

CIBC Dividend Growth Fund

Annual Management Report of Fund Performance

for the financial year ended December 31, 2016

All figures are reported in Canadian dollars unless otherwise noted.

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. If you have not received a copy of the annual financial statements with this annual management report of fund performance, you can get a copy of the annual financial statements at your request, and at no cost, by calling us toll-free at 1-800-465-3863, by writing to us at CIBC, 18 York Street, Suite 1300, Toronto, Ontario, M5J 2T8, or by visiting www.cibc.com/mutualfunds or the SEDAR website at www.sedar.com.

Unitholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Management Discussion of Fund Performance

Investment Objective and Strategies

Investment Objective: CIBC Dividend Growth Fund (the *Fund*) seeks to maximize income and potential capital growth by investing primarily in Canadian equity securities that produce dividend income.

Investment Strategies: The Fund identifies stocks that have attractive dividend yields and capital appreciation potential. The Fund aims to add value through prudent security selection based on fundamental, bottom-up analysis and through the allocation of assets between common and preferred shares, bonds, income trusts, and other securities based on a review of economic and capital market conditions.

Risk

The Fund is a Canadian dividend and income equity fund that is suitable for medium- to long-term investors who can tolerate low to medium investment risk.

For the period ended December 31, 2016, the Fund's overall level of risk remains as discussed in the simplified prospectus.

Results of Operations

The portfolio advisor of the Fund is CIBC Asset Management Inc. (CAMI or the *Portfolio Advisor*). The commentary that follows provides a summary of the results of operations for the period ended December 31, 2016. All dollar figures are expressed in thousands, unless otherwise indicated.

The Fund's net asset value increased by 7% during the period, from \$817,906 as at December 31, 2015 to \$875,866 as at December 31, 2016. Positive investment performance was partially offset by net redemptions of \$94,054, resulting in an overall increase in net asset value.

Class A units of the Fund posted a return of 20.0% for the period. The Fund's benchmark, the S&P/TSX Composite Dividend Index (the *benchmark*), returned 24.0% for the same period. The Fund's return is after the deduction of fees and expenses, unlike the benchmark. See

Past Performance for the returns of other classes of units offered by the Fund.

Canada had the best performing equity market in 2016 among developed economies, led primarily by the materials and energy sectors. At the beginning of the year, the global economic outlook was not very optimistic. Then, early expectations for multiple interest-rate increases throughout the year gave way to a low-to-negative interest-rate environment for many major financial markets. This resulted in a weaker U.S. dollar, gold prices rising over most of the year and strong performance for gold-related equities.

Following the unexpected election of Donald Trump in November, the view was that U.S. economic growth, inflation, interest rates and government fiscal spending would go up, and corporate taxes would go down. As a result, towards the end of the year, the U.S. dollar appreciated and cyclical stocks were favoured more than gold as well as defensive and interest-sensitive stocks and sectors.

Also, late in the year the Organization of Petroleum Exporting Countries (OPEC) and some non-OPEC producers struck an unexpected agreement to cut oil production for the first time in eight years, causing energy prices to recover from their lows earlier in the year.

A large underweight allocation to the outperforming materials sector, and large overweight allocations to the underperforming information technology and health care sectors, detracted from performance. On an individual basis, Valeant Pharmaceuticals International Inc. was a significant detractor. Weaker-than-expected revenues and earnings growth, slow progress to reduce its debt level and the departure of its chief executive officer (CEO) diminished its value.

Individual holding DH Corp. also detracted. Its high debt levels and questionable dividend sustainability had a negative impact. Element Fleet Management Corp. also detracted. While Element's stock trades at an attractive valuation, it has underperformed as a result of stagnant earnings results and disappointing earnings guidance.

The modest overweight allocations to the outperforming energy and financials sectors contributed to performance. Labrador Iron Ore Royalty Corp. contributed the most, as the stock recovered from global recession concerns. Pembina Pipeline Corp. and Vermilion Energy Inc. also contributed, as the outlook for energy prices improved.

