Annual Management Report of Fund Performance

for the financial year ended December 31, 2024

All figures are reported in Canadian dollars unless otherwise noted.

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling toll-free at <u>1-800-465-3863</u>, by emailing us at <u>info@cibcassetmanagement.com</u>, by writing to us at CIBC Square, 81 Bay Street, 20th floor, Toronto, Ontario, M5J 0E7, or by visiting our website at <u>www.cibc.com/mutualfunds</u> or SEDAR+ at <u>www.sedarplus.ca</u>.

Unitholders may also contact us using one of these methods to request a copy of the investment fund's interim financial report, proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Management Discussion of Fund Performance

Investment Objective and Strategies

Investment Objective: CIBC Emerging Markets Fund (the *Fund*) seeks to provide long-term growth through capital appreciation by investing primarily in equity securities of companies operating in or earning significant revenues from an emerging country. An emerging country is any country included in the MSCI Emerging Markets Index.

Investment Strategies: The Fund uses a bottom-up stock selection approach, integrating traditional and quantitative fundamental research. The approach seeks to identify securities that are trading at attractive relative valuations, exhibiting sustainable positive fundamental change, and have earnings estimates revisions. This bottom-up stock selection also drives country and sector positioning.

Risk

The Fund is an emerging markets equity fund that is suitable for long term investors who can tolerate medium to high investment risk.

For the period ended December 31, 2024, the Fund's overall level of risk remained as discussed in the simplified prospectus.

Results of Operations

The Fund's portfolio sub-advisor is Victory Capital Management Inc. (the *Sub-Advisor*). The commentary that follows provides a summary of the results of operations for the period ended December 31, 2024. All dollar figures are expressed in thousands, unless otherwise indicated.

The Fund's net asset value increased by 24% during the period, from \$845,484 as at December 31, 2023 to \$1,047,619 as at December 31, 2024. Net sales of \$78,062 and positive investment performance resulted in an overall increase in net asset value.

Class A units of the Fund posted a return of 11.2% for the period. The Fund's benchmark, the MSCI Emerging Markets Index (the *benchmark*), returned 17.9% for the same period. The Fund's return is after the deduction of fees and expenses, unlike the benchmark's return. See the section *Past Performance* for the returns of other classes of units offered by the Fund.

Globally diverging inflation and monetary policy affected emerging market equities, driven primarily by domestic conditions rather than major global events. In China, consumer and business confidence remained depressed, labour and housing markets were weak, and deflationary pressures persisted.

Active conflicts in Ukraine and the Middle East, as well as trade tensions between the U.S. and China, were central concerns. Politics in Latin America, Europe and Africa impacted fiscal and monetary policies around the world. In the U.S., the presidential election delivered decisive results, with Donald Trump returning as president and Republicans taking all three chambers of government.

Stock selection in China, particularly in the consumer discretionary sector, detracted from the Fund's performance. At the sector level, stock selection in information technology detracted from performance. Underweight exposure to Alibaba Group Holding Ltd. detracted from performance as it reported improving margins and shareholder returns. An overweight holding in SK Hynix Inc. also detracted from performance. Its operating and net profits are expected to expand substantially over the next few years as a result of demand for artificial intelligence (*AI*) servers.

Stock selection in Taiwan contributed to performance, driven by information technology holdings Taiwan Semiconductor Manufacturing Co. Ltd. (*TSMC*), Elite Material Co. Ltd. and Chroma ATE Inc., which benefited from their exposure to the AI supply chain. At the sector level, stock selection in industrials and materials contributed to the Fund's performance. Many of the Fund's industrials holdings benefited from investments in power grid infrastructure, which has been exhausted by the proliferation of data centres supporting AI applications and by increased military spending.

