

## Annual Management Report of Fund Performance

for the financial year ended December 31, 2020

All figures are reported in Canadian dollars unless otherwise noted.

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling toll-free at 1-800-465-3863, by writing to us at CIBC, Brookfield Place, 161 Bay Street, 22nd floor, Toronto, Ontario, M5J 2S1, or by visiting our website at [www.cibc.com/mutualfunds](http://www.cibc.com/mutualfunds) or SEDAR at [www.sedar.com](http://www.sedar.com).

Unitholders may also contact us using one of these methods to request a copy of the investment fund's interim financial report, proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

### Management Discussion of Fund Performance

#### Investment Objective and Strategies

**Investment Objective:** CIBC Energy Fund (referred to as the *Fund*) seeks to provide long-term growth through capital appreciation by investing primarily in equities and other securities of Canadian companies involved directly or indirectly in the Canadian energy sector.

**Investment Strategies:** The Fund identifies the commodities, securities, and sub-sectors of the energy, energy infrastructure, and energy-related groups that are expected to outperform. Adjustments to the portfolio are based on an assessment of industry and company fundamentals, including analysis of company financial statements, evaluation of assets, future growth prospects, and assessment of management teams.

#### Risk

The Fund is a energy equity fund that is suitable for long-term investors who can tolerate high investment risk.

For the period ended December 31, 2020, the Fund's overall level of risk remained as discussed in the simplified prospectus.

#### Results of Operations

The Fund's portfolio advisor is CIBC Asset Management Inc. (referred to as *CAMI* or the *Portfolio Advisor*). The commentary that follows provides a summary of the results of operations for the period ended December 31, 2020. All dollar figures are expressed in thousands, unless otherwise indicated.

The Fund's net asset value decreased by 23% during the period, from \$51,355 as at December 31, 2019 to \$39,476 as at December 31, 2020. Net sales of \$598 were offset by negative investment performance, resulting in an overall decrease in net asset value.

Class A units of the Fund posted a return of -26.2% for the period. The Fund's primary benchmarks, the S&P/TSX Capped Energy Index and the S&P/TSX Composite Index (referred to as the *benchmarks*), returned -34.6% and 5.6%, respectively, for the same period. The Fund's return is after the deduction of fees and expenses, unlike the benchmarks' returns. See the section *Past Performance* for the returns of other classes of units offered by the Fund.

Although the global economy and financial markets began 2020 relatively strong, measures to contain the spread of COVID-19 hindered economies around the world. In response, central banks and governments implemented massive monetary and fiscal stimulus programs, including substantial asset purchases, to support their respective economies and financial markets.

The spring economic slowdown reduced demand for commodities, which, in combination with oversupply, led to a brief period of negative crude oil prices. Equity prices fell sharply in March before rallying in response to the unprecedented stimulus programs, which kept global yields at historically low levels. The price of gold reached record highs.

Investor optimism in the second half of 2020 supported equity prices, as well as a recovery in commodity prices. Despite high COVID-19 infection rates, this optimism was fuelled by hopes of economic re-openings and progress toward the widespread distribution of effective COVID-19 vaccines. Other positive factors included the resolution of U.S. election uncertainty, expectations of a trade deal between the U.K. and the European Union, and a limit on oil output by the Organization of the Petroleum Exporting Countries (referred to as *OPEC*).

The Fund's exposure to renewable power and natural gas contributed to its performance. Individual contributors to performance included overweight holdings in Orsted AS, Seven Generations Energy Ltd. and Tourmaline Oil Corp. Orsted benefited as the renewable energy space outperformed. Seven Generations and Tourmaline outperformed in response to their natural gas exposure.

Individual detractors from the Fund's performance included underweight holdings in Marathon Petroleum Corp., Cameco Corp. and Enbridge Inc. Marathon outperformed as the company rebounded strongly after shutdowns in March. Cameco benefited from relatively stable uranium prices.

Several new holdings were added to the Fund during the period, including Kelt Exploration Ltd., Seven Generations and Wolverine Energy and Infrastructure Inc. Kelt Exploration's latest transaction strengthened the company's balance sheet. Seven Generations is

transitioning to a free cash flow model. Wolverine Energy and Infrastructure is an emerging energy services company that is benefiting as larger companies shed non-core assets, and the Portfolio Advisor believes the company has the opportunity to grow through acquisition.