Over the period, the Portfolio Advisor added and increased a new holding in Gildan Activewear Inc., as the stock, with a strong balance sheet and cash flow profile, traded at an attractive long-term valuation. During the fourth quarter, new holdings were added in Granite REIT and Franco-Nevada Corp. Granite REIT solidified some key lease arrangements with Magna International Inc. Franco-Nevada, with an attractive royalty business model and no debt, was bought on opportunity as gold prices fell late in the year.

The Portfolio Advisor added to several existing holdings over the period. The Fund participated in an equity issue to allow TransCanada Corp. to acquire the Columbia Pipeline Group. Continued dividend growth is expected. Suncor Energy Inc. has a strong financial position and free cash flow profile. Agrium Inc. has the largest market share in agricultural retail outlets in North America, an attractive valuation and above-average dividend yield. As its new CEO implements a fresh corporate strategy, the Portfolio Advisor expects Goldcorp Inc. to improve its operations and financial results. Towards the end of the period, Boardwalk REIT, which was trading at an attractive valuation, was increased with the expectation of operational results improving.

Several holdings were trimmed over the year. There are concerns about Brookfield Asset Management Inc.'s opportunities for growth in a low interest-rate environment. The Portfolio Advisor took profits on Cineplex Inc. as the company diversifies away from its box office revenues and into other media businesses. Saputo Inc., which has a strong year-to-date performance and a relatively high valuation, was decreased for risk control. Open Text Corp., which has a relatively high weighting in the portfolio, was reduced as a source of funds for other purchases.

Several holdings were eliminated. There is a risk of a dividend cut at Potash Corp. of Saskatchewan Inc. as the outlook for the commodity price has lowered as a result of weak demand and excess capacity. Valeant was removed as it faltered. Empire is up against intense competition and exposure to a weaker western Canadian economy. Capital Power Corp. faces weak power prices in Alberta because of changes to the regulatory landscape and weak demand and overcapacity. Industrial Alliance Insurance and Financial Services Inc. were removed over concerns that a lower interest-rate environment might have a negative impact on its financial results.

Recent Developments

Effective September 6, 2016, the maximum annual trailing commission was reduced from 1.25% to 1.00% for Class A units of the Fund.

Effective April 27, 2016, the composition of the Independent Review Committee (*IRC*) changed. John Crow resigned his position as member and Chair. Marcia Lewis Brown was appointed as member and Don Hunter was appointed as Chair.

Related Party Transactions

Canadian Imperial Bank of Commerce (*CIBC*) and its affiliates have the following roles and responsibilities with respect to the Fund, and receive the fees described below in connection with their roles and responsibilities.

Manager

CIBC is the Manager of the Fund. CIBC receives management fees with respect to the day-to-day business and operations of the Fund, calculated based on the net asset value of each respective class of units of the Fund as described in the section entitled *Management Fees*. The Manager also compensates its wholesalers in connection with their marketing activities regarding the Fund. From time to time, CIBC may provide seed capital to the Fund.

Trustee

CIBC Trust Corporation, a wholly-owned subsidiary of CIBC, is the trustee (the *Trustee*) of the Fund. The Trustee holds title to the property (cash and securities) of the Fund on behalf of its unitholders.

Portfolio Advisor

The portfolio advisor provides, or arranges to provide, investment advice and portfolio management services to the Fund. CAMI, a wholly-owned subsidiary of CIBC, is the portfolio advisor of the Fund.

Distributor

Dealers and other firms sell the units of the Fund to investors. These dealers and other firms include CIBC's related dealers such as the principal distributor, CIBC Securities Inc. (*CIBC SI*), the CIBC Investor's Edge discount brokerage division of CIBC Investor Services Inc. (*CIBC ISI*), the CIBC Imperial Service division of CIBC ISI, and the CIBC Wood Gundy division of CIBC World Markets Inc. (*CIBC WM*). CIBC SI, CIBC ISI, and CIBC WM are wholly-owned subsidiaries of CIBC.

CIBC may pay trailing commissions to these dealers and firms in connection with the sale of units of the Fund. These dealers and other firms may pay a portion of these trailing commissions to their advisors who sell units of the Fund to investors.