Top individual contributors to performance included overweight holdings in HD Hyundai Electric Co. Ltd., TSMC and Emaar Properties PJSC. HD Hyundai Electric's share price rebounded as a result of better-thanexpected earnings and improving profitability across segments. TSMC's earnings were boosted by higher utilization rates for advanced nodes stemming from solid investments in AI servers. Emaar Properties formalized its dividend policy, committing to a share payout rate of more than double the consensus estimate for 2024–2027. The Sub-Advisor added a new holding in Infosys Ltd. to the Fund. After six quarters of sluggish growth, the company delivered better-thanexpected revenue growth, and its growth forecast was raised. The company also has good exposure to Al-related spending. A new holding in Meituan was added to the Fund. Over the past year, some improving trends have emerged, including a reduction in competition for community grocery buying and in-store dining and hotel booking.

China Construction Bank Corp. was also added to the Fund. Despite falling interest rates, the company's net interest margins were resilient due to its stronger deposit franchise and better deposit mix. It is also less exposed to property developer loans compared to its peers.

Existing holdings in Tencent Holdings Ltd. and TSMC were increased. Tencent Holdings is benefiting from the resumption of the new game approval process in China. In the Sub-Advisor's view, TSMC should continue to outgrow the sector and provide solid profitability, particularly with the mild recovery for cyclical industries.

PDD Holdings Inc. was eliminated from the Fund after its stock declined sharply on a negative forecast, lack of disclosure from management and lack of shareholder returns. Industrial and Commercial Bank of China Ltd. was sold as its results were lacklustre, with negative growth only offset by the release of provisions. A holding in Vale SA was eliminated, despite reporting better-than-expected earnings. The company's share price has been dominated by political news, with the further fall in the iron ore price weighing heavily on the stock.

Samsung Electronics Co. Ltd. was trimmed as the company continued to struggle with its foundry division, given its inability to attract clients for leading-edge nodes, and with the ramp-up of high bandwidth memory. A holding in PT Bank Mandiri (Persero) TBK was reduced to take profits following strong share price performance.

Recent Developments

Effective March 14, 2025, the annual management fee for Class A units will be reduced from 2.25% to 1.75% and from 1.25% to 0.75% for Class F units.

Effective March 14, 2025, Mackenzie Financial Corporation replaced Victory Capital Management Inc. as portfolio sub-advisor of the Fund.

The level of geopolitical risk disrupted the global economy and financial markets in unprecedented and unpredictable ways. This has resulted in significant volatility and uncertainty in financial markets. It is unclear what further actions may be taken by governments and the resulting impact on global economies, businesses and financial markets. Inflation has increased in many markets across the globe, leading central banks to raise interest rates in order to counter rapidly rising prices. These factors may adversely affect the Fund's performance. The Manager continues to monitor ongoing developments and the impact to investment strategies.

Related Party Transactions

CIBC and its affiliates have the following roles and responsibilities with respect to the Fund, and receive the fees described below in connection with their roles and responsibilities.

Manager

CIBC is the Fund's manager (the *Manager*). CIBC receives management fees with respect to the Fund's day-to-day business and

operations, calculated based on the net asset value of each respective class of units of the Fund as described in *Management Fees* section. From time to time, CIBC may invest in units of the Fund.

The Manager pays the Fund's operating expenses (other than certain fund costs) in respect of the class of units of the Fund (except class O unit), which may include but are not limited to, operating and administrative costs; regulatory fees; audit, and legal fees and expenses; trustee, safekeeping, custodial, and any agency fees; and investor servicing costs and costs of unitholder reports, prospectuses, Fund Facts, and other reports, in exchange for the Fund paying a fixed rate administration fee (plus applicable GST/HST) to the Manager with respect to those class of units. For class O units, no fixed administration fee will be charged. The Manager pays the Fund's operating expenses (other than certain Fund costs) allocated to Class O units of the Fund. The fixed administration fee payable by the Fund, may, in any particular period, exceed or be lower than the expenses we incur in providing such services to the Fund.