The Portfolio Advisor added to several of the Fund's existing holdings, including Orsted AS, Cabot Oil and Gas Corp. and Algonquin Power & Utilities Corp. Orsted was increased based on the Portfolio Advisor's outlook for offshore wind power growth, particularly in the U.S. and Asian markets. Cabot Oil and Gas is a low-cost U.S. gas producer with a strong balance sheet. The Fund participated in an equity raise by Algonquin Power & Utilities, which should allow the company to fund a large capital expense program over the next five years.

Several holdings were eliminated during the period including Halliburton Co., Ovintiv Inc. and WPX Energy Inc. Halliburton and Ovintiv were sold because the Portfolio Advisor expects there to be significantly reduced onshore drilling and completions for U.S. shale companies in an oversupplied market. WPX Energy was eliminated in favour of an increased exposure to Canadian gas.

The Portfolio Advisor trimmed the Fund's holdings in Enbridge, TC Energy Corp. and Northland Power Inc. after a period of strong performance for these companies.

### Recent Developments

On July 6, 2020, Class F units of the Fund were made available for purchase.

The composition of the Independent Review Committee (referred to as *IRC*) changed. Don Hunter and Merle Kriss retired effective April 26, 2020. Effective April 27, 2020, David Forster and Deborah Leckman were appointed as members of the IRC. Marcia Lewis Brown was appointed Chair effective April 1, 2020.

The international spread of COVID-19 caused a significant slowdown in the global economy and volatility in financial markets. The COVID-19 outbreak may adversely affect global markets and the Fund's performance.

### Related Party Transactions

Canadian Imperial Bank of Commerce (referred to as *CIBC*) and its affiliates have the following roles and responsibilities with respect to the Fund, and receive the fees described below in connection with their roles and responsibilities.

#### Manager

CIBC is the Fund's manager (referred to as the *Manager*). CIBC receives management fees with respect to the Fund's day-to-day business and operations, calculated based on the net asset value of each respective class of units of the Fund as described in the section entitled *Management Fees*. The Manager compensates its wholesalers in connection with their marketing activities regarding the Fund. From time to time, CIBC may invest in units of the Fund.

#### Trustee

CIBC Trust Corporation, a wholly-owned subsidiary of CIBC, is the Fund's trustee (referred to as the *Trustee*). The Trustee holds title to the Fund's property (cash and securities) on behalf of its unitholders.

#### Portfolio Advisor

The portfolio advisor provides, or arranges to provide, investment advice and portfolio management services to the Fund. CAMI, a wholly-owned subsidiary of CIBC, is the Fund's portfolio advisor.

#### Distributor

Dealers and other firms sell the units of the Fund to investors. These dealers and other firms include CIBC's related dealers such as the principal distributor, CIBC Securities Inc. (referred to as *CIBC SI*), the CIBC Investor's Edge discount brokerage division of CIBC Investor Services Inc. (referred to as *CIBC ISI*), the CIBC Imperial Investor Service division of CIBC ISI, and the CIBC Wood Gundy division of CIBC World Markets Inc. (referred to as *CIBC WM*). CIBC SI, CIBC ISI, and CIBC WM are wholly-owned subsidiaries of CIBC.

CIBC may pay trailing commissions to these dealers and firms, except for CIBC SI, in connection with the sale of units of the Fund. These dealers and other firms may pay a portion of these trailing commissions to their advisors who sell units of the Fund to investors. CIBC does not pay trailing commissions to CIBC SI for selling units of the Fund, although overall sales of CIBC funds may be considered in assessing the performance of their advisors and may therefore contribute to their annual compensation.

#### Brokerage Arrangements and Soft Dollars

The Portfolio Advisor and any portfolio sub-advisors make decisions, including the selection of markets and dealers and the negotiation of commissions, with respect to the purchase and sale of portfolio securities, certain derivative products and the execution of portfolio transactions. Brokerage business may be allocated by the Portfolio Advisor and any portfolio sub-advisors, to CIBC WM and CIBC World Markets Corp., each a subsidiary of CIBC. CIBC WM and CIBC World Markets Corp. may also earn spreads on the sale of fixed income and other securities and certain derivative products to the Fund. A spread is the difference between the bid and ask prices for a security in the applicable marketplace, with respect to the execution of portfolio transactions. The spread will differ based upon various factors such as the type and liquidity of the security.