Brokerage Arrangements and Soft Dollars

The Portfolio Advisor makes decisions, including the selection of markets and dealers and the negotiation of commissions, with respect to the purchase and sale of portfolio securities, certain derivative products and the execution of portfolio transactions. Brokerage business may be allocated by the Portfolio Advisor to CIBC WM and CIBC World Markets Corp., each a subsidiary of CIBC. CIBC WM and CIBC World Markets Corp. may also earn spreads on the sale of fixed income securities and other securities and certain derivative products to the Fund. A spread is the difference between the bid and ask prices for a security in the applicable marketplace, with respect to the execution of portfolio transactions. The spread will differ based upon various factors such as the type and liquidity of the security.

Dealers, including CIBC WM and CIBC World Markets Corp., may furnish goods and services, other than order execution, to the Portfolio Advisor in partial exchange for processing trades through them (referred to in the industry as “soft dollar” arrangements). These goods and services are paid for with a portion of the brokerage commissions and assist the Portfolio Advisor with investment decision-making services for the Fund or relate directly to the execution of portfolio transactions on behalf of the Fund.

In addition, CIBC may enter into commission recapture arrangements with certain dealers with respect to the Fund. Any commission recaptured will be paid to the Fund.

During the period, the Fund paid brokerage commissions and other fees of \$614 to CIBC WM; the Fund did not pay any brokerage commissions or other fees to CIBC World Markets Corp. Spreads associated with fixed income and other securities are not ascertainable and, for that reason, cannot be included when determining these amounts.

Fund Transactions

The Fund may enter into one or more of the following transactions (the *Related Party Transactions*) in reliance on the standing instructions issued by the IRC:

- invest in or hold equity securities of CIBC or issuers related to a portfolio sub-advisor;
- invest in or hold non-exchange-traded debt securities of CIBC or an issuer related to CIBC in a primary offering and in the secondary market;
- make an investment in the securities of an issuer for which CIBC WM, CIBC World Markets Corp., or any affiliate of CIBC (a *Related Dealer*) acts as an underwriter during the offering of the securities at any time during the 60-day period following the completion of the offering of such securities (in the case of a “private placement” offering, in accordance with the exemptive relief order granted by the Canadian securities regulatory authorities and in accordance with the policies and procedures relating to such investment);
- purchase equity or debt securities from or sell them to a Related Dealer, where it is acting as principal;
- undertake currency and currency derivative transactions where a Related Dealer is the counterparty; and
- purchase securities from or sell securities to another investment fund or a managed account managed by the Manager or an affiliate of the Manager.

At least annually, the IRC reviews the Related Party Transactions for which they have issued standing instructions. The IRC is required to advise the Canadian securities regulatory authorities, after a matter has been referred or reported to the IRC by the Manager, if it determines that an investment decision was not made in accordance with conditions of its approval.

Custodian

CIBC Mellon Trust Company is the custodian of the Fund (the *Custodian*). The Custodian holds all cash and securities for the Fund and ensures that those assets are kept separate from any other cash or securities that the Custodian might be holding. The Custodian also provides other services to the Fund including record-keeping and processing of foreign exchange transactions. The Custodian may hire sub-custodians for the Fund. The fees and spreads for services of the Custodian directly related to the execution of portfolio transactions by the Fund are paid by CAMI and/or dealer(s) directed by CAMI, up to the amount of the credits generated under soft dollar arrangements from trading on behalf of the Fund during that month. All other fees and spreads for the services of the Custodian are paid by the Manager and charged to the Fund on a recoverable basis. CIBC owns a 50% interest in the Custodian.

Service Provider

CIBC Mellon Global Securities Services Company (*CIBC GSS*) provides certain services to the Fund, including securities lending, fund accounting and reporting, and portfolio valuation. Such servicing fees are paid by the Manager, and charged to the Fund on a recoverable basis. CIBC indirectly owns a 50% interest in CIBC GSS.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the period ended December 31.