Trustee

CIBC Trust Corporation (*CIBC Trust*), a wholly-owned subsidiary of CIBC, is the Fund's trustee (the *Trustee*). The Trustee holds title to the Fund's property (cash and securities) on behalf of its unitholders.

Portfolio Advisor

The portfolio advisor provides, or arranges to provide, investment advice and portfolio management services to the Fund. CAMI, a wholly-owned subsidiary of CIBC, is the Fund's portfolio advisor.

Distributor

Dealers and other firms sell the units of the Fund to investors. These dealers and other firms include CIBC's related dealers such as the principal distributor, CIBC Securities Inc. (*CIBC SI*), the CIBC Investor's Edge discount brokerage division of CIBC Investor Services Inc. (*CIBC ISI*), the CIBC Imperial Investor Service division of CIBC ISI, and the CIBC Wood Gundy division of CIBC World Markets Inc. (*CIBC WM*). CIBC SI, CIBC ISI, and CIBC WM are wholly-owned subsidiaries of CIBC.

CIBC may pay trailing commissions to these dealers and firms, in connection with the sale of units of the Fund. These dealers and other firms may pay a portion of these trailing commissions to their advisors who sell units of the Fund to investors.

Brokerage Arrangements and Soft Dollars

The Portfolio Advisor and any portfolio sub-advisors make decisions, including the selection of markets and dealers and the negotiation of commissions, with respect to the purchase and sale of portfolio securities, certain derivative products and the execution of portfolio transactions. Brokerage business may be allocated by the Portfolio Advisor and any portfolio sub-advisors, to CIBC WM and CIBC World Markets Corp., each a subsidiary of CIBC. CIBC WM and CIBC World Markets Corp. may also earn spreads on the sale of fixed income and other securities and certain derivative products to the Fund. A spread is the difference between the bid and ask prices for a security in the applicable marketplace, with respect to the execution of portfolio transactions. The spread will differ based upon various factors such as the type and liquidity of the security.

Dealers, including CIBC WM and CIBC World Markets Corp., may furnish goods and services, other than order execution, to the Portfolio Advisor and any portfolio sub-advisors, in partial exchange for processing trades through them (referred to in the industry as "soft dollar" arrangements). These goods and services are paid for with a portion of the brokerage commissions and assist the Portfolio Advisor and any portfolio sub-advisors, with investment decision-making services for the Fund or relate directly to the execution of portfolio transactions on behalf of the Fund. As per the terms of the portfolio sub-advisory agreements, such soft dollar arrangements are in compliance with applicable laws.

During the period, the Fund did not pay any brokerage commissions or other fees to CIBC WM or CIBC World Markets Corp. Spreads associated with fixed income and other securities are not ascertainable and, for that reason, cannot be included when determining these amounts.

Fund Transactions

The Fund may enter into one or more of the following transactions (*Related Party Transactions*) in reliance on the standing instructions issued by the IRC:

- invest in or hold equity securities of CIBC or issuers related to a portfolio sub-advisor;
- invest in or hold non-exchange-traded debt securities of CIBC or an issuer related to CIBC, with terms-to-maturity of 365 days or more, issued in a primary offering and in the secondary market;
- make an investment in the securities of an issuer for which CIBC WM, CIBC World Markets Corp., or any affiliate of CIBC (the *Related Dealer* or *Related Dealers*) acts as an underwriter during the offering of the securities or at any time during the 60-day period following the completion of the offering of such securities (in the case of a "private placement" offering, in accordance with the exemptive relief order granted by the Canadian securities regulatory authorities and in accordance with the policies and procedures relating to such investment);
- purchase equity or debt securities from or sell them to a Related Dealer, where it is acting as principal;
- undertake currency and currency derivative transactions where a Related Dealer is the counterparty;
- purchase securities from or sell securities to another investment fund or a managed account managed by the Manager or an affiliate; and
- engage in in-specie transfers by receiving portfolio securities from, or delivering portfolio securities to, a managed account or another investment fund managed by the Manager or an affiliate, in respect of a purchase or redemption of units in the fund, subject to certain conditions.

