government regulations; and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. CIBC does not undertake, and specifically disclaims, any obligation to update or revise any forward-looking statements, whether as a result of new information, future developments, or otherwise prior to the release of the next management report of fund performance.