The Fund's Net Assets per Unit¹ - Class A Units

	2016	2015	2014	2013	2012
Net Assets, beginning of period	\$ 33.28	\$ 37.40	\$ 34.50	\$ 30.68	\$ 28.55
Increase (decrease) from operations:					
Total revenue	\$ 1.28	\$ 1.24	\$ 1.20	\$ 1.11	\$ 1.04
Total expenses	(0.74)	(0.75)	(0.76)	(0.66)	(0.60)
Realized gains (losses) for the period	1.47	0.37	2.68	0.75	0.49
Unrealized gains (losses) for the period	4.56	(4.67)	0.07	2.81	1.29
Total increase (decrease) from operations²	\$ 6.57	\$ (3.81)	\$ 3.19	\$ 4.01	\$ 2.22
Distributions:					
From income (excluding dividends)	\$ —	\$ —	\$ —	\$ —	\$ —
From dividends	0.35	0.21	0.25	0.24	0.17
From capital gains	—	—	—	—	—
Return of capital	—	—	—	—	—
Total Distributions³	\$ 0.35	\$ 0.21	\$ 0.25	\$ 0.24	\$ 0.17
Net Assets, end of period	\$ 39.58	\$ 33.28	\$ 37.40	\$ 34.50	\$ 30.64

¹ This information is derived from the Fund's audited annual financial statements. The Fund adopted International Financial Reporting Standards (*IFRS*) on January 1, 2014. Previously, the Fund prepared its financial statements in accordance with Canadian Generally Accepted Accounting Principles (*GAAP*) as defined in Part V of the CPA Canada Handbook. Under Canadian GAAP, the Fund measured fair values of its investments in accordance with CICA Handbook Section 3855 which required the use of bid prices for long positions and ask prices for short positions. As such, the net assets per unit figure presented in the financial statements may differ from the net asset value calculated for fund pricing purposes. An explanation of these differences can be found in the notes to the financial statements issued prior to January 1, 2014. Upon adoption of IFRS, the Fund measures the fair value of its investments by using the close market prices, where the close market price falls within the bid-ask spread. As such, the Fund's accounting policies for measuring the fair value of investments in the financial statements are consistent with those used in measuring the net asset value for transactions with unitholders. Accordingly, the opening net asset figure as at January 1, 2013 was restated to reflect accounting policy adjustments made in accordance with IFRS. All figures presented for periods prior to January 1, 2013 were prepared in accordance with Canadian GAAP and subsequent thereto were prepared in accordance with IFRS.

² Net assets and distributions are based on the actual number of units outstanding at the relevant time. The total increase (decrease) from operations is based on the weighted average number of units outstanding during the period.

³ Distributions were paid in cash, reinvested in additional units of the Fund, or both.

Ratios and Supplemental Data - Class A Units

	2016	2015	2014	2013	2012
Total Net Asset Value (000s)⁴	\$ 875,751	\$ 817,906	\$ 1,035,563	\$ 999,068	\$ 933,185
Number of Units Outstanding⁴	22,128,477	24,577,198	27,690,361	28,958,550	30,413,635
Management Expense Ratio⁵	2.03%	2.03%	2.02%	2.05%	2.05%
Management Expense Ratio before waivers or absorptions⁶	2.03%	2.03%	2.03%	2.05%	2.05%
Trading Expense Ratio⁷	0.02%	0.03%	0.04%	0.02%	0.02%
Portfolio Turnover Rate⁸	4.76%	5.58%	20.91%	9.32%	9.23%
Net Asset Value per Unit	\$ 39.58	\$ 33.28	\$ 37.40	\$ 34.50	\$ 30.68

⁴ This information is presented as at December 31 of the period(s) shown.

⁵ Management expense ratio is based on the total expenses of the fund (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period.

⁶ The decision to waive and/or absorb management fees and operating expenses is at the discretion of the Manager. The practice of waiving and/or absorbing management fees and operating expenses may continue indefinitely or may be terminated at any time without notice to unitholders.

⁷ The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation.

⁸ The portfolio turnover rate indicates how actively the portfolio advisor and/or portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

CIBC Dividend Growth Fund

The Fund's Net Assets per Unit¹ - Class O Units

	2016	2015 ^a

Portfolio Turnover Rate⁸	4.76%	5.58%
Net Asset Value per Unit	\$ 16.32	\$ 13.76

^a Information presented is for the period from October 30, 2015 to December 31, 2015.

* Ratio has been annualized.

⁴ This information is presented as at December 31 of the period(s) shown.

⁵ Management expense ratio is based on the total expenses of the fund (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period.