At least annually, the IRC reviews the Related Party Transactions for which they have issued standing instructions. The IRC is required to advise the Canadian securities regulatory authorities, after a matter has been referred or reported to the IRC by the Manager, if it determines that an investment decision was not made in accordance with a condition imposed by securities legislation or the IRC in any Related Party Transactions requiring its approval.

Custodian

CIBC Mellon Trust Company is the Fund's custodian (the *Custodian*). The Custodian holds all cash and securities for the Fund and ensures that those assets are kept separate from any other cash or securities that the Custodian might be holding. The Custodian also provides other services to the Fund including record-keeping and processing of foreign exchange transactions. The fees and spreads for the services of the Custodian directly related to the execution of portfolio transactions by the Fund are paid by CAMI and/or the dealer(s) directed by CAMI, up to the amount of the credits generated under soft dollar arrangements from trading on behalf of the Fund during that month. All other fees and spreads for the services of the Custodian are paid by the Manager, in return for receiving a fixed administration fee from the Fund. CIBC owns a 50% interest in the Custodian.

Service Provider

The Custodian also provides certain services to the Fund, including securities lending, fund accounting and reporting, and portfolio valuation. The Manager receives a fixed administration fee from the Fund, in return, the Manager pays certain operating expenses which includes custodial fees (including all applicable taxes) and the fees for fund accounting, reporting, and fund valuation (including all applicable taxes) to CIBC Mellon Trust Company. Where applicable, securities lending fees are applied against the revenue received by the Fund.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the period ended December 31.

^a Information presented is for the period from the inception date to December 31.

^b Initial offering price.

* Ratio has been annualized.

¹ This information is derived from the Fund's audited annual financial statements.

² Net assets and distributions are based on the actual number of units outstanding at the relevant time. The total increase (decrease) from operations is based on the weighted average number of units outstanding during the period.

³ Distributions were paid in cash, reinvested in additional units of the Fund, or both.

⁴ This information is presented as at December 31 of the period(s) shown.

⁵ Management expense ratio is based on the total expenses of the Fund (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period. The management expense ratio includes the fees attributable to exchange traded funds, where applicable.

⁶ The decision to waive management fees and/or fixed administration fees is at the discretion of the Manager. The practice of waiving management fees and/or fixed administration fees may continue indefinitely or may be terminated at any time without notice to unitholders. The management expense ratio before waivers or absorptions includes the fees attributable to exchange traded funds, where applicable.

⁷ The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation.

⁸ The portfolio turnover rate indicates how actively the portfolio advisor and/or portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Fund.

Inception date: June 1, 2010

Management Fees

The Fund, either directly or indirectly, pays CIBC an annual management fee to cover the costs of managing the Fund. Management fees are based on the Fund's net asset value and are calculated daily and paid monthly. Management fees are paid to CIBC in consideration for providing, or arranging for the provision of, management, distribution, and portfolio advisory services. Advertising and promotional expenses, office overhead expenses and trailing commissions are paid by CIBC out of the management fees received from the Fund. The Fund is required to pay applicable taxes on the management fees paid to CIBC. Refer to the Simplified Prospectus for the annual management fee rate for each class of units. For Class O units, the management fee is negotiated with and paid by, or as directed by, unitholders or dealers and discretionary managers on behalf of unitholders. Such Class O management fee will not exceed the Class F unit management fee rate.

The following table shows a breakdown of the services received in consideration of the management fees, as a percentage of the management fees collected from the Fund for the period ended December 31, 2024. These amounts do not include waived fees or absorbed expenses.