Dealers, including CIBC WM and CIBC World Markets Corp., may furnish goods and services, other than order execution, to the Portfolio Advisor and any portfolio sub-advisors, in partial exchange for processing trades through them (referred to in the industry as "soft dollar" arrangements). These goods and services are paid for with a portion of the brokerage commissions and assist the Portfolio Advisor and any portfolio sub-advisors, with investment decision-making services for the Fund or relate directly to the execution of portfolio transactions on behalf of the Fund. As per the terms of the portfolio sub-advisory agreements, such soft dollar arrangements are in compliance with applicable laws.

In addition, CIBC may enter into commission recapture arrangements with certain dealers with respect to the Fund. Any commission recaptured will be paid to the Fund.

During the period, the Fund paid brokerage commissions and other fees of \$730 to CIBC WM; the Fund did not pay any brokerage commissions or other fees to CIBC World Markets Corp. Spreads associated with fixed income and other securities are not ascertainable and, for that reason, cannot be included when determining these amounts.

#### *Fund Transactions*

The Fund may enter into one or more of the following transactions (referred to as the *Related Party Transactions*) in reliance on the standing instructions issued by the IRC:

- invest in or hold equity securities of CIBC or issuers related to a portfolio sub-advisor;
- invest in or hold non-exchange-traded debt securities of CIBC or an issuer related to CIBC, with terms-to-maturity of 365 days or more, issued in a primary offering and in the secondary market;
- make an investment in the securities of an issuer for which CIBC WM, CIBC World Markets Corp., or any affiliate of CIBC (referred to as a *Related Dealer*) acts as an underwriter during the offering of the securities or at any time during the 60-day period following the completion of the offering of such securities (in the case of a "private placement" offering, in accordance with the exemptive relief order granted by the Canadian securities regulatory authorities and in accordance with the policies and procedures relating to such investment);
- purchase equity or debt securities from or sell them to a Related Dealer, where it is acting as principal;
- undertake currency and currency derivative transactions where a Related Dealer is the counterparty;
- purchase securities from or sell securities to another investment fund or a managed account managed by the Manager or an affiliate; and
- engage in in-specie transfers by receiving portfolio securities from, or delivering portfolio securities to, a managed account or another investment fund managed by the Manager or an affiliate, in respect of a purchase or redemption on units in the fund, subject to certain conditions.

At least annually, the IRC reviews the Related Party Transactions for which they have issued standing instructions. The IRC is required to advise the Canadian securities regulatory authorities, after a matter has been referred or reported to the IRC by the Manager, if it determines that an investment decision was not made in accordance with a condition imposed by securities legislation or the IRC in any Related Party Transactions requiring its approval.

#### *Custodian*

CIBC Mellon Trust Company is the Fund's custodian (referred to as the *Custodian*). The Custodian holds all cash and securities for the Fund

and ensures that those assets are kept separate from any other cash or securities that the Custodian might be holding. The Custodian also provides other services to the Fund including record-keeping and processing of foreign exchange transactions. The fees and spreads for the services of the Custodian directly related to the execution of portfolio transactions initiated by CAMI as the Portfolio Advisor are paid by CAMI and/or the dealer(s) directed by CAMI, up to the amount of the credits generated under soft dollar arrangements from trading by CAMI on behalf of the Fund during that month. All other fees and spreads for the services of the Custodian are paid by the Manager and charged to the Fund on a recoverable basis.. CIBC owns a 50% interest in the Custodian.

#### *Service Provider*

CIBC Mellon Global Securities Services Company (referred to as *CIBC GSS*) provides certain services to the Fund, including securities lending, fund accounting and reporting, and portfolio valuation. Such servicing fees are paid by the Manager and charged to the Fund on a recoverable basis. CIBC indirectly owns a 50% interest in CIBC GSS.

<sup>4</sup> This information is presented as at December 31 of the periods shown.

<sup>5</sup> Management expense ratio is based on the total expenses of the fund (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period.

<sup>6</sup> The decision to waive and/or absorb management fees and operating expenses is at the discretion of the Manager. The practice of waiving and/or absorbing management fees and operating expenses may continue indefinitely or may be terminated at any time without notice to unitholders.

<sup>7</sup> The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation.