⁶ The decision to waive and/or absorb management fees and operating expenses is at the discretion of the Manager. The practice of waiving and/or absorbing management fees and operating expenses may continue indefinitely or may be terminated at any time without notice to unitholders.

⁷ The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation.

⁸ The portfolio turnover rate indicates how actively the portfolio advisor and/or portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Management Fees

The Fund, either directly or indirectly, pays an annual management fee to CIBC to cover the costs of managing the Fund. Management fees are based on the net asset value of the Fund and are calculated daily and paid monthly. Management fees are paid to CIBC in consideration for providing, or arranging for the provision of, management, distribution, and portfolio advisory services. Advertising and promotional expenses, office overhead expenses, trailing commissions, and the fees of the portfolio sub-advisor(s) are paid by CIBC out of the management fees received from the Fund. The Fund is required to pay applicable taxes on the management fees paid to CIBC. Refer to the Simplified Prospectus for the maximum annual management fee rate for each class of units. For Class O units, the management fee is negotiated with and paid by, or as directed by, unitholders or dealers and discretionary managers on behalf of unitholders. Such Class O management fee will not exceed the Class A unit management fee rate.

The following table shows a breakdown of the services received in consideration of the management fees, as a percentage of the management fees collected from the Fund for the period ended December 31, 2016. These amounts do not include waived fees or absorbed expenses.

	Class A Units
Sales and trailing commissions paid to dealers	43.53%
General administration, investment advice, and profit	56.47%

Past Performance

The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, or other optional charges payable by any unitholder that would have reduced returns. Past performance does not necessarily indicate how a fund will perform in the future.

The Fund's returns are after the deduction of fees and expenses, and the difference in returns between classes of units is primarily due to differences in the management expense ratio. See the section entitled *Financial Highlights* for the management expense ratio.

Year-by-Year Returns

These bar charts show the annual performance of each class of units of the Fund for each of the periods shown, and illustrate how the performance has changed from period to period. These bar charts show, in percentage terms, how an investment made on January 1 would have increased or decreased by December 31, unless otherwise indicated.

Class A Units

Class O Units

^a 2015 return is for the period from October 30, 2015 to December 31, 2015.

Annual Compound Returns

This table shows the annual compound return of each class of units of the Fund for each indicated period ended on December 31, 2016. The annual compound total return is also compared to the Fund's benchmark(s).

The Fund's benchmark is the S&P/TSX Composite Dividend Index.

	1 Year	3 Years	5 Years	10 Years*	or	Since Inception*	Inception Date
Class A units	20.0%	5.5%	7.5%	4.4%			August 7, 1991
S&P/TSX Composite Dividend Index	24.0%	8.3%	9.3%	5.5%			
Class O units	22.3%					13.3%	October 30, 2015
S&P/TSX Composite Dividend Index	24.0%					16.5%	

* If a class of units has been outstanding for less than 10 years, the annual compound return since inception is shown.

S&P/TSX Composite Dividend Index aims to provide a broad-based benchmark of Canadian dividend-paying stocks. It includes all stocks in the S&P/TSX Composite Index with positive annual dividend yields as of the latest rebalancing of the S&P/TSX Composite Index.

A discussion of the relative performance of the Fund compared to its primary benchmark(s) can be found in *Results of Operations*.

Summary of Investment Portfolio (as at December 31, 2016)

The summary of investment portfolio may change due to ongoing portfolio transactions of the investment fund. A quarterly update is available by visiting www.cibc.com/mutualfunds. The Top Positions table shows a fund's 25 largest positions. For funds with fewer than 25 positions in total, all positions are shown. Cash and cash equivalents are shown in total as one position.

The management report of fund performance may contain forward-looking statements. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates”, or other similar wording. In addition, any statements that may be made concerning future performance, strategies, or prospects and possible future actions taken by the fund, are also forward-looking statements. These statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results and achievements of the fund to differ materially from those expressed or implied by such statements. Such factors include, but are not limited to: general economic, market, and business conditions; fluctuations in securities prices, interest rates, and foreign currency exchange rates; changes in government regulations; and catastrophic events. We do not undertake, and specifically disclaim, any obligation to update or revise any forward-looking statements, whether as a result of new information, future developments, or otherwise prior to the release of the next management report of fund performance.