	Class A Units	Class F Units
Sales and trailing commissions paid to dealers	37.51%	0.00%
General administration, investment advice, and profit	62.49%	100.00%

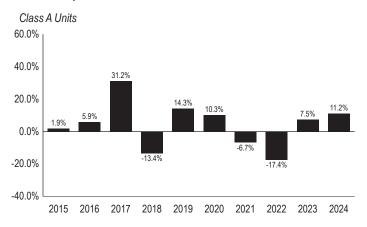

Past Performance

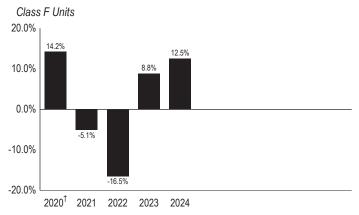

The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, or other optional charges payable by any unitholder that would have reduced returns. Past performance does not necessarily indicate how a fund will perform in the future.

The Fund's returns are after the deduction of fees and expenses, and the difference in returns between classes of units is primarily due to differences in the management expense ratio. See the *Financial Highlights* section for the management expense ratio.

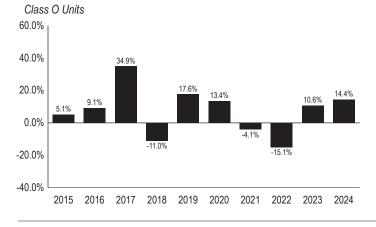

Year-by-Year Returns

These bar charts show the annual performance of each class of units of the Fund for each of the periods shown, and illustrate how the performance has changed from period to period. These bar charts show, in percentage terms, how an investment made on January 1 would have increased or decreased by December 31, unless otherwise indicated.

[†] 2020 return is for the period from July 6, 2020 to December 31, 2020.

Annual Compound Returns

This table shows the annual compound return of each class of units of the Fund for each indicated period ended on December 31, 2024. The annual compound total return is also compared to the Fund's benchmark(s).

The Fund's benchmark is the MSCI Emerging Markets Index.

Class and Benchmark(s)	1 Year (%)	3 Years (%)	5 Years (%)	10 Years* (%)	or Since Inception* (%)	Inception Date
Class A units	11.2	(0.4)	0.3	3.6		December 11, 1995
MSCI Emerging Markets Index	17.9	2.9	4.2	6.3		
Class F units	12.5	0.7			2.3	July 6, 2020
MSCI Emerging Markets Index	17.9	2.9			5.7	
Class O units	14.4	2.4	3.2	6.6		June 1, 2010
MSCI Emerging Markets Index	17.9	2.9	4.2	6.3		

If a class of units has been outstanding for less than 10 years, the annual compound return since inception is shown.

MSCI Emerging Markets Index is a free float-adjusted market capitalization index that is intended to represent the emerging countries equity market. It includes stocks from emerging countries in Asia, Latin America, Europe, Africa, and the Middle East.

A discussion of the Fund's relative performance compared to its benchmark(s) can be found in Results of Operations.

Summary of Investment Portfolio (as at December 31, 2024)

The summary of investment portfolio may change due to ongoing portfolio transactions of the investment fund. A quarterly update is available by visiting <u>www.cibc.com/mutualfunds</u>. The Top Positions table shows the Fund's 25 largest positions. If the fund holds fewer than 25 positions in total, all positions are shown. Cash and cash equivalents are shown in total as one position.

A note on forward-looking statements

The management report of fund performance may contain forward-looking statements. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", or other similar wording. In addition, any statements that may be made concerning future performance, strategies, or prospects and possible future actions taken by the fund, are also forward-looking statements. Forward-looking statements are not guarantees of future performance. These statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results and achievements of the fund to differ materially from those expressed or implied by such statements. Such factors include, but are not limited to: general economic, market, and business conditions; fluctuations in securities prices, interest rates, and foreign currency exchange rates; changes in government regulations; and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. CIBC does not undertake, and specifically disclaims, any obligation to update or revise any forward-looking statements, whether as a result of new information, future developments, or otherwise prior to the release of the next management report of fund performance.