<sup>8</sup> The portfolio turnover rate indicates how actively the portfolio advisor and/or portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

## Management Fees

The Fund, either directly or indirectly, pays CIBC an annual management fee to cover the costs of managing the Fund. Management fees are based on the Fund's net asset value and are calculated daily and paid monthly. Management fees are paid to CIBC in consideration for providing, or arranging for the provision of, management, distribution, and portfolio advisory services. Advertising and promotional expenses, office overhead expenses and trailing commissions are paid by CIBC out of the management fees received from the Fund. The Fund is required to pay applicable taxes on the management fees paid to CIBC. Refer to the Simplified Prospectus for the annual management fee rate for each class of units. For Class O units, the management fee is negotiated with and paid by, or as directed by, unitholders or dealers and discretionary managers on behalf of unitholders. Such Class O management fee will not exceed the Class F unit management fee rate.

The following table shows a breakdown of the services received in consideration of the management fees, as a percentage of the management fees collected from the Fund for the period ended December 31, 2020. These amounts do not include waived fees or absorbed expenses.

	Class A Units	Class F Units
Sales and trailing commissions paid to dealers	52.58%	0.00%
General administration, investment advice, and profit	47.42%	100.00%

## Past Performance

The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, or other optional charges payable by any unitholder that would have reduced returns. Past performance does not necessarily indicate how a fund will perform in the future.

The Fund's returns are after the deduction of fees and expenses, and the difference in returns between classes of units is primarily due to differences in the management expense ratio. See *Financial Highlights* section for the management expense ratio.

## Year-by-Year Returns

These bar charts show the annual performance of each class of units of the Fund for each of the periods shown, and illustrate how the performance has changed from period to period. These bar charts show, in percentage terms, how an investment made on January 1 would have increased or decreased by December 31, unless otherwise indicated.

Class A Units

Class F Units

<sup>a</sup> 2020 return is for the period from July 6, 2020 to December 31, 2020.

Class O Units

<sup>a</sup> 2015 return is for the period from October 30, 2015 to December 31, 2015.

**Annual Compound Returns**

This table shows the annual compound return of each class of units of the Fund for each indicated period ended on December 31, 2020. The annual compound total return is also compared to the Fund's benchmarks.

The Fund's primary benchmarks are the S&P/TSX Composite Index and the S&P/TSX Capped Energy Index.

The Fund's blended benchmark (referred to as *Blended Benchmark*) is comprised of the following:

- 55% S&P/TSX Energy GICS Level 1 Index
- 45% MSCI World Energy Index

	1 Year	3 Years	5 Years	10 Years*	or	Since Inception*	Inception Date

\* If a class of units has been outstanding for less than 10 years, the annual compound return since inception is shown.

**MSCI World Energy Index** is a capitalization-weighted index that monitors the performance of energy stocks from around the world.

**S&P/TSX Capped Energy Index** is intended to represent the Canadian energy sector and includes companies listed on the TSX that are primarily engaged in the oil and gas industry. Any constituent's relative weight is capped at 25% of the total index quoted market value.

**S&P/TSX Composite Index** is intended to represent the Canadian equity market and includes the largest companies listed on the TSX.

**S&P/TSX Energy GICS Level 1 Index** is a float-adjusted market capitalization weighted index. The constituents of the Index are a subset of the constituents of the S&P/TSX Composite Index that have been classified as part of the energy sector according to the Global Industry Classification Standard. Included in this sector are companies that are involved in the construction or provision of oil rigs, drilling equipment and other energy-related service and equipment, including seismic data collection, and companies engaged in the exploration, production, marketing, refining and/or transportation of oil and gas products, coal and other consumable fuels.

**A note on forward-looking statements**

The management report of fund performance may contain forward-looking statements. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates”, or other similar wording. In addition, any statements that may be made concerning future performance, strategies, or prospects and possible future actions taken by the fund, are also forward-looking statements. Forward-looking statements are not guarantees of future performance. These statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results and achievements of the fund to differ materially from those expressed or implied by such statements. Such factors include, but are not limited to: general economic, market, and business conditions; fluctuations in securities prices, interest rates, and foreign currency exchange rates; changes in government regulations; and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. CIBC does not undertake, and specifically disclaims, any obligation to update or revise any forward-looking statements, whether as a result of new information, future developments, or otherwise prior to the release of the next management report of fund performance.
